

The American Protective League has just issued, in pamphlet form, the speech of Senator Elkins of West Virginia on the subject of the American Merchant Marine and Discriminating Duties. This complete presentation of the benefits of discriminating duties as pledged by the republican platform should be read by every voter. Any of our readers can obtain a copy for 2 cents. Ask for Document No. 44 and address W. F. Wakeman, Gen'l Sec., 135 West 23d St., New York.

Rural mail service is to be given at Salem. The mail is to be delivered to residents in the suburbs of that city and the immediate farming community, by carrier the same as in the city. This is an advanced step, but is only an experiment. It is hoped that it will prove to be a success and made permanent, and that other cities in the state will get same service.

A gentleman now in Washington City, who is a resident of a western state, and with whom the editor of the HERALD is intimately acquainted, in a letter received from him by the editor, writes as follows of Oregon's senator:

"I think Senator McBride as fine a gentleman as I ever had the pleasure to meet. He is pleasant, affable and agreeable; ready to accommodate whenever it is in his power. He is a warm friend to the old soldier, wherever he meets him. The old soldiers of Oregon, I am convinced, are exceedingly fortunate in having an true friend in the Senate of the United States. I think that the people of Oregon are to be congratulated upon their selection of Mr. McBride as United States Senator. I hope that the people of Oregon will retain him in the senate for many years, as I believe that he will accomplish much for the state in that position."

This, coming from a resident of another state, we consider highly complimentary to Oregon's senator, and also to the state at large. We the more cheerfully publish it as Senator McBride was formerly a resident of this, Yamhill, county, and resided in the vicinity of Dayton.

The writer had an interview with President McKinley and was pleased with his courteous treatment and considerate attention. He believes that our President is a man who will respect the people and command the respect of other nations for this nation. The gentlemen believe that with such men of intelligence and honor as our Senator McBride, Hanna Gowdy, Foranquar, and other like men that the President will have good backing.

LATE EXPOSITION NEWS.

OMAHA, Neb., May 12, 1897. The department of concessions of the exposition has received an application for space for the erection of a mechanical device which will equal, if not surpass, the great Ferris wheel, in novelty and engineering ingenuity. For want of a better name the inventor describes his invention as a carousel. Its mechanism resembles the framework of a gigantic umbrella. The part corresponding to the stick of the umbrella is an immense cylindrical shaft, 30 feet in diameter, constructed of steel plates, firmly riveted, making a "standpipe," which rears its lofty head 250 feet above level of the ground. At the top of this shaft are fastened twelve long arms resembling the ribs of an umbrella. These are steel trusses, the points of which may be lowered almost to the ground. At the extremity of each of these ribs is suspended a car having a capacity for 20 persons. These monster ribs are raised in unison by hydraulic power, acting by means of steel cables operating inside the "standpipe," aided by a mechanism greatly resembling that part of umbrella brought into action when opened. The gigantic arms are raised until horizontal, the cars being carried outward and upward until they reach a point 250 feet above the ground. When the highest point is reached other mechanism is brought into play and the suspended cars are swung slowly around in a circle. The sides of cars are formed of windows from which a view of the surrounding country may be obtained for miles. It is estimated that the cost of installing this monster machine on exposition grounds will be about \$80,000. The device is the invention of a Chicago man, and his application is accompanied by documentary evidence that the project is backed by a corporation composed of capitalists and solid financiers, who are prepared to put money enough into the enterprise to insure its success.

Deadwood parties have made application for 33,000 square feet in the mines and mining building, for an exhibit of the mining industries of the Black Hills, which it is expected will require even more space than that mentioned. The attraction is to make this the most attractive mining exhibit ever known. A dispatch from Springfield, Ill., says that the Gill appropriating \$50,000 for the participation of Illinois in the Trans-Mississippi Ex-

In its June number The Ladies' Home Journal will celebrate the Diamond Jubilee in a way distinctly its own. In an article by William George Jordan, entitled "What Victoria Has Seen," the reader will be taken on the British throne, and the marvelous progress of the world's history for 60 years will pass before him. He will at a glance see the progress in art, science, invention, music education, the great social reforms, the growth of nations and the advance of civilization. The whole story of the world's progress of the longest reign in English history will be vividly presented.

The Willamette Pulp and Paper Co. are preparing ground along the Willamette river bottom in which to set out young balsam trees. They have set out this season, 5000 or more young balsam trees at Five Island's, about two miles below Lambert's landing. They have men employed—J. W. and Wm. Fawver—preparing and cultivating land at that place, and expect next season to set out about 40,000 young trees. The balsam makes a very rapid growth naturally, and with cultivation when young will probably make a still more rapid growth. They will be fit for use in making pulp when 9 and 10 years old. It is found that the pulp mills are not only beneficial to Oregon City, but to a large scope of the surrounding country. There is some little benefit derived from them even at this place. But a good paper mill at Dayton would be the proper thing, and we believe a good investment for capitalists.

"For God, and Home, and Yellow Lead." The petition for woman suffrage that has been circulated in the United Kingdom was signed by two hundred and fifty-seven thousand women.

The Health Culture Society of Brooklyn has adopted a walking skirt three inches from the ground in which they will appear in public next month, setting a sensible fashion.

Out of four hundred and fifty-one colleges and universities in the United States only forty-one are closed to women. All the others are now co-educational. And besides, women have one hundred and forty-three schools of the higher education with thirty thousand students.

The women of this country will have more to do with its politics year by year. That is apparent from the interest they had and the work they did in the late campaign. In a few states they voted. In the others they read and lectured and worked. All the tendencies point to the fact that very many of them want to vote and their right to vote is undisputed by thinking men. The only thing in question is the matter of propriety, and that is inevitably settled, sooner or later, by the fact of justice.

R. J. Hendricks superintendent of the state reform school, sent his resignation to the state board April 3d. His resignation was accepted, and the board appointed E. M. Croisan to fill that position. Mr. Croisan served as sheriff of Marion county two terms, and is a well known business man. His appointment is believed to be a good one. Mrs. Croisan succeeds Mrs. Hendricks as matron of the school.

Preparations are in progress for the annual horse race, which is called the Oregon state fair, for which the people are taxed to support by an appropriation annually by the state legislature.

TERRIBLE ACCIDENT.—It is a terrible accident to be burned or scalded; but the pain, agony and frightful disfigurements can be quickly overcome without leaving a scar by using Dr. Witt's Witch Hazel Salve.

One thing that Dayton is in need of is a good reliable bank. The merchants need it; the business man needs it; everybody needs it. W. B. Johnson, Newark, O., says, "One Minute Cough Cure cured my only child from dying by cough. It has saved thousands of others."

The best provision for the year of the local teachers' institute will be held Saturday, May 22, at the George Otto school house, 7 miles from McMinnville on the Sheridan road. It is hoped by the county superintendent that all will attend. The annual county institute will be held in the Columbia school building June 26 to 28th. It is believed that this date will accommodate a greater number of teachers than would a later date.

The Best Remedy for Rheumatism.

From Fitchburg (N. Y.) Register. James Rowland of this village, states that for 25 years his wife has been a sufferer from rheumatism. A few weeks ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had read of Chamberlain's Pain Expeller, and instead of going for the physician he went to the store and secured a bottle of it. She did not approve of Mr. Rowland's purchase at first, but nevertheless applied the Balm thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or pain, and finds that it always gives relief. He says that no medicine which he had used ever did her so much good.
