Taurus (April 20-May 20)

Words are tricky things, especially when you're not there to back them up. Ever notice how a totally benign text will get the worst interpretation possible? Clarify with kindness — not those sarcastic emoticons!

Gemini (May 21-June 20) Kale, coffee, wine, everyone is up in arms about the benefits vs. the detriments of these products. However tempting, though, do not make a kale-coffee-wine smoothie.

Cancer (June 21-July 22) Bananas contain potassium that can help reduce the pain of sore muscles. Find your spiritual banana this week.

Leo (July 23-Aug. 22) Go back to the simple life this week.

like shooting beer cans with BB guns while sauced on PBR. It's delinquency at its finest, and you are sorely in need of some more of it.

Virgo (Aug. 23-Sept. 22) April showers bring May flowers and allergies. Carry tissues with you this coming week — enough to share.

Libra (Sept. 23-Oct. 22) The blood moon may not be out, but we are still feeling its effect. Howl and the world howls with you!

Scorpio (Oct. 23-Nov. 21) Feeling overwhelmed by our technology crazed society? You're thinking maybe it's time to go back to the basics and get some chickens? It's not.

Sagittarius (Nov. 22-Dec.21) This week will see your artistic side open up. Write with wild abandon, but reveal judiciously.

Capricorn (Dec. 22-Jan. 19) Some say that the road to success is lined with roses. Some say the road to success is lined with thorns. Some say a lot of things, some very little. The only thing certain about your road to success is the oncoming traffic.

Aquarius (Jan. 20-Feb. 18) Sharpen your pencil and exercise your vote! Democracy doodlin' time is nigh!

Pisces (Feb. 19-March 20) Do not follow other Pisces too closely this month. A touch of the Loki is afoot among the fish.

Aries (March 21-April 19) Feeling invisible? Feeling like no one pays you any mind? Feel like you're wasting away behind that desk and no one takes your work seriously? Well, it's all in your head. Keep your pants on in public.
