Reaching home recently we found some printed matter advising of the location of the trade center of Yamhill County, and telling us to save money by trading at the stores of said hub. We know of no drug store in Yamhill County which undersells us on any item, and its probable that on a number of popular patents our prices will prove very attractive. We believe Dayton people should buy in Dayton, and we do not believe Dayton merchants will overcharge you. If you want to build up Dayton, give Dayton your business.

And wiring materials are not bought for one day, or one year. Purchases of such materials should be bought with discriminating judgment. Cheap materials are expensive in the long run.

Standard equipment, made by concerns with reputations to maintain, is the kind every electrical customer should select, and every dealer should sell. There is satisfaction in the use of such goods because of the minimum of future trouble. We try to buy the best and sell on a basis pleasing to those who patronize us.
