DAYTON, OREGON, FRIDAY, FEBRUARY 2, 1902.

NO. 43

McMINNVILLE, Oregon, January 20, 1902
On and after February 1, we shall conduct our general merchandise business on a cash basis, strictly and inventory sense of the world.
To our patrons, our friends and the public in general we extend grateful acknowledgment for your liberal patronage and favors during the months past, and this acknowledgment, used in no manner tend to sever any business relations which we may have, but on the contrary, we shall demonstrate that it ought to strengthen the same.
"It is a fact that cannot be disputed, that no merchant can sell his goods on an equal margin of profit when a portion of such business consists of accounts on the books with customers. The money being tied up when it could be used in turning the amount several times during period of time accounts remain on the books.
"To our patrons with whom we have accounts, this business policy of ours does not in any way mean, and we do not wish it to be so construed, that we do not appreciate your trade and are not as anxious for it in future as in the past; on the contrary, we do want your trade; we shall make prices at our store so interesting and profitable for our customers that you will see it to your advantage to continue trading with us, and if it be necessary at any time it will mean that you pay us to borrow money rather than to lose the amount you would gain by trading with us and having the benefits of our cash prices.
"We again wish to thank the public for their past favors and we want all our friends to continue visiting our store their headquarters while in town. We shall continue to handle eggs, butter, poultry and all kinds of salable products, paying the highest prices the markets justify.
"With the inducement in bargains and prices which we shall announce later, it will not require a brass band to bring our former customers, and many new ones, to our store and we shall endeavor to make prices from now on of particular interest to the careful buyer."
Yours for Business,
McMINNVILLE GRANGE & FARMERS' CO.
CHAS. P. NELSON, Manager.

A CONVINCING ANSWER.—"I huddled into Blackman's drug store one evening," says Wesley Nelson, of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for Rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to directions and in a week was cured, and have not since been troubled with rheumatism." Sold by R. L. Harris.

"The reader may make up his mind to be pleasantly overwhelmed by the opulence and vivacity of 'Around the Pan,' published by the Nutshell Publishing Company, 1069 Third Avenue, New York. The wonders begin with the frontispiece picture of President McKinley, drawn in a single line beginning at a single point on the cheek bone and going round in a constantly widening circle, with wavings and downbeatings of the pen in the proper places to secure detachment and shading. We are told that this portrait is considered the most unique work of its kind in the world, and if there are degrees of uniqueness we are willing to believe that this is most the thing which there are no duplicates. Of course there is text in addition to the pictures, and we should be surprised indeed to hear from any purchaser the opinion that he had not got his money's worth (\$2.00)."

TOURIST EXCURSIONS TO THE EAST.

The traveling public will be interested to learn of the system of personally conducted excursion cars operated over the Rio Grande System popularly known as "The Scenic Line of the World." They are two regular Pullman tourist or "ordinary" sleepers provided with comfortable berths, bedding and linen of the Pullman standard. They have separate lavatories, are all well lighted and heated and, in fact, are a most successful substitute for the more expensive "standard" sleepers, the difference arising from the character of upholstery furnished. A colored porter is in attendance with every car, and besides him an excursion conductor, whose sole duty is to look after the pleasure and comfort of passengers in his charge. These cars are run through to Kansas City, Omaha, St. Louis and Chicago, making close connections for Boston, New York and all eastern points. This feature of travel has become so popular that there is now established a regular service of pine cars each week, offering a variety of routes, and schedules so arranged that stop-overs may be made if desired, at Salt Lake City, Denver, or any point between. No extra charge is made beyond regular tourist rates. To those interested will be glad to quote the lowest fares and furnish full information about the scenic beauties of the Rio Grande Route and its superior accommodations.
