SWITCHMEN WON'T STAND IN.

They Will Not Strike, and Trainmen Are To Be Given No Assistance.

Chicago, Nov. 13.—According to a statement made today by Grand Master Hawley, of the Switchmen's union of North America, there will be no strike of switchmen in Chicago. Officials of the Brotherhood of Railway Trainmen, however, scout the idea that Mr. Hawley's organization figures in the situation, and say the switchmen who are members of their organization are strong enough to enforce demands made by them upon the railroad companies entering Chicago. It was learned today that the Chicago Great Western, the Chicago Terminal Transfer and the Chicago & Eastern Illinois railroads had entered into agreements with the switchmen's union by which that organization accepts the increase of 2 1/2 cents an hour for switchmen and 3 1/2 cents an hour for foremen, which has been offered by the railroad managers. It was also learned that the Illinois Central and Rock Island companies were negotiating with the switchmen's union.

Grand master Hawley, of the switchmen's union, declared his organization had a membership of 1,700 in Chicago, and asserted that the Brotherhood of Railway Trainmen could not call a strike of switchmen if they so desired. He said his organization had secured an increase of 10 per cent in the North-west, and that the same would be received by switchmen throughout the country. He further declared that the demands made by the brotherhood had been prompted by jealousy and could not be recognized.

NEWS OF OREGON

TO SUPPRESS LADRONISM.

Military Forces Will Probably Help Constabulary in Cavite.

Manila, Nov. 12.—The government is adopting vigorous measures to suppress ladronism in the provinces of Cavite, Rizal and Bulacan. A zone embracing these provinces and surrounding Manila is the scene of constant petty and sometimes serious disorder. Several armed bands, some of them numbering 200 or 300 men, are operating in the described districts, and have committed various depredations. They find a safe refuge in the mountains. The plan of the government contemplates securing the assistance of the military, which has been inactive since the end of the insurrection. The extent of the army's participation in the work of suppression depends upon developments. It is probable that the military authorities will request the garrisons to protect the more important towns, while the constabulary conduct the field operations. It is thought that martial law, in a modified form, will be declared and the privilege of the writ of habeas corpus suspended in Cavite province, which has been the home of the ladrones for ages.
