Dayton Tribune

VOL. I — DAYTON, OREGON, SEPTEMBER 20, 1912. — NO. 40

SCHOOL AND FAIR NOTES

Miss Eva Trent opened school Sept. 16 in No. 19, and F. L. Strait and Miss Lillian Perkins began on the same date in No. 9.

Read the big bills for the fair dates. They are in every school district. A big show every day.

Arnold's Amusement Company will furnish that phase of the entertainment, but remember they are under the control of the Fair management, and will give nothing to offend anyone. Everything will be first class.

Have your children at the Lincoln High School at 1 P. M. Sep. 24. There will be autos for every one. We have mailed circular letters to every auto owner in the county, and all are willing to furnish their machines. Remember every child rides. If any district has enough machines to hold it's pupils, and the people prefer to keep them together and decorate the machines, we would be pleased to have them do so. Bring your banners, and let everyone know "who's who" at the school fair.

The booths are ready in the pavilion now, so you can have all the time you want for decorating.

Bring all exhibits to the southeast door of the pavilion, and have them tagged and registered. That work will all be done there. Come early Sep. 23, and avoid the rush.

Apply to the County Supt. for prize lists on the children's exhibits, and for general information; to Ira Nelson for information on the poultry show, to A. K. Olds, L. D. Moulton, or Dr. Mylne for prize lists on stock, to Mrs. C. F. Daniels for fancy work, and to Mrs. Wm. Dielschneider for instructions for the Baby Show.

Remember that all exhibitors are admitted to the pavilion free. Only ten cents per day for others They can pass in and out as often as they wish to.

L. S. Hopfield will have charge of the athletics. Those who know him know that this insures a good program.

The judges for the School Fair department, are Mrs. Chas. Jones one of the editors of the Pacific Homestead, and wife of the editor of the Oregon Teachers' Monthly, Mr. Noah Gregg, a model farmer of Polk county, and Sup't. M. C. Case of Washington county.

Don't forget that the office of the county superintendent will be in the pavilion Sept. 23—27. Phone 9910. Any business of the office can be transacted there.

If your district has no booth bring your exhibit any way. We expect to have a large general exhibit.

Don't gorget to bring that fancy work for the ladies department.

Where are the boys that are after the "Cary Prize?" Let us hear from you. That prize is worth trying for.

AN INSULT TO JUSTICE

This is the last call for the 1912 Fair. Don't fail to come, and bring your friends. We want the eastern people to see what Old Yamhill can do.

S. S. Duncan, Co. Sup't.

WANT ANOTHER ROOSEVELT PANIC

Or Another Four Bad Democratic Years Like 1894-97?—If Not Vote For Taft

Want another Roosevelt panic? Ofcourse you remember it if you're old enough to vote. It was only about four years ago, before Taft got in, and started his policy of safe, sane, deliberate enforcement of the law, instead of government by jerks, which gave the nation the nerves.

It should go without saying that Theodore Roosevelt has no chance of success, although he is so eaten with self-pride, with the conviction that he is the only one in the ninety million that has wheels enough in his head to run the national machinery, that it is possible he thinks the American people are tired of Taft good times, and want another Roosevelt panic, waiting around chilly October nights to get their money out of the banks.

Theodore Roosevelt seems to like panics. They're in his line, and if he has'nt one handy he'll take care to scare it up. He was certainly successful in bring on plenty of panic in 1907, from the effects of which the country is just recovering, but he is very much mistaken in thinking that the American people want some more of the same. If he is so afflicted that he must have a St. Vitus dance, he should invite the party known as "Gabby George" and the other under writers of his campaign to Oyster Bay, where they can have the dance all to themselves, and not disturb plain, ordinary folk who have a living to earn and savings banks accounts they don't want to draw on.

The real peril to peace, order and prosperty in the Roosevelt madness is the backing he is giving to Woodrow Wilson and the Democratic party in their campaign of reaction, sectionalism and free trade. Wilson's success would be a calamity involving repression and ruin more widespread than that which followed Democratic success in 1882, and and the Wilson low tarriff and free trade bill of 1894, for the reason that the nation has expanded since that time, and the interests disasterously affected would be vastly greater.

UNKIND CUT FOR GOV. WILSON

Right in the heart of the Wilson camp the Republican State Committee of New Jersey has thrown a bomb of incalculable proportions. It is a neat little statement, refuting the claims made on the Democratic Presidential candidate that he has revolutioned and righted the government of the state of New Jersey. Says the Republican Committee:

"The most astounding and ill-founded claims regarding the wonders of legislation accomplished by Governor Wilson were spread broadcast by his publicity bureau to gain for him the nomination for president. These claims can in most instances be refuted by the legislative records, which will show that the great bulk of the remidial and progressive legislation for the benefit of the people and especially for the benefit of the working class has had its inception if not its actual enactment in Republican Legislatures. The Governor's neglect of the current business of the State should be exposed, together with his use of patronage build up a personal political machine, his sheilding of a Democratic State Senator whom a majority of the Senate found guilty of betrayal of the Senatorial trust, and his calculated use of the Governship to advance his political fortunes in disregard of the contract made with the people of New Jersey to serve them faithfully as their executive for the term of three years. There is no lack of ammunition to conduct a winning finish against the Democratic machine in New Jersey.

Bull Moose Underhand Tricks

Speaking of the Kansas situation, where the question of whether Roosevelt electors shall remain on the republican ticket is a hot one, Chairman Scott, of the Publicity Bureau, said today:

"In Kansas the State committee adopted a resolution declaring that these electors should withdraw from the Republican ticket and be placed in an independent column, where they belong. This action was overruled by the party council so that the situation remains as it has been. We have no doubt, however that the courts before whom the question will now go will sustain the Republican contention. It is incredible that the courts would hold that Roosevelt electors should be permitted to go on an official ballot under the name and emblem of the Republican party. The only thing the action of the party council has done has been to demonstrate that the third term managers are willing to resort to any means, fair or foul, to carry their point.

"In Missouri and Iowa, as well as States further west, the situation is better than it was at this stage in former campaigns, and all the reports coming from the Chicago headquarters are optimistic in the highest degree.

The Republicans, particularly the old-time Republicans, represented conspicuously by the Union soldier element, are getting into the fight with zeal and enthusiasm, as are the Republican Newspapers throughout the Northwest.

House Destroyed by Fire

Julius Johnson Loses House Sep. 15

Estimate Loss of About $4000

Last Sunday afternoon between two and three o'clock, the home of Julius Johnson caught fire and burned to the ground. There had been no fire in the house since morning and as yet the cause of the fire is unknown.

Mr. Johnson and family were visiting his parents in Dundee when the fire broke out. Neighbors hurried to the scene of the fire but it had gained so much headway that it was impossible to save anything. They saved only the clothing they wore.

The house was a large seven room building, well finished and furnished.

Mr. Johnson estimates his loss at about $4000. There was a light insurance on the house and furniture.

Growing by Leaps and Bounds

"George McGregor is councillor for a rural district near Victoria, and is a member of the court or revision of his district, the court of revision being something like our board of equalization. He writes: "In our district we exempted improvements by referendum at the last election, and there has been no objection to the new system. We are going ahead by leaps and bounds since we adopted the single tax system. We have quit fining people by taxes for erecting buildings and otherwise improving land. The land-value tax is the only fair system of taxation."

"Here is a letter from W. W. Patton, manager of the real estate department of the Maritime Trust Co., Vancouver: "I can say without hesitation that single tax has been a great benefit to the city of Vancouver, particularly the building trades. Vancouver has prospered as is shown by her bank clearance, increase in population and building permits probably greater than any other city on the continent, and that single tax has aided in this material growth is unquestionable."

"Herbert E. Welchel and I. R. Campbell, real estate and commission agency, Vancouver, write this: "In regard to the present system of land-value taxation, we believe it to be the only system. In conversation with our clients we find that the majority are of the same opinion. We having prospered under the land-value tax believe it the proper system to urge development.

"We have come in contact with large owners of wild lands that we know would not have improved their land had it not
