

Something New in Battery Service

"WESTINGHOUSE ATTENTION"

Thousands of new car owners are having their "eyes opened" to what real Battery Service is. "Westinghouse attention" is the latest thing in the way of Service to them. It is unlike anything ever offered to you before. It is designed to make your battery, regardless of its make, to give a maximum service and its features include many things other than the mere adding of distilled water to your battery.

Nearly two thousand of the leading battery stations in the United States are giving "Westinghouse Attention" today. Half a million car owners are profiting thereby—and are realizing what this service means to them.

You can have "Westinghouse Attention" in your town. Your battery man can place himself in a position to not only give it to you but to build a splendid business for himself. Ask him about it and, for full particulars, suggest that he write us.

A \$20 PAIR OF SHOES REDUCED TO \$1

A fashionable New York woman who was visiting this city recently wore a beautiful pair of low shoes that were the envy of all her friends.

Much to their surprise, she offered these shoes, which she had worn but a few times, to anybody who would take them, for one dollar. The shoes had cost \$20.

She gave as the reason for her strange offer the fact that she was suffering terribly from corns and could find no comfort when she wore these shoes.

One of her friends suggested that if she tried the A. D. S. New Method Corn Treatment her corns would disappear and her beautiful \$20 shoes could again be worn.

She took the advice of her friend, her corns disappeared over night, and she again could wear her \$20 shoes and thus save \$19. A. D. S. New Method Corn Treatment, for sale by

Originally the object of the crusaders was to gain free access for pilgrims to the holy sepulcher, but developed into a contest for the possession of Jerusalem itself.

"BIRTH OF A NATION" IS WONDERFUL PICTURE

When "Birth of a Nation" was produced about seven years ago, it was hailed as the greatest motion picture ever filmed. The lavish expenditure of money, the elaborate setting, and the wonderful directing set a new high water mark in filmdom which, even today, has never been equaled.

After seven years of continuance showing—one years run in New York, half a years run in Chicago, eighteen weeks in Seattle—it is still showing to capacity houses. "Birth of a Nation" marks an epoch in motion picture production and with good reason. Produced by master directors, David Ward Griffiths, it portrays on the screen all of the harrowing details of the crumbling of this nation during the Civil War period; how victory came to the North; shows the assassination of Abraham Lincoln; the operations of the Ku Klux Klan, and then the piecing together of the shattered fragments of a nation into what is now and always has been, the greatest nation on earth. Perhaps "The Rebirth of a Nation" would be an appropriate title.

This picture cost half a million dollars to produce, employs 18,000 people and 3000 horses in the scenes and has an everchanging kaleidoscope scenes. It has been viewed by millions of people and every man woman and child, who calls himself an American, should see it for it makes Better Americans.

In order to accommodate the crowds that are expected to view it at the Arcade Theatre, May 2nd, there will be two shows—the first beginning at 6 p. m. and the second at 8:30. You are urged to attend the first performance lest you be disappointed. Come early and be on time as you will not want to miss a single scene of this wonderful picture. This is a brand new print and is accompanied by a special musical score.
