Protection of American Birds.

The movement for the protection of birds in America has long since assumed formidable proportions, says the Audubon Society, which exists in thirty-five States, and which for a number of years have carried on an active work for the conserving of bird life. The results accomplished are considerable. A "model law" drawn up by the American Ornithologists' union is now in force in thirty States and the District of Columbia. The Lacey law excludes from interstate commerce all birds killed illegally in any State, and makes those who have been subject to one law of the State in which they are bought. Laws prohibiting the sale of game out of season, even when killed in season, look toward the same end of conserving bird life. Public attention has been aroused on the subject, and even the manufacturer of air rifles no longer calls attention to the fact that they will kill small game within short distances. Absolute protection has not yet been given the birds everywhere, but a great and important work has been well begun and is being carried forward.

Clear as Thick Ice.

On the South Side is a Chinaman who has not been in Chicago long enough to master the English language, save that he has grasped the meaning of a few words. The other day he went into the store of a tradesman, but was unable to make any one in the store understand what he wanted. To the clerk he kept saying "ting, ting." After all had given up in despair and when John was about to make his departure, the proprietor happened to make his appearance. At once "ting" to him was string and he procured a section of rope the size of a clothesline. John looked at it for a moment, took it in his yellow fingers and then said "young ting." Then the merchant went to a cabinet, pulled out a drawer and came back with a spool of thread. The Mongolian's face was at once wreathed with smiles. He handed over his nickel and went about his business with the air of a man who had accomplished a great undertaking.—Chicago News.

A Habit with Him.

There was a business man in a little Western town who never had a good word for anybody. Every one held him in more or less fear and many disliked him strongly. He made no effort to cultivate friendships, and at one time or another almost every inhabitant of the village had had a quarrel with him. One day the old lion tried to board a train which did not stop. He was thrown a great distance and fell in a heap on the track in the rear of the departing train. The group of villagers on the depot platform thought that their hereditary enemy had been killed before their eyes and were ready to drop all their bitter prejudices at the grave. One ran up to where the fallen monarch lay, and, seeing signs of returning life, anxiously asked: "Are you badly hurt, captain?"

With the first short breath the fallen man was able to draw he gasped: "No, no, I'm all right. That's the way I always get off a train."—Kansas City Times.

Engaged in a Noble Work.

Employer—Jimmy, I let you off yesterday afternoon because you said you had some necessary work to do and one of my clerks says he saw you an hour or two later at the ball game.

Office Boy—Yes, sir; I was rootin' fur de home team.

CONVICT STANDARD

Government Will Prove Guilt of Heads of Monopoly.

RAILROAD MEN AS WITNESSES

Testimony To Be Used for Indictment of Standard Oil Officers Who Extort Rebates.

Cleveland, July 17.—The Plain-Dealer this morning says: Having already submitted to the Federal grand jury in this district, Attorney General Moody believes that the government has at last secured the evidence which will bring the Standard Oil company to its knees. The return of District Attorney Sullivan this morning from an all day conference with the attorney general at New York yesterday will make a complete change of the government's policy in connection with the fight to stamp out trade discriminations in favor of giant corporations. The change of plan includes a complete reversal of the policy of the late president of the Standard Oil company, C. J. Grammer, who was president of the Standard Oil company at the time of the Michigan Southern railway. Grammer will not be indicted in this or any other Federal district. Instead, he will be asked to assist the government in forging a chain of evidence about the tricks of some of the biggest Standard Oil officials in the country. It is known that the government officials are eager to obtain one more link in the evidence already secured against the Standard Oil company. A most determined effort will be made to complete the chain through Grammer and Clark. What the merchant particularly wants is the names of the Standard Oil officials through whom, it is alleged, rebating arrangements were made with the Lake Shore and other railroads. With these names in their possession the government attorneys will be ready to strike.

MANY MEN OF MANY MINDS.

Railroad Men Cannot Agree As To Meaning of Rate Law.

Chicago, July 17.—Executive officials and general counsel of every railroad west of Chicago have convened today with a view to determining the meaning of all of the provisions of the new rate law. J. C. Stubbs, traffic director of the Harriman lines, presided and outlined the purposes of the gathering. It developed, however, that there were almost as many views regarding the interpretation of the statute as there were lawyers and traffic men present. It was decided, therefore, to appoint two committees, one of traffic men and one of legal men. The traffic men are to meet and arrange their plans for carrying the law into effect, and whenever they encounter a provision that they are unable to solve they are to call on the legal committee for opinions. In the meantime the committee of lawyers is to hold meetings and determine what it considers the statute requires.

GRAIN BAGS RISING.

Shortage is Accentuated by Recent Fire in San Francisco.

San Francisco, July 17.—It is estimated that 6,000,000 grain bags were destroyed by the recent fire and in consequence the market is paralyzed. New orders cannot be filled and brokers on 'Change are in a quandary as to the future. The price for bags has jumped nearly 50 per cent and that the commodity is not to be had. Formerly sacks sold for 6 1/2 to 6 3/4 cents and today the price of 10 1/2 cents prevails. The prospective supply reaches in round figures to 40,750,000 sacks, and against this must be chalked the needs of California, computed at 23,500,000 sacks, and for the north 27,000,000 sacks, leaving a deficit of 9,750,000, with no possible output to cover the shortage.

Leishman Can Manage Turk.

Naples, July 17.—Minister Leishman is here on his way to Constantinople, where he will present his credentials as ambassador within a fortnight. He says he does not anticipate any difficulties, the reports to that effect being the result of misunderstandings concerning the intention of the United States to take a more active part in the Armenian and other questions in the Near East. There is reason to believe certain countries encouraged this view for the purpose of diminishing American influence.

Czar May Keep Goremynkin.

St. Petersburg, July 17.—There are no developments in the cabinet situation. The murder of General Kozlov is reported to have made an exceedingly bad impression on the emperor and the Novoe Vremya denies that the cabinet has resigned. The hesitation at Petrof has raised hopes in the minds of some of Premier Goremynkin's colleagues that he can hold on, even in the face of the adverse vote in the upper house of parliament on Saturday. Russia will be represented at the Inter-parliamentary union in London.

Earthquake in New Mexico.

Albuquerque, N. M., July 17.—This section of New Mexico experienced a slight earthquake today. Objects moved perceptibly and a dull, sickening sensation was experienced. No serious damage has been reported. The people in the Armijo building thought that the building was about to collapse and ran into the street. Towns south of Albuquerque also felt the shock and residents of Socorro and San Marcial are in a state of alarm.

Put Rojostevsky to Work.

St. Petersburg, July 17.—It is understood that Admiral Rojostevsky, who was acquitted by court martial of the charge of cowardice in surrendering to the enemy after the battle of the sea of Japan, will be restored to the active list of the navy and assigned to a prominent position on the technical committee of the navy.

TO KILL LIBERTY.

Czar Will Use Army to Enforce His Will in Russia.

St. Petersburg, July 18.—If reports in circulation in official circles this morning are grounded on fact, the supreme crisis in the affairs of the Russian nation is impending and within a fortnight at most events must transpire that will result either in the perpetration of absolutism in Russia or the map of Europe will be changed.

According to reports, the czar, after weeks of hesitating from one extreme to the other, decided that he cannot grant the reforms demanded by the people, and has decided that the arbitrament of physical force shall be appealed to. He has, through General Treppoff, Kaulbars and other leaders of the official military class, canvassed the officers of the army, and has decided that they can be depended on, if it should come to a clash with the people, and so he has decided that from now on the wishes of the czar and his wishes alone shall be considered.

None of the members of the cabinet who could be trusted last night would discuss the matter. However, the delay in announcing the various demands of the czar are even being considered, the concentration of troops at all centers where advocates of constitutional form of government are strongest, and the generally defiant attitude of the bureaucracy, all tend to lend credence to the report.

Disturbances in all interior Russia continue, and riot, murder and rapine are the rule. In many camps pitched battles between soldiers and malcontents are reported, but all details are completely censored and are not permitted to become public.

CLIMAX OF ADMINISTRATION.

Roosevelt Will Invoke Conspiracy Law and Dissolve Standard Oil.

Washington, July 18.—Dissolution of the great Standard Oil trust may be the result of the prosecutions soon to be begun against that corporation by the government. Assistant Attorney General Purdy, who has direct charge of the preparation of the prospective cases, returned to Washington today from St. Paul, where for two weeks he has been in consultation with Special Counsel Kellogg, of the latter city, and District Attorney Morrison, of Chicago, and, while he refuses to discuss details as to the plans under way, there is good authority for the statement that the administration is aiming at a more vital object than fines or even imprisonment for the trust offenders.

The cases against Standard Oil will be made under the conspiracy act. It is of recent memory that conspiracy in restraint of trade in violation of the provisions of the Sherman anti-trust act resulted in the dissolution of the Northern Securities company. More recently the government won another sweeping victory in the courts and destroyed the Western paper trust. The same sort of success met the movement against the elevator trust in California. It is being urged up by the monster Standard Oil combination may come as the culminating grand climax of the Roosevelt administration, and in the light of today's developments persons in Washington have recalled to mind with striking force these words spoken by President Roosevelt shortly before the enactment of Congress in 1906: "The prosecution of the Standard Oil company is the most important thing in this administration."

Bartlett Was Shot \$33,000.

Washington, July 18.—It was stated at the Treasury department today that an investigation recently concluded of the affairs of the late Major George A. Bartlett, disbursing officer of the Treasury department, shows a shortage of approximately \$33,000. About \$14,000 of this amount, however, is said to have been innocently paid out on fraudulent vouchers presented by James Boyd, a clerk in the Marine Hospital service, who in September last was arrested and is now in jail pending his trial for misappropriating government funds.

Milwaukee Shows Good Speed.

Milwaukee, July 18.—The cruiser Milwaukee, just completed at the Union Iron works, was given her first trial yesterday, and satisfied her builders of her speed. She will leave here July 23 for the coast, and will be in place where she will put through her paces in earnest. Captain George Harvey, of the Pacific Mail service, was in charge of the cruiser yesterday. The Milwaukee is officially classed as a protected cruiser, but in reality is an armored cruiser. She will carry a crew of 550.

Millions Left by Beit.

London, July 18.—Friends of Alfred Beit, the South African financier, who died July 16, estimate that he left a fortune of between \$125,000,000 and \$150,000,000. His estate will be found, when his will is published, that legacies aggregating many millions, if not the bulk of his fortune, will be devoted to public benefactions in England and South Africa. It is not probable that the terms of the will will be published for several weeks.

Colombia Wants Commercial Treaty.

New York, July 18.—The following cable dispatch was received in this city yesterday from Bogota, Colombia: "Colombian National Commercial congress, assembled in Bogota, representing all parts of the republic, has unanimously adopted resolutions endorsing favorably the negotiations begun by President Reyes and Minister Barrett for new treaties with the United States and Panama. This action is most important, assuring the support of the business interests."

Armistice Stops Fighting.

San Salvador, July 18.—The belligerents today agreed upon an armistice. It is claimed that the Guatemaltecos during the recent fighting used explosive bullets, notwithstanding the fact that Guatemala signed the Geneva convention.

RHEUMATISM

ALMOST AS COMMON IN SUMMER AS IN WINTER.

While the damp, cold, changing weather of Winter intensifies the pains and other disagreeable symptoms of Rheumatism, it is by no means a winter disease exclusively. Through the long months of Summer its wandering pains and twitching nerves are felt by those in whose blood the uric acid, which produces the disease, has accumulated.

Rheumatism is a disease that involves the entire system. Its primary cause results from the failure of the eliminative organs, the Liver, Kidneys and Bowels, to carry out of the system the uric acid, or natural refuse matter. This coming in contact with the different acids of the body forms uric acid which is taken up and absorbed by the blood. This acid causes fermentation of the blood, making it sour and unfit for properly nourishing the body, and as this vital stream goes to every nook and corner of the body, the poison is distributed to all parts. The nervous system weakens from lack of rich, pure blood, the skin becomes feverish and swollen, the stomach and digestion are affected, the appetite fails and a general diseased condition of the entire system is the result.

Not only is Rheumatism the most painful of all diseases, with its swollen, stiff joints, throbbing muscles and stinging nerves, but it is a formidable and dangerous trouble. If the uric acid is allowed to remain in the blood, and the disease becomes chronic, chalky deposits form at the joints, and they are rendered immovable and stiff, and the patient left a helpless cripple for life. Every day the poison remains in the system the disease gets a firmer hold. The best time to get rid of Rheumatism is in warm weather; because then the blood takes on new life and the skin is more active and can better assist in the elimination of the poisons. With the proper remedy to force the acid out of the blood, and at the same time build up and strengthen the Liver, Kidneys, Bowels and other organs of the body, Rheumatism can be permanently cured. External applications relieve the pain and temporarily reduce the inflammation, and for this reason are desirable, but they cannot have any effect on the disease. The blood is poisoned and the blood must be treated before a cure can be effected.

S. S. S., a remedy made from roots, herbs and barks, is the best treatment for Rheumatism. It goes into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the sour blood so it can supply nourishment and strength to every part of the body, it cures Rheumatism permanently. S. S. S. is the only safe cure for the disease; being purely vegetable, it will not injure the system in the least, as do those medicines which contain Potash or some other mineral ingredient. S. S. S. tones up every part of the body by its fine tonic properties. While cleansing the blood of all poisons it builds up the appetite and digestion, soothes the excited nerves, reduces all inflammation, relieves pain and completely cures Rheumatism in every form—Muscular, Inflammatory, Articular or Sciatic. If you are worried with the nagging pains of Rheumatism, do not wait for it to become chronic, but begin the use of S. S. S. and purge the blood of every particle of the poison. Write for our book on Rheumatism, and ask our physicians for any advice you wish. We make no charge for either.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Last Summer I had a severe attack of Inflammatory Rheumatism in the knee, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I continued to take it regularly until I was entirely cured. I now feel better than I have for years. CHAS. E. GILDERLEEVE, 613 32nd Street, Newport News, Va.

MAKING ARTIFICIAL ICE CREAM.

Cottonseed Oil Used Instead of the Ordinary Ingredients.

"When Prof. Stillman of Stevens Institute gave a dinner to two friends, at which most of the viands were made artificially by chemical means," writes Lawrence Perry in the Technical World magazine, "he had small idea of the future his efforts would produce. But he has received hundreds of letters asking how different dishes were produced—so many that he has not had time to answer many of them. 'The chemical processes which he employed were some of them simple and some quite complicated. To make vanilla ice cream by artificial means, for instance, the alchemist took some triple refined cottonseed oil and placed it in a centrifugal machine which revolved at a velocity of 3,000 revolutions a minute. A beautiful emulsion was thereby produced, which was then frozen, chemically, of course. The flavor was obtained by the addition of vanilla, glucin and nitrobenzol. They say that ice cream composed as above is sold in many Southern States where cottonseed oil is more plentiful and consequently cheaper than milk or cream. It is far from harmful, tastes good and does not melt as quickly as the genuine ice.'"

A Freak Statue.

One of the most interesting freak statues in England is to be the memory of Sir R. Holmes. It is to be seen in the church at Yarmouth, Isle of Wight. The funny thing about it is that it was not originally intended to represent that naval celebrity. It was sculptured for and represented Louis XIV. of France and was being conveyed to that country when the vessel containing it (and also the sculptor) was captured by an English ship commanded by Sir R. Holmes.

Had Tried It.

"You ought to try taking a long walk on an empty stomach." "Why, doctor, I did the other day, after the race was over, and felt all the worse for it."

UTTERLY WORN OUT.

Vitality Sapped by Years of Suffering With Kidney Trouble. Capt. J. W. Hogan, former postmaster of Indianapolis, now living at Austin, Texas, writes: "I was afflicted for years with pains across the loins and in the hips and shoulders. I had headache also and neuralgia. My right eye, from pain, was of little use to me for years. The constant flow of urine kept my system depleted, causing nervous chills and night sweats. After trying seven different kinds of medicine and using all kinds of medicine, I had the good fortune to hear of Doan's Kidney Pills. This remedy has cured me. As well today as I was twenty years ago, and my eyesight is perfect."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Retort Courteous.

"Aw—captain, you used to be a whaler, didn't you?"

"Yes."

"Would you mind telling me—aw—what kind of bait you used in catching a whale?"

"Dudes, when we could get 'em, young feller."—Chicago Tribune.

FITS

St. Vincent's Place and all Nervous Diseases permanently cured by Dr. Wm. S. Gray's Nerve Restorer. Send for FREE trial bottle and treatise. Dr. R. H. Kline, 121 West 12th St., Philadelphia.

Couldn't Deny It.

Prospective Investor—The earthquake, of course, has disturbed property values out here a great deal.

San Franciscoan—Well, sir, to tell the truth, our real estate fluctuates like the mischief while the quake was on.—Chicago Tribune.

Encouraging Him.

The Young Man (ardent, but bashful)—Miss Holmes, I shall try to show you that I am not—er—such a fool as I seem. You mustn't judge me by appearances.

The Young Woman—Certainly not, Mr. Wright. You don't make your own appearances here often enough for that.

Getting Direct Action.

Beryl (at the 'phone)—The idea of sending a kiss by telephone! Do you suppose I want to be kissed on my ear?

Jasper (at the other end of the wire)—Well, can't you put the receiver to your lips for a moment? . . . There!—Chicago Tribune.

STATES OF OHIO, CITY OF TOLEDO, Lucas County.

FRANK J. CHENEY makes oath that he is senior partner of the firm of F. J. CHENEY & CO., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that can be cured by the use of HALL'S CATHARTIC CURE.

FRANK J. CHENEY, Notary Public.

Hall's Cathartic Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

J. CHENEY & CO., Toledo, O.

Sold by Druggists, etc.

Hall's Family Pills are the best.

Decidedly Improved.

Mr. Snagbly (rummaging in closet)—Maria, this is a new hat, isn't it? Why don't you wear it? It looks better than anything you have worn this season.

Mrs. Snagbly—That's my old hat. It blew off my head the other day and was run over by a street car, and I think you are just as mean as you can be!—Chicago Tribune.
