Little Affected by Inflation or Deflation

It is the larger cities which suffer most from periods of sudden increase or decrease of prosperity.

Take a community like Dayton. Its interests are stable, its industries are permanent. We are the last to feel the effects of inflated conditions, and we would suffer the least in the event of a reaction.

And this is also true of the Bank of Dayton. The services it is called upon to render are of a substantial, not speculative nature.

"You Can't Go Wrong On Either Tire"

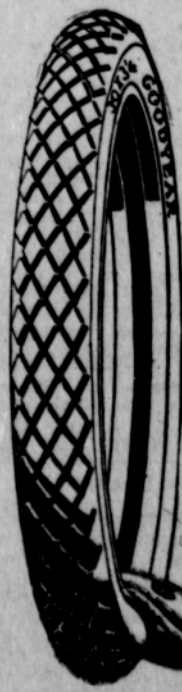

That's what we tell our customers when they ask us which type of Goodyear Clincher is the best buy. The two-cure Goodyear with the All-Weather

Tread and the single-cure Goodyear in 30x3, 30x3 1-2 and 31x4 sizes, plain or non-skid tread, differ in quality just about as they differ in first cost.

Either tire is a real good buy. So it's just a matter of how much you want to pay. You'll sure get your money's worth from either.

We've got your size - with a Regular or Heavy Tourist tube to match - just when you want it.
