Cosmopolitan Magazine

Three Months, FREE.

Three months' free trial for merely sending your name.

No money, no letter, nothing but your address on attached coupon.

If, after three months' trial, you wish to have the magazine stopped, merely tell us, and the copies received will cost you nothing.

You are to be the exclusive judge.

And there'll be no questions, no quibbling, nothing.

We'll leave the decision to you.

If, after three months' trial, you find you need the Cosmopolitan, let us send you the magazine for the full year.

That's all there is to it.

Remember, though, that in reading the Cosmopolitan, you are reading one of the oldest high-class magazines published today in America.

Such eminent and great men have in the past contributed to the reputation of the Cosmopolitan as: President Roosevelt, Mark Twain, President Eliot, John Wanamaker, Count Tolstoy, Henry Watterson, James Whitcomb Riley, etc., etc.

The following list of eminent contributors—taken from among a hundred others—will indicate the remarkably high standard that will be maintained by the Cosmopolitan during 1906—FERRIS, Sir Gilbert Parker, Alfred Henry Lewis, Booth Tarkington, AR. Frederic Remington, Henri Lanois, Frank Verbeck, SPECIAL, Henry Watterson, Edwin Markham, Elbert Hubbard.

No finer array of talent could possibly be offered than the list of world specialists named above.

"Home" magazine is the key-note to the Cosmopolitan.

In no sense is the Cosmopolitan a small, cheap, 16-page mail-order monthly.

It is, to the contrary, a great 240-page illustrated home magazine.

Its editorial policy aims at every phase of clean, wholesome home life.

An abundance of bright stories, full of fun, life and action, will interest every member of the family.

Topics of the day are treated sanely, by experts of international repute—political reform, international affairs, economics, social problems, and a hundred other timely topics of which every intelligent man or woman must be informed.

The Cosmopolitan also affords unusual advantages for the refining and educational value of art—Remington, Lanois, Fogarty, Verbeck, are only a few of the masters represented.

A LIBERAL PROPOSITION—As we desire the names of persons interested in music we will mail to any one sending us names and addresses of music teachers or musical people who are in the habit of purchasing music or musical goods, five pieces of music for 30 cents, or ten for 55 cents. Send your name and address to The Geo. Jaeger Music Co., 115 W. Seventh St., Cincinnati, Ohio.

Those wanting Logan Berries can get them by phoning or sending postal card to John Corder the ferryman at Wheatland. He has some fine berries.

By leaving your laundry at Z Spangle's barber shop, you can get it laundered in the best of style.

Tablets of all kinds, note and letter paper, envelopes, pens, etc., Detmering's.

Fine cigars at postoffice store.

The Cosmopolitan, furthermore, has just begun one of the most remarkable exposures ever attempted by a contemporary magazine,—"The Treason of the Senate," by David Graham Phillips.

It will be strictly impossible, during this series, for us to insure news-stand purchasers a copy of the magazine, but

We do guarantee that all readers who have, under this special offer, applied direct to the office for copies, will receive regularly the magazine during this brilliant series of articles.

Be sure to read this most scathing of all political exposures.

We thoroughly believe that every intelligent reader will not only take but actually want the Cosmopolitan, should he once see the magazine itself.

And that's why we offer a three months' free trial at our expense. We leave the decision entirely upon the merit of the magazine.

If you don't like the three months' received, you may stop the paper, and the copies received won't cost you a cent.

The offer is clear, plain, straightforward.

You are to be the only judge.

We are going to leave it all to your decision.

Could anything be more fair?

Fill out today the coupon below—place in an envelope—remail to us—and receive three months' test free.

But mail the coupon today—tomorrow may never come.

COSMOPOLITAN MAGAZINE
1789 BROADWAY, NEW YORK.

I accept your liberal offer of three months' free trial subscription to the Cosmopolitan, as advertised in *The Evening Star*. If at the end of the three months I do not like the magazine, I will let you do as you please with the paper, and I understand that the copies received shall cost me nothing. Otherwise you may send me the Cosmopolitan for a full year and bill me at the regular subscription price of only one dollar. Write plainly.

With the improved train service we note the increase of passenger traffic over the Yamhill Division of the S. P. R. R. There is a gradual increase in all business connected with the Dayton station. Probably now, as the Board of Trade of this city is taking an active part in the matter of having a new depot built at the station, that the railroad company will be prevailed on to build a neat depot large enough to accommodate their increasing passenger and freight business. One large enough to accommodate their business for years, without crowding passengers and freight together.

Rev. C. A. Mock, president of Dallas College, came to Dayton Saturday and remained until Monday evening. He came in the interest of the college. On Sunday at 11 a. m. he delivered an instructive message to an appreciative audience in the Pleasantdale church in the country. In the evening he preached an excellent sermon in the Dayton church, to a large and attentive congregation. At the close of each service he gave a short talk concerning the institution he represents. From the large number of different conveyances now bringing cream to the creamery, it would appear that there was sufficient cream received to keep the creamery in operation and not have cream shipped from here.

The farmers are now making hay while the sun shines. The hay crop is an immense one this year, and the quality is good. The season has been very favorable for the growth of grass and cereals. All horses, cattle and other stock should fare well this and next year.

On Thursday Rev. Dixon brought to this office sample of peaches grown on his farm at Webfoot. The peaches were fine specimens of fruit and looked so tempting that the fruit editor was not long about sampling, and found them of excellent quality. Mr. Dixon has enough of the fruit for family use. He has other varieties of fruit on his farm that is doing well, which is proof that the land is well adapted to the growth of fruit.

Hazel, a little daughter of Mr. and Mrs. F. O. Lyon, who live on the place formerly owned by Peter Jensen, but now owned by Mr. Lyon, died last Sunday at 4 p. m. Funeral Tuesday afternoon; burial in Odd Fellows cemetery. The death of the little girl, it is thought, was caused by her having eaten of colored ice cream at the Fourth of July celebration here. Perhaps, it is the result of the too common practice of adulterating food. The child was 8 years of age. Rev. M. B. Dixon, pastor of the M. E. church preached the funeral sermon at the residence.

Rev. C. C. Poling, late president of Dallas College, having been elected president of Western Union College at La Mare, Iowa, is preparing to go to his new field of labor. He expects to leave Dallas within a few days. Rev. Poling has been a faithful worker in the upbuilding of the Evangelical church in Oregon, especially in this section of the state. In part, it is through his energetic labors that the Evangelical school has been kept alive and placed on a firm footing. Friends here of the Reverend gentleman, of which there are many, and also throughout the State are loth to have him give up the work and leave, but wish him success in his new field of labor and that he may be able to accomplish much good there. His successor as president of Dallas college, Rev. C. A. Mock, comes with the highest of recommendations, and he has the confidence of those interested in the college, that with the aid of co-workers the good work commenced will be continued to establishment of a high grade institution of learning.
