HOROSCOPES

By Soup Can Sam, staff astrologist

Cancer (June 21-July 22)

Sleep on your left side. There are good things to be found on that side of the bedroom. Closing your eyes is optional.

Leo (July 23-Aug. 22) Leave the hash pipe at home. When your boss said smoke out, she meant BBQ.

Virgo (Aug. 23-Sept. 22) Shooting stars seldom arrive when you expect them. They are flighty and unreliable. Be a major planet the rest of the month and take comfort in the unexpected irregularities of your orbit.

Libra (Sept. 23-Oct. 22) People often don't realize you can hear them. Use this power next week to your advantage.

Scorpio (Oct. 23-Nov. 21) You don't have to wake up every day. But you will want to.

Sagittarius (Nov. 22-Dec. 21) Opportunities will stop knocking and start rocking. Be ready.

Capricorn (Dec. 22-Jan. 19) Put water between you and the earth.

Aquarius (Jan. 20-Feb. 18) Telling people how you feel accomplishes little. Show them and they will genuinely respond.

Pisces (Feb. 19-March 20) You thought you had seen everything. Just wait till tomorrow. Pack a poncho, a spool of twine and some rubber gloves for the day.

Aries (March 21-April 19) Staying inside and watching all the Fellini movies you can find may seem like a good idea, till you're babbling surreal nonsense. No one will tell you when you're off the grid.

Taurus (April 20-May 20) New Willamette River beaches! They will be nude in no time. Wait till it's official.

Gemini (May 21-June 20) Sip more, gulp less.
