While in Portland this week, L. Bradley informs us that he affected the organization of a telephone and electric company, whose operations will embrace a wide circuit. In the bestowal of gifts, don't forget those who are less fortunate than yourself, and have but little of this world's goods, but endeavor to make some lonely one happy. The publishers of the Capital Journal of Salem say they are sending out at their own expense nearly a 1000 copies of that paper each day as "a beacon light of truth and the helping hand of unbiased information" to overcome the ignorance about Oregon. [If people here, who have friends and relatives in the East, would take that interest in the settling and development of Oregon that they should, there would be a large number of home papers sent to the East, and Oregon would be much better known. The result would be early settlement of this state with enterprising and energetic people, who would induce capital to invest here, and operate factories, canneries, creameries, and other industries, which would keep money in circulation here at home.—Ed.]

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.
