## The Queen Preparing to Quit Spain at a Moment's Notice.

### THE RIOTS STILL CONTINUE

Officials Cannot Check Them—Government's Policy Criticized in the Cortes—Much Anxiety Expressed as to the Fate of Porto Rico.

London, May 7.—The Vienna correspondent of the Telegraph says: "Apartments have been reserved at a hotel here for the queen regent of Spain, in case she arrives here before apartments have been prepared for her in her brother's palace. Telegrams from the Austrian ambassador at Madrid, Count Dubski, indicate that the queen regent is only waiting for a suitable moment to quit Spain without detriment to the interests of her son."

Rioting Continues in the Provinces. Madrid, May 7.—A mob of about 8,000 striking miners made a tumultuous demonstration at Murcia, capital of the province of that name, 30 miles from the port of Cartagena. They shouted "Death to the thieves!" "Down with the taxes!" They attempted to set fire to the railroad depot and other buildings, and then began a movement toward Cartagena. A force of troops have prevented the rioters from moving on the port. A number of men were wounded.

The disturbances caused by high prices and scarcity of food continue in the provinces. There have been frequent conflicts between the rioters and civil guards, and looting, shooting and shooting are reported from various points. At Barcelona there is a renewed run on the bank, holders of notes demanding silver.

Rioting continues at the seaport town of Gijon, province of Oviedo, where yesterday the fishermen and the tobacco girls sacked bakeries and burned all the stores of flour. At a cabinet council today, over which the queen regent presided, the premier, Senor Sagasta, explained the situation and reported the arrival at Porto Rico of the steamer Alfonso XIII. Having on board, it is said, reinforcements of troops and a very valuable cargo, including ammunition and supplies.

The premier also announced the opening of the Cuban parliament, and the queen regent signed the resources bill. The cabinet afterwards held another meeting and deliberated upon the financial situation, and measures were taken and contemplated to preserve public order in the localities where disturbances have occurred.

The debate on the government policy was resumed in the cortes today, the sitting being mainly occupied with the continuation of Senor Robledo's speech. He severely criticized the government for its lack of foresight, and after putting various questions to members of the cabinet as to the government plan, he announced that he would ask the cortes to vote an income tax.

In the chamber today Senor Robledo asked why, after issuing from the bay, Admiral Montojo returned to Cavite, "thus becoming a simple target for the enemy." Admiral Bermejo, minister of marine, replied that Admiral Montojo acted entirely at his own discretion, no instructions having been sent him.

Admiral Bermejo declined to answer a question as to the whereabouts of the Cape Verde squadron. Considerable anxiety is expressed here as to the fate of Porto Rico. It is feared that Admiral Sampson's squadron has gone to seize San Juan, the capital of that colony, and the Spanish coal supply at that port.

Impartial, referring to Lord Salisbury's speech, says: "Both at Washington and in London, the fact is solemnly proclaimed that robbery is legal."

Senor Puigcerver, minister of finance, announced in the congress today that the Official Gazette will shortly publish a decree, forbidding the export of wheat. The chamber finally agreed to decrease the customs duties on corn.

In the senate, Lieutenant-General Correa, minister of war, submitted a bill authorizing him to mobilize the second reserve corps in the Canaries. An Attack on Americans. Toronto, May 7.—Senor Du Bose, late secretary of the Spanish legation at Washington, lectured to 2,500 people here tonight on the causes of the present war. Senor Polo and many prominent men were present. The lecture was in aid of the Red Cross Society work and was delivered in a private capacity. The speaker made a severe attack on the American people. He traced the story of the trouble, reiterating the Spanish arguments, and spoke of American senators as "border ruffians whose illiterate foolishness is only equalled by their venality and ludicrous, pompous conceit." He said American cupidity constitutes a grave danger to Europe, Canada and Mexico, and concluded by comparing the queen regent of Spain with "blatant politicians, whose contentions depict the lust that is in their hearts."

Canaballism in New Guinea. Brisbane, Queensland, May 7.—A terrible story of cannibalism is reported from New Guinea. Four of the escaped prisoners from Mana Mana attacked a friendly village, killing and eating 18 men.

Ordered to Tampa. Chickamauga National Park, May 7.—Orders were received from the war department today by General Brooks, commanding the provisional army corps at Chickamauga Park, to dispatch the Twenty-fifth infantry (colored) Colonel Burt commanding, with all speed possible to Tampa.

Coming the Other Way. Madrid, May 7.—It is said two torpedo-boats are about to leave Cadix to drive the Americans from Manila and then bombard California.

### GREAT NAVAL VICTORY.

Commodore Dewey Has at Last Been Heard From. New York, May 9.—The World, in an extra edition just issued, publishes a dispatch from Hong Kong to the effect that news received there from Manila on the dispatch-boat McCulloch is to the effect that the entire Spanish fleet of 11 vessels was destroyed. Three hundred Spaniards were killed and 400 wounded. No lives were lost on the United States boats, but six persons were injured. Not one of the American ships was injured.

Confined in Washington. Washington, May 9.—The navy department has received a cable from Hong Kong, announcing the arrival there of the revenue-cutter McCulloch.

### THE LAFAYETTE RELEASED.

French Embassy Has Requested That She Be Allowed to Proceed. Washington, May 9.—An international difficulty, connected with the seizure of the French steamer Lafayette, has been removed by the prompt release of the vessel immediately upon notice of her capture reaching the state department. The explanation of the action of the administration is given in a statement which follows, and which was issued from the White House tonight:

The Lafayette was released in pursuance of orders which were issued by the navy department previous to her seizure, but which had not been received by the commanding officers of the vessels that made the capture. The facts are that, on April 29, the French embassy made an informal inquiry as to whether the Lafayette, which left Saint Nazaire, France, for Vera Cruz, in the way of Havana, before war was declared, or information of the blockade was received, would be allowed to land in Havana, her passengers, mail bags and the dispatch bag of the consulate-general of France, and take some French passengers on board. An assurance was given that, if this privilege should be granted, the steamer would be forbidden by the French consul to land goods.

The matter was duly considered, and it was decided that, without regard to the strict law of blockade, and as an act of courtesy, the request of the French government should be acceded to. Orders were accordingly sent on the second day of May. When information was received of the capture of the steamer and of her having been brought to Key-West, these orders were communicated to her captors, with instructions to release the steamer and see that the orders were duly delivered, so that they might be carried into effect. No demand was made either by or on behalf of France, the request of the French government should be acceded to. The Wilmington will escort the Lafayette to Havana tonight.

Caused Excitement in Paris. London, May 9.—A special dispatch from Paris says the seizure of the Lafayette has intensified the bitter feeling against the United States. Angry expressions are heard. The United States embassy is under special police protection, in view of a possible hostile demonstration.

### TO SOLVE ARCTIC PROBLEM.

Another Expedition Starts to the North. Headed by Walter Wellman. New York, May 9.—Walter Wellman will start Tuesday on another expedition in an endeavor to reach the north pole. He hopes also to determine the fate of Andre, who has not been heard from since two days after he stepped into his balloon. Mr. Wellman, who was at the Gilsey house, said:

"I am extremely hopeful that this expedition will be more successful than our last, since we reached 81 degrees 10 minutes north of Spitzbergen, and then met with disaster. We were absent about eight months before; this time we expect to remain about 18 months."

"After leaving Archangel, Russia, we are to get 75 dogs and will proceed direct to Franz Josef land. While taking observations there we shall try to hunt Andre. If he is alive I believe he is near there. We hope to reach Cape Flora about July 15 or August 1, and to establish a supply station."

"We expect to pass the winter between parallel 82 and 83 in huts, now and then, however, running about on snowshoes, training our dogs and testing our equipments. About February 10 we propose to start north over the ice. Contrary to the popular idea, even at the north pole, the summer is too warm for good traveling, because the power of the sun constantly shining makes the snow soft and slushy, and renders it difficult to drag the sledges. The best season, therefore, lasts from early in February to early in June, a period of about 16 weeks. It is for this 16 weeks our plans have been laid, carrying just enough provisions to take us through June."

"The distance from our winter station to the pole will be about 500 statute miles, or a round trip of about 1,000 miles. If we are able to cover from nine to 10 miles a day, and keep everlastingly at it, we may do the whole thing. In my judgment we are going finely outfitted on a sound plan, and we shall have a big chance of solving what is known as the Arctic problem. At any rate, we expect to be back home a year from next fall."

Purchased Hanna's Yacht. Cleveland, O., May 9.—The splendid steel steam yacht Comanche, built by the Globe iron works for M. H. Hanna in 1896, has been bought by the government. The vessel has made several trips to the coast. Hanna paid approximately \$150,000 for the Comanche.

Farmer Accidentally Killed. Medford, Or., May 9.—Alfred Coffman, who lives near Derby, was accidentally killed yesterday while sailing a starve boat. He was alone, and, after seeing a cut from a large log, he attempted to remove the blocking to let the log roll down the hill. His foot slipped and he fell backward, the log pushing him down hill until his head struck another log, breaking his neck. On his not returning at the usual hour in the evening, his wife became alarmed, and with neighbors searched for and found him about 3 o'clock this morning. He left two children.

Some Fear Is Felt for Admiral Dewey's Safety. Chicago, May 7.—A special to the Journal from Washington says the fear that Dewey may be bottled up in Manila harbor is gaining ground. It is recalled that the entrance to Manila bay is through a channel flanked by mines. Dewey passed these in the night, and no opportunity was given the Spaniards to fire them. Now, if he has not forced a surrender of the city and gained control of the switchboards used in firing the submerged explosives, an attempt to leave the harbor by any one of the ships composing the Asiatic squadron would be met by an attack from the mines. Senator Sewell, of New Jersey, who has been appointed major-general by the president may be selected to act as military governor of the Philippines. He is wise in statecraft, and possesses extraordinary military experience and ability. He will be just the man, officials say, to administer affairs in Manila. He is a shrewd diplomat, and will be equal to the many emergencies that will arise because of the jealousies that are being engendered in Europe, where the victory of Manila is already beginning to have its effect.

Authority to Arm the Cubans. Washington, May 7.—Just before adjournment, the senate passed an important war measure authorizing the president and general officers of the army to supply the Cuban insurgents with arms and munitions of war, and empowering officers of the army serving in Cuba to supply needy inhabitants of the island with medicines and subsistence.

The house today disposed of two important measures. The Alaskan land bill, extending the homestead laws and providing for certain railway rights of way in the district of Alaska, as amended by the senate and agreed upon in conference, was passed. The labor arbitration measure, providing for arbitration of disputes between employees and certain common carriers, a bill which has received very wide endorsement by labor organizations throughout the country, received the approval of the house. A number of minor bills were also passed.

Brazil's Neutrality. Washington, May 7.—Notice came to the state department from Brazil today that the government had declared neutrality. There now is no cause to regret each action on the part of Brazil, for however beneficial the delay has been to the United States in getting the warships safely along the Brazilian coast, the issue of the proclamation just now is likely to be still more beneficial in closing Brazilian ports to the Spanish flying squadron, if it should be headed in that direction.

Cartridges for Dewey's Fleet. Lima, O., May 7.—Three cars loaded with fixed cartridges for the rapid-fire guns and attached to the Wells-Fargo express train passed through this city tonight. The cars are being rushed to San Francisco, and the supplies will be hurried to Commodore Dewey's fleet.

Norfolk, Va., May 7.—An emergency order has been received at the navy yard to ship immediately a number of large caliber rapid-fire guns now in store at the yard to San Francisco. Naval officers here think these guns will see the Philippines.

### SAFE LANDING MADE.

Tag Leyden Fails a Small Expedition to Cuba. New York, May 7.—The Mail and Express Key West correspondent cables the following account of the landing of a small expedition from the tug Leyden in Cuba:

The tug left Key West Monday, and at daybreak yesterday her men made the first attempt to land an inspector to confer with a party of Cuban insurgents who were waiting on the beach. While the conversation was being held, the people on the Leyden discovered Spanish cavalrymen coming down a hill toward the shore, as if reconnoitering. The Leyden signalled danger to the insurgents, and the latter took to the bushes. Up to that time no cases of Winchester rifles had been landed. Seeing the cavalrymen, the Leyden's boat returned alongside, lying a quarter of a mile off shore. The cavalrymen leveled their rifles at the tug, but hesitated about firing. The insurgents, in the meantime had opened fire, driving the cavalry back up the hill, the latter firing the men and the cavalry returned shortly with reinforcements. They paid no attention to the insurgents, but began a sharp fusillade at the tug. Bullets flew around the tug so fast that the lookout came down. The Leyden, seeing no chance to land the ammunition just then, picked up the men she had landed and steamed back to the flagship off Havana, reporting it would be impossible to land the cargo unless protected.

The gunboat Wilmington was immediately ordered to help the Leyden. On returning to the landing point, the Wilmington held off shore about a mile and a half, the Leyden going close in to the beach. The tug was signaled by the insurgents that the coast was clear. Manned by four men, a boat then left the Leyden with ammunition and two large boxes of dynamite.

When a short distance from the beach, a man aloft on the Leyden sang out that the cavalry were coming down to the beach again in strong force. The Leyden then signaled the Wilmington, and the latter came a trifle closer to shore, and with stern facing the beach, fired four shots from her 4-inch rapid-fire guns. The cavalrymen retreated, and the boats' cargo was then landed. While waiting to attack the cavalrymen, the Wilmington fired at a block-house further down the beach. There were some 50 Spanish regulars sitting on top of this block-house watching the Leyden and the insurgents. The Wilmington's first shots went wild. The 12th and last shot hit the bulwark. When the smoke cleared away, the block-house, the men and all had disappeared, as though swallowed up. The Spanish colors that had flown from the house were seen high up in a tree, where a shot had driven them. The Leyden and Wilmington returned to the flagship, and the former then came here. There are dozens of holes in the tug's smokestack from the bullets of the cavalrymen.

### A SPANISH TRAP.

# That Tired Feeling

What does it mean? As tired in the morning as at night, can't get rested, nervous, sleepless, dull, languid. It means that the blood is poor. Muscles cannot be elastic and strong, nerves cannot be steady, energy and vigor cannot be felt when the blood is impure, impoverished, without nourishing power. Hood's Sarsaparilla imparts to the blood the qualities it lacks when that tired feeling troubles you. It makes the blood rich, pure, full of vitality. It cures spring languor and eradicates all foul taints from the blood, thus guarding against future danger from fevers, malaria, and other serious illness. Be sure to get

Crutches. A Kansas City dealer in crutches said: "Crutches are staple articles with us, and we sell on an average ten pairs per week, or 40 pairs a month. This, of course, would make 480 pairs in the course of a year. This, mind you, does not include the crutches we sell as 'wholesales.' It is a conservative statement to say that altogether we sell 1,500 pairs of crutches annually, and our firm is only one of several in the city that handle them. The total sales of crutches annually in Kansas City would be hard to estimate, but I would say that 5,000 pairs would not be far from the exact number."—Kansas City Times.

Must Wear a Brass Collar. They had an excellent way of checking excessive drinking in Manitoba. When a man had been in more places in a month than some other countries can declare in three hours and a half, he was sentenced to wear a brass collar, which marked him out among his fellows as a person to whom no publican could with impunity serve liquor. The drastic measure often proved a cure. On the authorities being satisfied that the branded individual had served a sufficiently long term of probation he was uncollared and endowed with the liberty of drinks.—London Telegraph.

AN OPEN LETTER TO MOTHERS. We are asserting in the courts our right to the exclusive use of the word "CASTORIA" and "PITCHER'S CASTORIA" as our Trade Mark. I, Dr. Samuel Pitcher, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the name that has borne and does now bear the fac-simile signature of CHAS. H. FLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look Carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FLETCHER on every wrapper. No one has authority from me to use my name except the Centaur Company of which Chas. H. Fitcher is President. March 8, 1897. SAMUEL PITCHER, M.D.

### No Longer an Experiment.

The order for 100 steel cars recently given by the Pennsylvania Railroad Company to the Schoen Pressed Steel Company of Pittsburg is a good illustration of the fact that the steel car is no longer an experiment but an accepted type of railway rolling stock, says the Engineering News. It is a noticeable fact, however, that a large proportion of the steel cars constructed are designed to carry heavier loads than the Pennsylvania cars, for example, are to carry 110,000 pounds of ore, or 104,000 pounds of coal. Their dead weight will be 37,000 pounds and their length will be 33 feet. The competition of the steel car with the wooden cars of ordinary capacity will not be apparent probably for some time, but that it will come eventually the increasing cost of timber and the decreasing cost of steel construction makes very certain.

Deserters Return. A curious war item comes from Fort Logan, Colo. On the morning of April 20 a number of deserters from the Seventh Infantry appeared at the fort and surrendered. They said they had heard the rumors of war and were anxious to participate. Col. Benham ordered them to the guardhouse, but it is understood that the stern old warrior will be lenient and give the prodigals an opportunity to fight.

THE DEATH RATE. While it is quite true that the proportion of deaths from malaria as compared with other diseases is small, it is not so small as is generally supposed. It is a conservative statement to say that altogether we sell 1,500 pairs of crutches annually, and our firm is only one of several in the city that handle them. The total sales of crutches annually in Kansas City would be hard to estimate, but I would say that 5,000 pairs would not be far from the exact number."—Kansas City Times.

A dull, throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with an occasional shooting pain, indicates inflammation. The region of pain shows some swelling. This is the first stage of ovaritis, inflammation of the ovary. If the roof of your house leaks, my sister, you have it fixed at once; why not pay the same respect to your own body?

Write to Mrs. Pinkham, Lynn, Mass., and tell her all your symptoms. Her experience in treating female ills is greater than any other living person. The following from Mrs. Anna Curtis, Ticonderoga, N. Y., is proof of what we say: "For nine years I suffered with female weakness in its worst form. I was in bed nearly a year with congestion of the ovaries. I also suffered with falling of the womb, was very weak, tired all the time, had such headaches as to make me almost wild. Was also troubled with leucorrhoea, and was bloated so badly that some thought I had dropsy. I have taken several bottles of Lydia E. Pinkham's Vegetable Compound, and several of her Blood Purifier, and am completely cured. It is a wonder to all that I got well."

Good Health. Is the working capital of humanity. He who lacks it is lost. It is the only thing that can be lost. It is the only thing that can be gained. It is the only thing that can be sold. It is the only thing that can be bought. It is the only thing that can be given. It is the only thing that can be received. It is the only thing that can be shared. It is the only thing that can be enjoyed. It is the only thing that can be lived.
