## GENERAL FRENCH

General French, commander-in-chief of the British troops now aiding the French and Belgians.

## BRIEF WAR NEWS

There are persistent rumors that Italy will join the triple entente.

A dispatch from Rome says the Montenegrin troops, aided by the inhabitants of Herzegovina, are successfully invading Austria, whose blockade of the Montenegrin coast has practically ceased.

The reported purchase of the German cruisers Goeben and Breslau by Turkey for \$20,000,000 has been made the occasion of action by the British, French, Belgian and Russian allies, which call Turkey's attention to her duty as a neutral.

Stern measures are being resorted to in Germany to compel military service, according to a dispatch via London. It is reported that Dr. Karl Liebknecht, the famous German socialist leader, has been shot to death for refusing to join the army.

Other nations threaten to become involved. Germany is credited with a plan to reach St. Petersburg by way of Finland and to have armed Finns for uprising. Italy has mobilized 250,000 men on the Swiss and Austrian frontiers and is holding the passes of the Alps. The government of Holland has officially given the French government renewed assurances of neutrality and its intentions to make this neutrality respected. Sixty thousand Dutch troops are on the line of the frontier and large areas of land have been flooded.

The first dispatch direct from Berlin uncensored by the authorities of the nations at war with Germany was received by the Associated Press through the medium of the Goldschmidt Wireless company's station at Tuckerton, N. J. The message contained the important information that during the fighting at Mulhausen considerably more than 1000 French officers and soldiers were taken prisoners by the Germans, who also captured four cannon, while in another fight with the French at the border of Lorraine, further to the north, the Germans also took 1000 prisoners.

The beginning of the third week of the great European conflict found scarcely a German soldier in France. That is regarded as a most significant fact in the military situation. Aside from the attempt to capture the forts around Liege, the fighting is regarded as merely preliminary and mostly out-post affairs, with the French and Belgians disputing every inch of the ground.

That the Germans are forcing their way through Belgium is indicated by the Brussels report that German cavalry is approaching the Belgian capital, that measures for the defense of

Brussels are being hastened and that the seat of government has been removed to Antwerp. The royal family has left the city.

The French war office announces its troops have occupied the town of Schirmeck, in Alsace, and that it captured several important pieces of artillery. It says French troops have taken the heights to the north of the Alsatian frontier, in German territory, and the French line now passes through Abrecheviller, Lorquin, Azou-dange and Marsal.

The German emperor, the crown prince and two other imperial princes are at the great fortress of Mainz. The emperor's departure from Berlin for the front has evoked enthusiasm in the German capital.

Apparently the Germans' plan of campaign has so far miscarried that they are eight or ten days behindhand in the design of smashing France by two or three terrific and immediate blows.

The meeting of these reconnoitering parties in force has resulted in severe fighting, in which, according to French and German official accounts, the allies scored further successes.

Strong French forces are now in possession of all the passes of the Vosges mountains, from the west, as far as those leading down to Colmar.

## REBELS ENTER THE MEXICAN CAPITAL

Mexico City.—The national capital is in the hands of the constitutionalists. In accordance with a prearranged plan, General Obregon marched in with his army and took peaceful possession of the city Saturday. The citizens greeted him and his soldiers with cheers. The evacuation by the federals was completed Saturday and constitutionalist troops are now quartered in the barracks which the government soldiers recently occupied. General Carranza, with the main body of the army, entered the city Sunday.

With the resignation of the military governor of the states of Chiapas, Vera Cruz, Tabasco, Campeche and Yucatan, the last vestige of the old regime disappeared.

For the first time in months American flags flew beside the Mexican colors. General Obregon caused to be posted throughout the city a decree threatening the immediate execution of an officer or an enlisted man who disturbed public order.

### French Sink Two Austrian Warships.

The French squadron, coming from the southwest, attacked the Austrian warships. Two Austrian ironclads were sunk, one was set on fire and a fourth fled northward toward Cattaro. The fight lasted more than an hour."
