CITIZENS NOMINATE CITY TICKET
At a mass meeting held in the Arcade Theatre building on Tuesday evening of this week the citizens assembled and placed in nomination at ticket for city officers for the ensuing term to be voted on at the city election, on the 8th day of this coming November.

The meeting was called to order by the Mayor of the City and after the election of the chairman and the secretary of the meeting they proceeded at once to the nomination of the City Officers.

Mr. R. L. Harris was unanimously nominated for the position of Mayor, W. T. H. Tucker, as Recorder and J. L. Stuart, as Treasurer. As Councilmen for the term of one year, D. A. Snyder, O. C. Goodrich, and T. A. Boulden. For the term of two years, W. S. Hibbert, J. S. Morin, and M. G. Miller.

The meeting was harmonious in every respect and the people in attendance seem to feel that they had done well in their selection of men to manipulate the affairs of the city for the coming year and we most heartily join with this belief. We wish to further advise the people of the city that we believe it to be the duty of each and every citizen of this city not only to come out on election day and support the ticket which has been designated as the "Citizens' Ticket" but to see their influence to see that all others do the same thing.

MRS. MARY E. BONES DIES OCT. 17
At her home a few miles from Dayton, Mrs. Mary E. Bones, wife of J. A. Bones, age 48 years 9 months and 17 days. She died very suddenly while out helping her husband with the evening chores. She was a kind and affectionate wife and mother, and was highly esteemed by all who knew her. She was born in Claborn County, Tennessee, and came to Oregon with her husband about 1905 and lived in this locality to the time of her death. She is survived by her husband, two children Walter and Elma her mother Mrs. C. C. Cinnamon, five brothers and four sisters. She was a member of the Christian Science church and the funeral services were conducted in the Macy funeral parlors in McMinnville Wednesday, October 19 1921 by Mrs. Knight Olds, Interment in the I. O. O. F. cemetery near Dayton.

DON'T FORGET that the Ladies of the Civic Club of this city will hold a masquerade party in the Opera House on the evening of Friday October, 28. A very pleasant evening has been planned and it is hoped that everybody will be present and help the ladies as the money will go to a good cause.

Reductions averaging 25 per cent in the passenger fares to Beaverton, Forest Grove, McMinnville and intermediate points will be made effective on the Southern Pacific and Oregon Electric railroads October 22, through issuance of 10-ride commutation tickets by these two companies. Announcement of the reductions in rates was made today by W. D. Skinner, traffic manager of the Oregon Electric, and John M. Scott, general passenger agent of the Southern Pacific. The reductions are a further attempt to place the railroads serving Willamette valley points on the same fare basis as the auto busses. The reduction was made through the knocking off of almost nine-tenths of a cent per mile over the present round trip rate. The ticket will carry a 60 day limitation.

D. A. Snyder was a Portland business visitor for the day Monday.

LOCAL AND PERSONAL

Mrs. W. F. Abdill was a County seat shopper Tuesday last.

Since the hard surfaced road between Portland and Newberg has been completed many Portland men have been seen in Newberg. One of these men discovered that Newberg was noted for some exceedingly fine coffee which opinion was verified when Miss Nina Coffee of that place was given in marriage Oct. 8th to Mr. Leslie F. Smith of Portland. Curtain.

Orchardist who have not sprayed for anthracnose should do so at once. When spraying is done thoroughly so that every twig is covered little infection will result. Use Bordeaux mixture 4-4-50. To make this dissolve 4 pounds copper sulfate in water and slake 4 pounds of quick lime. Dilute one solution in the spray tank and then add the other and fill up to 50 gallons. When a large quantity is needed make up a stock solution and dilute as needed. Full directions for mixing Bordeaux can be had free of charge by writing to the department of Horticulture, O. A. C. Experiment station.

A very pleasant reception was given Rev. K. K. Clark last Monday evening by the Methodist congregation and the churches of Dayton. Addresses were made by Revs. Fisher, Kendall and Irvine. Mr. Andrew Hewitt brought greetings from the Unionvale church and Mr. Ass A. Nichols from the Web-foot church. Special music was furnished by the choir, Mr. Gil Ogden and the congregation. Mrs. Eva Saus presided in her usual happy manner. The church was beautifully decorated with cut and potted flowers. Refreshments of a pleasing nature were served. It was suggested by Rev. Fisher that such gatherings as this one be held frequently for the purpose of creating a better spirit among us, which received the hearty approval of all present. Rev. and Mrs. Clark received at the personage many tangible tokens of regard from various members of the congregation.

Our list of subscribers for the week are the following: J. M. Crawford, J. J. Rowley, Massay Bros., Geo. Londerhausen, J. S. Morin, Ecks Bros., E. M. Alderman, Mrs. L. A. Rossner and Miss Pauline Rossner.

Marjorie and Chester Windsor have moved to Newberg and are attending school there.

Thelma Stevens is now attending school in Dayton Prairie.

THE GREAT BUILDING MATERIAL

Wood will always be the great building material for the homes of the masses in this nation. It is by far the cheapest material used, and if necessary, the average man can build his own wooden house. Wood has made it possible for persons of most moderate means to own their own homes in this country.

Lumber is today one of the leading commodities which have practically returned to pre-war cost, and if taxes and transportation charges caused by the war were deducted, lumber in many instances would be selling at less than its pre-war figures.

The National Fire Protection Association, in its annual report just published, includes a summary of the activities of lumber manufacturers of the country in developing fire resistive construction, which, according to insurance report, reduces the fire loss in properly built homes 50 per cent.

Lumber is the West Coast's great labor-employing and tax-paying industry. Conditions favorable to its successful operation are of vital importance to every community.

HOW TO EMPLOY THE IDLE

Nobody deplors unemployment more than this newspaper; nobody would rejoice more if it could be said that there was not a single idle man in this country.

But in the midst of all this discussion of opening factories at a loss; while we hear all these schemes of public employment to be paid out of taxes, our public men and newspaper seem to avoid the unpleasant facts. Get down to fundamentals, all ye people, and the situation will slowly but surely right itself.

There are only two difficulties—two very serious handicaps to prosperity—in this country right now. Here they are: Immoderate cost. Immoderate taxes.

Industry cannot rise with the taxes as they are. And yet they talk about putting millions to work at public cost, enormously increasing the already inordinate taxes.

Industry cannot raise to action with skilled wages any where from \$6.00 to \$15.00 for an eight-hour day. And yet, except in a few cases, unionist and non-unionists refuse to bring down the scale of wages.

Pare down your taxes, reduce your costs of operating, and money will come out and start wheels that will mean employment to increasing numbers. Fail to do these things and idle swarms will continue to swarm.

NEWS ABOUT OREGON INDUSTRIES

The Manufacture and Industrial News Bureau clips weekly about 800 newspapers from 12 western states, solely for its own information as to industrial conditions and matters relating to employment of labor in the west. During the past month, for the first time in over a year, there have been sufficient items from these states, relative to industrial activity, to compare with past averages. This indicates beyond the question of a doubt that industrial activity along vareious lines is picking up and that more men are being employed than the general public yet realizes. Many of the large industries which were inflated by wartime expansion are naturally showing a reduced output, but the little industries employing three, five or ten men are gradually taking up the slack and helping this country return to a normal basis.

Medford to have \$100,000 Dow Assn. hospital.

Country club to be built on Klamath Lake for sportsmen of 3 states.

Lebanon has new prune drier, capacity 900 bushels daily.
