We wish to direct the attention of our voters to the 5 per cent Interest Rate Bill which will appear upon the ballot at the November election. If this measure should be adopted it would make it impossible to borrow money in Oregon as financial institutions would invest their funds in bonds and commercial paper which now brings as high as 8 or 8½ per cent. Unless this fact is understood by the voters generally there is grave danger of the passage of the bill.

Dr. W. L. Bishop now of Portland, but formerly a resident of near Dayton in the hills north of town, was extending the glad hand to his many acquaintances in these parts the first of the week. The Dr. has recently returned from a few weeks visit in Michigan and enjoyed the trip east to his former home, but did not see anything that made him want to leave Oregon.

A few days ago we were treated to a visit from one of those nice little human angels that was all "dolloed up and perfumed to perfection," and we were reminded of those beautiful lines that run something like this: "How pleasant thus to dwell below in fellowship of love," and after she was gone the air of our office smelled of roses, sweetpeas and violets, when another visitor made their presence felt by a perfume of another kind and as disagreeable as the other was pleasant. Say! if anybody has lost a stink bug they can have it free of charge if taken soon, by calling on the Tribune,

See W. L. WARREN about your insurance.

A very enjoyable birthday anniversary was observed Sunday, August 15, when Mr. and Mrs. William Morand entertained at dinner their grandfather C. W. Powell, at their home in Boring, Oregon. Mr. Powell's home is in Dayton, Oregon, and he was 90 years old last Tuesday. Many friends and relatives enjoyed this hospitality on this occasion and did homage to the guest of honor. In all these long years Mr. Powell says this was one of the most pleasant times experienced by him. As this little gathering of relatives dispersed to their various homes many were the wishes that Mr. Powell might live to enjoy more of such occasions as this.

Messrs. H. A. Kerr and Clarence Badger are busily engaged in installing their canning and pickle manufacturing plant on Third street. They will have their equipment in place in time to take care of their own blackberry, pear and apple crops from which they expect to turn out several carloads of canned goods. They are also preparing to put up a hundred or more barrels of cucumber pickles. Because of the shortage of cans and the uncertainty of market prices of canned goods they will not do a general canning business this year but expect to enlarge their plant and equipment in time to do a general canning business next year. Dayton is to be congratulated in procuring this industry and thereby increasing the output of manufactured goods to an encouraging extent.

Make More Money

LILLY'S
Established 1885

By Feeding a Scientifically Balanced Dairy Feed

A cow cannot make a record production on mill run or ground oats alone, and the dairyman who persists in feeding these is overlooking many dollars. The Edelweis Dairy of Portland, won

FIRST PRIZE

for Oregon and second prize for the Northwest for high milk production, by feeding LILLY'S Dairy Feed. They milk 85 cows. A month's trial of

LILLY'S HIGH PROTEIN DAIRY FEED

will convince you and will cost but a trifle more than the cheapest feed. If it does not produce better and more milk after a month's trial then go back to your old standby
