The scarcity of gasoline has brought out the fact that its importance to the existence of many industries, is far greater than the average person knew anything about. It is perfectly safe now to ask almost any one you meet "how's your gasoline?"

In a letter to the News Reporter Mr. John U. Smith says about the vote cast at the election May 21st, that he is astonished at the vote on the road bonds cast by LaFayette being 5 to 1 against all road bonds to be voted on.

He continues by saying there are several good road boosters around LaFayette and they will eventually get their roads improved and the city take on new life, but it will take much hard work by such men as Fletcher and Linger assisted by friends elsewhere in the county to overcome the record of a 5 to 1 vote against the proposition of building roads elsewhere in the county.

The value of a good local newspaper is more than many people seem to think.

And the way to make it good is to patronize it, pay for it, furnish it with ads, news and items, such as the public want to know. Bring them on, and "faith, we will print 'em". The press is a mighty power in the helping to carry on the business and progress of our country. The fact is the press has always been influential, even in the Saviors day. If you don't believe it read it in Mark 2:4, and see for yourself.

How about those pictures you made Sunday?

Better bring the films here for developing and printing. Your pictures get the benefit of our experience and up-to-date methods. The result is results.

A Turning Point in the Financial Road

EVIDENCES of changing conditions are already seen throughout the country. It is time for everybody to realize that people have been treading on thin ice economically. There has been too much careless spending; too much foolish investing. And never has there been more need upon the part of the public for the banks and for bankers who will afford good advice to their customers.

But that is nothing new for the Bank of Dayton. We have always so served our customers.
