## HOROSCOPES

By Soup Can Sam, Staff Astrologist

### Sagittarius (Nov. 23-Dec. 23)

Expectations are tricky things. Keep yours high and mighty for the rest of the year, and the world around you will follow through – but not always in ways you might expect. When you least expect it, though, expect it.

**Capricorn (Dec. 24-Jan. 19)** You don't have to think diamonds are beautiful, or that success can be measured in money, or even that your friend's new tattoo is poignant. Others can handle that responsibility. You've got your own beauty to pursue! Chop chop!

**Aquarius (Jan. 20-Feb. 18)** New Year's resolutions? Shmesolutions! You're already fairly resolved. No need to go all overachiever on us all of sudden. They're only numbers after all.

**Pisces (Feb. 19-March 20)** Always remember that the yellow line you see on the screen is not official.

Neither are a lot of other lines you draw in your head. The wise willow bends to inclement weather, and grows stronger in its own footing.

**Aries (March 21-April 19)** For those of you reading this on Friday, thanks for spending your last dollar on a Street Roots. For those of you reading this between Dec. 22 and Jan. 3, cherish this issue. Don't burn it yet; you will want to keep some remnant of written English to remember what (un)civil society once looked like.

**Taurus (April 20-May 20)** Soup Can doesn't discriminate against any holiday — I'm expecting gifts for all of them. Make it a New Year's resolution to try it with me in 12 months.

**Gemini (May 21-June 20)** Happy Solstice: the shortest day of the year and the most perfect for cleansing your chakras and all your crystals in a moon bath. Go outside at midnight, dance under the stars and shed all the layers of a year past. New Year's resolutions don't have to start at midnight on

Jan. 1; you can put them in practice early.

**Cancer (June 21-July 22)** This is the time of year to hit the color! Chartreuse and pomegranate beckon! Tangerine and lime want you now! Stay away from neon. Forever.

**Leo (July 23-Aug. 22)** The holidays aren't all about the presents, you know. There is the food, too: brie and crackers, bruschetta, Santa's sugar cookies, and your step-grandma's cheeseball that you have to politely decline every year because, no matter what you tell her, she can't seem to remember that you're a vegetarian and, more than just a flavor, bacon is actually a meat.

**Virgo (Aug. 23-Sept. 22)** There's never been a better time to prep for nude sunbathing on Sauvie Island.

**Libra (Sept. 23-Oct. 22)** Love is the answer.

**Scorpio (Oct. 23-Nov. 22)** 2013 wants a piece of you.
