FIVE THOUSAND DEAD

The Galveston Victims Will Reach That Number.

BODIES STILL STREW THE BEACH

Hundreds Buried and Buried at Sea. Thirty-five Hundred Refugees Are at Houston.

Houston, Tex., Sept. 17.—The Post today prints a list of 2,701 names of the Galveston dead, compiled from various sources, but believed to be authentic. There were hundreds of bodies burned and buried in the sea and in the sand, where no identification was possible. Other hundreds were buried on the beach of the mainland, few of whom have been identified. Some bodies are still in the ruins of Galveston and scattered along the beach of the mainland and in the marshes, where they were thrown by the water. Some of these bodies have been sent 20 miles inland along small water courses by the rush of high waters. Taking all things into consideration there seems no longer any doubt that the number of dead will reach beyond the estimate of 5,000 which has been made by Mayor Jones and other reliable citizens of Galveston.

About 1,800 refugees arrived here from Galveston last night and are being cared for as well as possible. Four buildings have been set apart for the benefit of refugees, but of the 3,500 who have reached here so far not more than 800 remain in public charge, the remainder having gone to the homes of relatives and friends.

INTENTIONS OF KRUGER.

According to a Lisbon message to the Express, Mr. Kruger proposes to set up his seat of government at Mozambique.

News from the seat of war in South Africa is indecisive, but it is clear that Lord Roberts is making a concentrated movement upon Komatipoort, and has left Pretoria in order to direct it personally. Ian Hamilton is returning to the railway from Lydenburg. Colonel Curlew is pushing east towards Nel spruit; French is making for Harberton, and Buller has divided both his forces and cut off a portion of them from communication with the commandos between Nelspruit and Komatipoort. Lydenburg apparently was abandoned as it was captured, and the British forces are in hot pursuit of the remnants of the Boer army, and driving it eastward to the Portuguese frontier.

These tactics are bold, but in accordance with Lord Roberts' strategy since February. Komatipoort is the new objective point, and when it is captured Lord Roberts will be credited with having taken possession of the last Dutch railway line and closed the door into neutral territory. The work of pacification will not have been thoroughly worked out, but the main object will have been secured, as was done when Blomfontein and Pretoria were occupied.

Award of the French President on the Boundary Question.

Washington, Sept. 19.—The minister of Costa Rica at Washington, Senor Calvo, has received a telegram from the minister of Costa Rica at Paris, which conveys the information that the president of the French republic, M. Loubet, who was the arbitrator appointed to decide the boundary question between Costa Rica and Colombia, by his award yesterday, fixed the boundary limit between the two countries on the Atlantic side at Mona Point and on the Pacific side at Punta Barica. The republic of Colombia claimed that the limit should be fixed at Cape Gracias Adios, on the Atlantic, including the whole of Costa Rica and the Nicaraguan Atlantic coast, and that the limit on the Pacific side should be placed at Doruca river, to the northwest of Golfo Dulce, which would have given Colombia a right to the territory of Costa Rica and about two-thirds of that of Nicaragua. Costa Rica claimed the old limits between Central America and Colombia, placed at the Island of Escudo de Veraguas, on the Atlantic, and the river Chiriqui Viejo, on the Pacific. The award fixes the boundary line on the Pacific side at Punta Barica, as claimed by Costa Rica, and on the Atlantic denies the right of Colombia to any part of the territory of Nicaragua or any portion of that of Costa Rica beyond Mona Point.

An Arizona Murder.

Phoenix, Ariz., Sept. 19.—Some time last night, Ferdinand Ober, a Mexican woman, about 50 years of age, was murdered in a horrible manner at Yuma. SOLDIERS FROM SOUTH AFRICA

Americans Have Begun Construction of Permanent Telegraph Between Tien Tsin and Pekin.

London, Sept. 18.—In accordance with the prediction of Sir Robert Hart that there will be further hostilities in China in November, the press understands that the British government is already considering the transfer of troops from South Africa to India in order to make it practicable to send more British troops to China. The military authorities consider the war in South Africa so far ended that troops may now be safely moved.

It is possible that the Russian legation has already been removed from Pekin to Tien Tsin, but there is no definite news as yet as to whether Li Hung Chang will after all go to Pekin. Elder Bassinger was in the city yesterday, held several meetings, without molestation, and had a number of consultations with his attorney, A. A. Douglas. He left last night, but returned again today and was holding a meeting at the home of E. H. Leiby, when the officers went there and took him to the depot, followed by a jarring mob of several hundred. He was a target for the apples, tobacco pipes, missiles and kicks, as he was escorted to the depot, and when he arrived there he was a pitiable sight. The passenger train was missed by about two minutes, and while they were waiting for the next train the mob went to the home of E. H. Leiby and took him and Frank Leiby, both Zion followers, and marched them to the depot. When an express train arrived all three were put on it and hustled out of the city.

Japan's Attitude Toward China.

The racial differences that exist between Japan and China have probably led some observers to believe that the two peoples are naturally antipathetic.

The war of 1894 has been cited as proof of this, and in the present crisis in the Far East it appears to be taken for granted by many that the Japanese people will regard China's misfortune as their opportunity. That there is no valid reason for thinking that this is Japan's attitude, and that those who are most prominent in guiding Japan's public policy sincerely desire to establish and foster friendly feelings with China, is ably shown by Durham White, Stevens, Esq., a member of the Japanese legation, in his article, "Japan's Attitude Toward China," which appears in the current issue of Collier's Weekly.

Southern Moonshiners.

The great majority of moonshiners are to be found in the mountain fastnesses of Georgia, Alabama and Tennessee, and here they live in conditions of civilization as crude as their ancestors, most of whom were English fugitives from justice, who reached this country more than a century ago. Indeed, in many respects these descendants have retrograded rather than advanced. Had they been surrounded for a century by a Chinese wall they could not have been more destitute or ignorant of the modern conveniences.
