Denver Wants Big Convention.
Denver, June 6.—A movement was launched yesterday at a meeting of the Denver Convention League to bring both great national conventions to this city two years hence. Especial effort will be made to secure the Democratic convention, but an invitation will be extended to both conventions. It was agreed that at a meeting to be held in the near future, Judge John I. Mullins, Democratic committeeman for Colorado, and Hon. A. M. Stevenson, Republican committeeman for this state, will be officially notified.

Bear and Lion May Be Chums.
Paris, June 6.—The tendency toward better relations between Great Britain and Russia is attracting the greatest interest in official circles here where confirmation has been received of the reports referring to the approaching visit of the British Channel fleet to Russian Baltic ports. The diplomats express the conviction that the drawing together of these two great powers, for a while at least, will bring about a new era of peace throughout all Europe.

American Meat Is Barred.
London, June 6.—The Daily Telegraph says that all admiralty and war office contracts which have been placed since the disclosure in the meat picking industry in America stipulate that canned meats must be British or colonial productions.

Storm Does Damage.
Oklahoma City, June 6.—Two fatalities, three scores of farm residences, and innumerable crops, were destroyed by the wind and hail which swept the southern portion of Oklahoma.

OREGON STATE ITEMS OF INTEREST

VALLEY GRAIN LOOKS WELL.

Hops Give Promise of Yielding an Immense Crop.

Salem—Crop prospects in the country surrounding Salem are very encouraging. The reports of aphids and Hessian fly are heard only from the Howell prairie neighborhood and are not coming from any other section. An extensive travel as far south as Stayton, eastward to Scott's Mills and north to Hubbard reveals a splendid stand of grain and grass everywhere, with a promise of the greatest yield in many years.

Fruit is looking well.
In many places close to streams, where brush is plentiful, there is a plague of caterpillars, which are both eating the trees and form a source of troublesome annoyance.

Hops are fine; rank growth in all yards that are taken care of. A prominent grower says that Oregon will gather the heaviest crop of hops in its history.

Spring work has been well done throughout this county and there has been much substantial improvement made on the farms. There is a noticeable wave of prosperity everywhere.

New dwellings are being erected in all directions, while paint has added its beautifying influence quite generally.

A great deal of permanent road work has been done and along the highways a marked change for the better has been wrought by the tearing out of old rail fences, the substitution of new wire fences and the clearing away of the unsightly, wasteful fence rows of brush, weeds and wild roses. The entire farming country breathes a spirit of progress and prosperity.

Oil in Vicinity of Lacombe.
Albany—Representatives of Eastern capitalists have recently been investigating the discovery of oil in the vicinity of Lacombe, Linn county, and it is generally believed here that development of the property on a big scale will be begun soon. The operations have been conducted with secrecy, however, for that reason, very little definite information can be obtained. For years past indications of oil have been found at different points between Lacombe and Lebanon, and though there were no guishers, it is believed the oil was there in paying quantities.

Woolen Mills Are To Resume.
Pendleton—The Pendleton woolen mills, which have been idle for the past year, will be in operation inside of two weeks. The mill has been leased for a year by Jacob Shuerman, a well known wool buyer of San Francisco. Shuerman is a free lance in the wool business and will use the wool he has bought this season in the operation of the mills. The resumption of the mills will add a steady payroll of over \$2,000 a month to Pendleton's income. The mills will manufacture the Pendleton Indian robes again.

May Not Get New Courthouse.
Bend—The bids called for June 2 for the construction of a new courthouse at Bend have been rejected. The rejection is from all parts of the county. It is thought to be poor judgment for the present county court to take such an important step as building an expensive courthouse, just previous to a change in the personnel of the court.

One feature of the move that is exciting the indignation of the voters is the rumor that the county court intend to transfer the road fund into a fund for the new courthouse.

Eugene Accepts Carnegie Library.
Eugene—The Carnegie library building, which has recently been completed in this city, has been accepted by the board, and the contractor, W. O. Hickart and Architect Y. D. Hensell ordered paid for their work. The contract price was \$9,645.95, the architect's fee, \$300, and extras amounted to \$57, making a total cost of \$10,022.95. The building will not be opened to the public until some time next fall, as no books are now on hand.

New Assistant Matron.
Chenawa—Miss Marie Johnson, of San Jose, Cal., has been appointed assistant matron at the Chenawa Indian school. Miss Johnson was in California during the earthquake, and was among those to have their homes shaken and destroyed.

Miss Alice B. Preps, of Lapwai, Idaho, has been appointed clerk at the Indian training school. Miss Preps has had several years' experience as teacher in Idaho and elsewhere in the Indian service before coming to Chenawa.

Edward D. Jasper Wins Prize.
University of Oregon, Eugene—The Bennett prize, from the estate of a Philo Sherman Bennett, of New Haven, Conn., for the best student paper on the principles of free government, was won by Edward D. Jasper, '06. Jasper is a senior of the department of economics. He registers for "The Basic Principles of Lawmaking." This year is the first time the Bennett prize has been offered.

Pool of Timber Claims Sold.
Albany—A pool of 123 timber claims in Crook and Klamath counties was sold in this city last week to the Lumber company for \$196,800, or \$1,600 a claim. About 100 of the claims were owned by Albany people and were taken up in the great rush for timber land about four years ago. The sale was affected by means of a pool of the claims and was handled by the holders of the claims themselves.

Lost Mountain of Gold Found.
Medford—A messenger just in from Elliott creek, in the Siskiyou mountains, reports the discovery of a mountain free millling ore six miles from Joe Bar and three miles from the Blue Lodge copper mine, assaying \$30 to \$100 per ton, which appears to be the long sought Mother lode of the Apple gate section. Dr. Reddy, who is on the ground, pronounces it the most marvelous ledge he ever saw.

GIFTS FOR BAY CITY SCHOOLS.

Circular Letter Is Sent Out by Oregon State Superintendent.

Salem—J. H. Ackerman, superintendent of public instruction, has issued a circular suggesting that the respective public schools of the state devise ways and means for the raising of money to be turned into the San Francisco reconstruction fund for the rebuilding of schools destroyed by the fire. In all, 34 school buildings were destroyed by the fire at San Francisco, to replace which will cost \$6,000,000.

The school authorities of the Bay City have been led to receive donations, as the finances of the city are strained to the utmost, and it would be a considerable time before the city, unaided, could replace the schools. It is their purpose, whenever the contributions from a given state shall regalia sufficient among the schools, to name that building after the state giving the money. All the school officers and the public schools of Oregon have been mailed circulars by Superintendent Ackerman.

Wages Raised at Oregon City.
Oregon City—The Willamette Pulp & Paper company has announced a 10 per cent. increase in wages for every man employed at their mills in this city who is now receiving \$1.75 and \$2 per day. This advance affects the wages of about 500 men and means an increase in the monthly payroll of about \$3,750 per month, or about \$45,000 per annum. This increase in the wage schedule at the Oregon City mills, it is alleged by a representative of the Willamette Pulp & Paper company, has been contemplated by the management for the last three months.

Will Increase Business.
Medford—The Butte Falls Lumber company announces that it now has its sawmill plant at Butte Falls in condition to put out at least 140,000 feet of lumber a day, just as soon as the Medford & Crater Lake railroad is extended to its timber belt. The large acreage of timber sold during the last few weeks, and the fact that the larger tracts are under bond in that great timber section at the head of Rogue river, near Butte Falls, is significant of an intention to run this railroad through to completion shortly.

Lessons in Making Roads.
Salem—Work has commenced upon the mile of "government office lesson road," being constructed under the supervision of the government. A. E. Loder, assistant engineer, office of public roads, Washington, D. C., is in the city. D. G. Halre and Andrew Willert, government experts on roadbuilding, are also here. Great interest is manifested in the road, as the government will build only two stretches as an object lesson roads in the state, one being constructed here and the other at Pendleton.

Improving Bad Road.
Independence—Road Supervisor J. N. Jones is improving the strip of road near the Rickel stream, between Salem and Independence, that has been such an eyecore to travelers for several years. The road is being widened and improved in many places.

New Brewery Ice Plant.
The Dallas—The Eastern Oregon Brewing company of this city has just put into operation its ice plant and cold storage cellar. The Eastern Oregon Brewing company was incorporated a year ago by Dallas people, and bought the Columbia brewery of August Bucher for \$35,000. Since then the company has rebuilt the brewery at an expense of about \$50,000.

Fire Warnings Sent Out.
Salem—For the protection of the forests of Oregon fire notice warnings are being sent out by the secretary of state to all fire rangers. The notices are printed on cloth and contain the principal provisions of an act passed by the legislature.

For The Term of His Natural Life

By MARCUS CLARKE

CHAPTER XIX.

The mutineers of the Osprey had been long giving up as dead, and the story of their desperate escape had become indistinct to the general public mind. Now that they had been captured in a remarkable manner, popular belief invested them with all sorts of strange surroundings. They had been according to reports—kings over savage islands, chiefs of lawless and ferocious pirates, respectable married men in Java, merchants in Singapore, and swindlers in Hongkong. Their adventures had been dramatized as a theater, and the popular novelist of that day was engaged in a work descriptive of their wondrous fortunes.

John Rex, the ring-leader, was related, it was said, to a noble family. He had every prospect of being satisfactorily hanged, however, for even the most open admirers of his skill and courage could not but admit that he had committed an offense which was death by the law. The already convicted prisoner was recaptured with half a dozen life-sentence men, brought up from Port Arthur to identify the prisoners. Among this number was stated to be the "notorious" Rufus Dawes.

This statement gave fresh food for speculation and invention. It was remembered that "the notorious Dawes" was the abductor who had been brought away by Captain Frere and who, as a convicted felon, he had been sentenced to life in the fact that he had assisted Captain Frere to make the wonderful boat in which the marooned party escaped. It was remembered, also, how sullen and morose he had been on his trial five years before, and how he had laughed when the commutation of his death sentence was announced to him.

Miss Sylvia Vickers also received an additional share of public attention. Her romantic rescue by the hero Frere, who was shortly to reap the reward of his devotion in the good old fashion, made her almost as famous as the villain Dawes. It was reported that she was to give evidence on the trial, together with her affianced husband, they being the only two living witnesses who could speak to the facts of the mutiny. It was reported, also, that the lawyer who naturally, most anxious that she should not give evidence, as she was affected deeply by the illness undergone on the suffering she had undergone, and in a state of mental confusion as to the whole business.

The change in the tone of his voice, no less than the sudden loudness of his exclamation, made the faces, hitherto bent upon the door through which Mr. Frere had passed, turn round again. To many there it seemed that the "notorious" history of this double escape were depicted before their eyes. The aspect of the four heavily ironed prisoners caused a sensation which, in that city of the ironed, was quite novel, and the various particulars of the marvelous history of this double escape were depicted before their eyes.
