

"Living on Social Security, there was no way I could afford a place to call home. It was frightening. But I was able to find one of the rare, subsidized apartments that so many others can't. Now I can pay my bills and get decent groceries. More important, I have stability, peace and independence."

— Kathleen

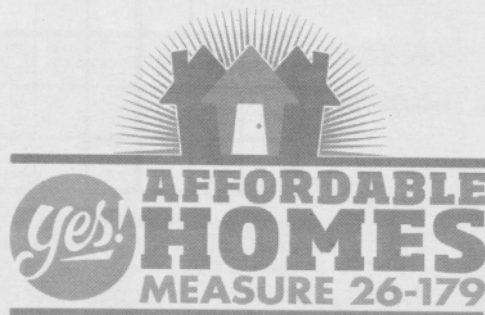

"Every year, the rents are going up here in my apartment. I'm paying \$750 but they are going to raise our rent this year, we've heard. We're on the waiting list for a lot of other low-income housing, but it's been a long time and we're not able to get into other affordable housing because there's not enough affordable housing in this city.

That's why I went to City Hall to testify in favor of Measure 26-179, so that there can be more affordable homes and apartments for people in the city."

— Wendy

Skyrocketing rents. Families losing their homes. Seniors on fixed incomes forced out of their neighborhoods. People experiencing homelessness. We are all touched by Portland's affordable housing crisis. **As a community, we must act.**

**Vote YES on
Measure 26-179,
Portland's
Affordable
Housing Bond.**
