HOROSCOPES

By Soup Can Sam, staff astrologist

Capricorn (Dec. 22-Jan. 19)

Let go of the polar vortex, always clinging to the frigid and overwhelming. Warm up that glum outlook with a new recipe for butternut squash!

Aquarius (Jan. 20-Feb. 18) Feeling confused this week? It's Jupiter hanging around your head. Clean out the closets and you will get relief.

Pisces (Feb. 19-March 20) Now is the time to recapture that love that didn't pan out last year. Just tread lightly or things will be even worse.

Aries (March 21-April 19) You can have nice things, or you can have a puppy.

Taurus (April 20-May 20) The moon is leading you on the right path. Your judgements are correct, use this time to make some hard choices.

Gemini (May 21-June 20) Relationships can be more important than age-old doctrine. Be open minded to your peers' lives and you will grow.

Cancer (June 21-July 22) The wise once said you can cut glass with a ribbon, but not if you are carrying a bird. Leave the parrot at home.

Leo (July 23-Aug. 22) Your destiny is about to become clear at the end of this month. Keep your pathways open.

Virgo (Aug. 23-Sept. 22) You may not be a

football fan, but that doesn't mean you can't enjoy the good times of friends and family as they fight over the last of the ranch dip and wear their smelly, but lucky, socks.

Libra (Sept. 23-Oct. 22) Go to the library and check out a book on a craft or skill you don't know how to do. This is the best time to learn something new.

Scorpio (Oct. 23-Nov. 21) So you thought organizing a Superbowl party would be easy? How hard can it be? Think again and hide the cat.

Sagittarius (Nov. 22-Dec. 21) Where did you leave your keys? Your glasses aren't in their case. Your coffee mug has vanished from your desk. The forgetful cloud will not go away soon. Maybe take notes?
