HOROSCOPES

By Soup Can Sam, staff astrologist

Capricorn (Dec. 22-Jan. 19)

No need to wait for Valentine's Day, your sweet heart will come early this year. Be on the look out for shy grins.

Aquarius (Jan. 20-Feb. 18) The new year will bring some expensive surprises, both good and bad. Start adding a little more to the rainy day fund and you will be set.

Pisces (Feb. 19-March 20) Gray weather got you down? Wondering where the rain went? Get back to your fishy roots and hit the coast, or at least the seafood department of the corner grocery.

Aries (March 21-April 19) Turn off the football! The Bears season wont get any better. The Chargers have seen the light. And yes, painting

your toenails cheddar yellow got the Packers their win. Try it.

Taurus (April 20-May 20) It's soup season and you're on call. Get a large pot and everything that goes with it, I'm talking not just potatoes, bust out the beef and celery root. Give it to your friends, don't take no for an answer.

Gemini (May 21-June 20) What have you done to your hair Gemini? Were you going for Flock of Seagulls? More like murder of crows.

Cancer (June 21-July 22) They say with the new year we should reflect and try to learn from our past mistakes, but you are right on track. Just remember to cross your Ts and dot your Is.

Leo (July 23-Aug. 22) Your charm has just about run out. All those sultry words and slick smiles will

be too much for 2014. Tune it down a bit or you will get more than you bargained for.

Virgo (Aug. 23-Sept. 22) You forgot to send a holiday card to your great aunt twice-removed and now she's fuming. Better bring extra dessert to the next family reunion.

Libra (Sept. 23-Oct. 22) Your baby is not a smart phone. It needs love and care, not the newest app. #newborn#technodiaper

Scorpio (Oct. 23-Nov. 21) Remember the story about the Little Train that Could. You are the caboose.

Sagittarius (Nov. 22-Dec. 21) Time to do some serious thinking about your career choices in the coming year. You might need to cut some ties, but it will be better in the long run.
