Lying Down Together.
The little town was all excitement. The circus had arrived. The chief attraction of the circus was the cage in which the lion lay down with the lamb. An old gentleman started asking the proprietor questions.
"Do these two ever quarrel?" he asked.
"Well," admitted the proprietor, "they are not always peaceful. Sometimes they have a bit of a scrap."
"And then?"
"Oh, then," said the proprietor, "we generally buy another lamb."—Louisville Courier-Journal.

Another "Howler."
On the examination paper of an engineering college one of the questions ran: "What steps would you take in determining the height of a building, using an aneroid barometer?"
Answering this, one youthful aspirant wrote: "I would lower the barometer by a string and then measure the string."—Boston Transcript.

With the Fingers!
Says Corns Lift Out
Without Any Pain
You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.
Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you—Adv.

No Danger.
"I," said the temperance man, "strongly object to the custom of christening ships with champagne."
"I don't," replied the other man. "I think there's a temperance lesson in it."
"How can that be?"
"Well, immediately after the first bottle of wine the ship takes to water and sticks to it ever after."—New York Globe.

THE MAKING OF A FAMOUS MEDICINE
How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.
A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attends the making of this great medicine for woman's ills.
Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.
The most successful solvents are used to extract the medicinal properties from these herbs.
Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.
It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.
The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

A Dreadful Calamity.

TO TEMPER FREIGHT RATES

New 25 Per Cent Raise to Fall Mostly Upon Foreign Shipper.
There is no occasion for alarm on the part of producers or shippers because of the increased freight rates to go into effect June 25, in the opinion of traffic officials. It is realized that there will be some points at which a pinch will be felt, pending the adjustment of rates on a basis that will be fair to various interests.

Word from the headquarters of the Western traffic committee at Chicago, brings assurance that the intention of the railroad administration is to have the district committees work out the equitable modifications necessary.
It is generally recognized that increased earnings had become imperative to the operation of the railroads, and the 25 per cent increase under order No. 28 was the necessary step to begin the establishment of rates to yield the necessary revenue. In the very nature of commerce and traffic it necessarily follows that the effect of the application of the general rates announced will seriously affect the producer or manufacturer whose goods find a market in distant sections of the country as against the man with a local market.

New War Taxes Discussed.
Washington, D. C.—Installment plan payment of war taxes will be provided for in the new revenue bill which the house ways and means committee is preparing to draft. Chairman Kitchin disclosed this fact during a hearing before the committee, when Albert R. Palmer, of New York, representing a large number of corporations, urged that such provision be made.
Mr. Palmer advocated tax on gross sales, which he said would be less felt than the tax on war profits. He opposed a tax on stock dividends, contending that exemption from taxes should not be based on capital because of the widely varying revenues of companies operating along the same lines. He argued for a tax on gross income which could be passed along easily to the consumer.

Rate Order to Be Amended.
Washington, D. C.—Railroad administration officials have reached a decision to rescind that portion of the new freight rate order prescribing that higher interstate rates shall apply on intrastate shipments when interstate schedules already exist, and a final order to this effect may be issued in a few days.

National and Local Meat Business

The meat business of the country is conducted by various agencies—

By small slaughter-houses in villages—

By local Abattoirs or small Packing Houses in towns—

both

Using only a part of the local live stock supply

and

Furnishing only a part of the local demand for meat.

These slaughtering and distributing agencies fill a well defined but necessarily restricted place in the distribution of the products of live stock.

But only packers like Swift & Company, organized on a national scale, are able to undertake the service that is more vitally important, involving

An Obligation to the Producer

To purchase for spot cash all the live stock the producer may send to market for slaughter.

An Obligation to the Consumer

To make available to every consumer, everywhere, in season and out, the full supply and variety of meat products, of the highest standard that the market affords.

WITH YOUR HANDS TIED

by some chronic "female complaint" or weakness, what can you expect? There's nothing you can accomplish—nothing you can enjoy. And no good reason for it. Doctor Pierce's Favorite Prescription will cure you, safely and certainly, if you'll give it faithful use. For every one of these womanly troubles, this is the only remedy: In periodical pains, bearing-down sensations, organic displacements, and every kindred ailment, and in all the nervous disorders caused by functional derangements.
An easily procured vegetable pill is made up of May-apple, the dried juice of the leaves of aloes, and the root of jalap, made into a tiny pellet and coated with sugar. It was first put into ready-to-use form by Dr. Pierce nearly 50 years ago. Almost every drug store in this country sells these vegetable pellets in vials for 25c—simply ask for Dr. Pierce's Pleasant Pellets. They have Dr. R. V. Pierce stamp.—Adv.
