HOROSCOPES

By Soup Can Sam, staff astrologist

Sagittarius (Nov. 22-Dec. 21)

Stop tolerating intolerance. You know right from wrong. Push it!

Capricorn (Dec. 22-Jan. 19) You're juggling act is going to become more complicated toward the end of the month, when you'll have twice as many muon catalysed fusion processes to manage! Stock up on vitamin C!

Aquarius (Jan. 20-Feb. 18) You're word for next week: Harness.

Pisces (Feb. 19-March 20) Lock, stock and barrel is no way to pack for the family gathering.

Aries (March 21-April 19) You're love lamp will need new oil soon. You will not want to be caught without.

Taurus (April 20-May 20) You're financial outlook is right where we'd expect it to be.

Gemini (May 21-June 20) Opposites do attract, but they take some work to make stick. Stay sticky!

Cancer (June 21-July 22) Curious about the biking habits of the middle aged? Yeah, we're not either.

Leo (July 23-Aug. 22) Just think of all the new words you learned this year! Permalancer, truel, solopreneur! Great to know your fauxmenculture will only expand in 2015!

Virgo (Aug. 23-Sept. 22) Stop searching but keep looking.

Libra (Sept. 23-Oct. 22) If pickles are calling you, answer quickly.

Scorpio (Oct. 23-Nov. 21) Ponder the gray skies with love, not bitterness.
