Farmer Charles Hart was in to see us a day or so ago, and among other things said by him was, that he had just finished shearing his sheep which netted him about twelve pounds which is considered good. He had one ewe that sheared 15 3-4 pounds and raised a good lamb besides. At 50 cents per pound, which is about \$7.85 and a lamb worth the same amount or more, who will say it is not a paying business to handle sheep.

H. V. Jones and wife of Oregon City, who have been here several days with H. V.'s mother, returned to their home Saturday morning last. Harry was carrying his right hand in a sling caused by getting his hand between a chain and a log which was being drawn into the mill with the result that the end of his middle finger next to the fore finger was mashed so badly that it required amputation near the first joint. This injury was received a couple of weeks or more ago, but is still causing him a great deal of pain.

Miss Hazel Duncan, who has been attending the McMinnville high school for the past three years, left Saturday for a short visit with her parents in Glasgow, Montana. She will return in the autumn and take charge of No. 47, two miles west of McMinnville. Miss Hazel was accompanied by her cousin, Kenneth Duncan, a son of county school sup't. He will at once take charge of a band of horses belonging to his father, and expects to remain in Montana for some time. However, as he is a born Oregonian, we need not be surprised to see him soon drifting back to the most favored valley in the most favored state.

Each member gave \$1 to the Martin Miller fountain fund and as her name was called she responded by telling in rhyme how she earned the dollar. now under way.

The demagog howls at h. c. l., howls at high prices and scarcity of food products and then howls at admission of any cheap labor to our country. He is only happy when he howls.

Roseburg—Pendleton men will open new theatre here.

St. Helens—New garage being built here.

Big increase in production of grain crops. Loss reported in acreage in winter planting more than made up in spring wheat sowing. Liberal increase in planting of sugar beets in Washington, Idaho and Oregon during past year.

Those objecting to a 15 per cent increase in freight rates say that the roads do not need it because they do an increased volume of business. Why not apply the same reasoning to other products which have advanced in price from 25 to 400 per cent, the producers of these goods are doing a largely increased volume of business.
