HOROSCOPES

By Soup Can Sam, staff astrologist

Aries (March 21-April 19)

There are days when there aren't enough rays in the sky to dry up the winter damp. Today is not that day. Get out there now.

Taurus (April 20-May 20) Each day my neighbor walks her cat on a leash through my backyard. And each day I watch her do it. Life can be like this, wondering who is crazier.

Gemini (May 21-June 20) You will soon develop an irrational fear of rabbits, maybe stay inside for the coming months.

Cancer (June 21-July 22) You're a skinny-jean fit with a bell-bottom heart. Embrace your many facets.

Leo (July 23-Aug. 22) The battle is on! Take up arms for the cotton revolution! Paper towels are for sissies.

Virgo (Aug. 23-Sept. 22) The answer, like last week's safe word, is floral.

Libra (Sept. 23-Oct. 22) Make peace with the Capricorns in your life. No point in butting heads all summer.

Scorpio (Oct. 23-Nov. 21) You will always make more friends with a clean camp and a friendly dog than you will with a bad attitude, no matter what uniform you wear.

Sagittarius (Nov. 22-Dec. 21) Once upon a time was a long time ago. You're a modern Oregonian, baby! Always forward! Never straight!

Capricorn (Dec. 22-Jan. 19) It's time to go get a cat. No really, go get a cat. Why are you still reading, Go! Go now! Cat! CAT!

Aquarius (Jan. 20-Feb. 18) Plead the Fifth. Repeatedly, with good cause and a clear conscience.

Pisces (Feb. 19-March 20) Don't cast aspersions on Virgos. They are not the nasty creatures you think they are.
