Are You a Success at Saving?

MANY people are better earners than savers. They have the mistaken idea that outgo does not have to be weighed carefully against income before prosperity is possible.

We have many good growing accounts here at the Bank of Dayton which belong to small earners. They realize the necessity for saving—and are doing it.

If you are an earner join the saver class too.

IN THE LIME LIGHT

of experience it seems strange that any one should question the economy of using high-class building material. But if people are still tempted to use the poor kind don't you be one of them. Use those we sell and your satisfaction will continue to grow as time shows their superiority.

"You Can't Go Wrong On Either Tire"

That's what we tell our customers when they ask us which type of Goodyear Clincher is the best buy. The two-cure Goodyear with the All-Weather Tread and the single-cure Goodyear in 30x3, 30x3 1-2 and 31x4 sizes, plain or non-skid tread, differ in quality just about as they differ in first cost.

Either tire is a real good buy. So it's just a matter of how much you want to pay. You'll sure get your money's worth from either.

We've got your size - with a Regular or Heavy Tourist tube to match - just when you want it.
