HOROSCOPES

By Soup Can Sam, staff astrologist

Libra (Sept. 23-Oct. 22) Oh Libra, it's your time to be bold. There's no time like the present. Go crazy.

Scorpio (Oct. 23-Nov. 21) It's time like these Scorpio that you've just got to take the bull by the horns. Try getting ahead of the curve for once. It will do you good. No excuses.

Sagittarius (Nov. 22-Dec. 21) I haven't a clue about what's going to help you this week Sagittarius. You and only you have that knowledge. Use it. Wisely.

Capricorn (Dec. 22-Jan. 19) We know you're

amazing. You know you're amazing. Let the world know just how amazing you are. BTW, not on Facebook, with selfies. Be creative.

Aquarius (Jan. 20-Feb. 18) Try harder.

Pisces (Feb. 19-March 20) Swim. Faster. Avoid the deep end.

Aries (March 21-April 19) To be honest, I don't what's going to get you through this month. Lean on a friend, possibly a bottle. Whatever it takes to get you through the night.

Taurus (April 20-May 20) Soup Can believes

that anything is possible. Even for you Taurus. Look to the horizon and leave the past alone.

Gemini (May 21-June 20) Take your job and shove it.

Cancer (June 21-July 22) Just try not to be crazy this month and you'll be a success.

Leo (July 23-Aug. 22) Leo, this is your month. Don't f*ck it up. Remember to vote.

Virgo (Aug. 23-Sept. 22) The reality is, you're not always right and you know it. You don't have to tell anyone, but you might think on that, Virgo. It will get you a lot further in life.
