

A Good Financier

In a certain home there was a 10c fine for each spot made on the table linen. Around Christmas Johnnie was mysteriously rubbing the table cloth with his fingers. His sister saw him. "What are you doing?" she asked. "I'm making these two spots into one," said the financier.

We don't claim you can make your money go twice as far by trading with us, but many make it go a third to a half further. In any event, those who buy here, whether they put the savings back into more good things to eat or put the savings in the bank, it's so much gained. You can't help but benefit by trading at Randall's because the savings are sure.

Great Power in Flesh

Like produces like.

Flesh makes flesh.

The strongest and hardest people are those who consume MEAT.

The American Indian lived largely on buffalo and bear steak.

"John Bull," that model of hardihood, would starve without his roast.

An American is but half a man without his "ham and."

Our meats are always the best to be had. See us for strength-giving meats.

Oregon now has 100,000 colonies of bees and 10,000 beekeepers, says the Specialite. Sixty carloads, or what would amount to a good sized freight train, is a conservative estimate of the amount of honey produced each year in the state.

The latter part of last week as H. B. Allen was on his way to Portland in his car at what is called six-corners he was run into, while he was on the down hill grade, by a large machine, with the result that his car was completely wrecked. Fortunately Mr. Allen was alone and did not sustain much if any injury. His car was hauled into the garage there and is undergoing a rebuilding. For once Mr. Allen feels thankful that his wife staid at home for he firmly believes had she been with him she could not have escaped instant death, as his car was struck on the side where she would have been riding.

Our Mayor received a communication stating that the Retail Grocers Association of Portland would make us a short call Wednesday morning. Did they come? we guess yes. There were some 56 cars and about 90 people in this company. They immediately took possession of our park and the entertainment was on. Mayor Harris extended them a most cordial welcome on behalf of Dayton. His speech was well received by our own people as well as the visitors. They brought their own musical instruments of various kinds and their music was par excellence. Their male quartet was far above the average and their responses to our Mayor's address were among the best ever. The ladies of the Civic Club were on hand to extend these visitors cheer and good will by serving some of the best Loganberry punch that was ever made which was immensely appreciated by these visitors. Taken all in all this short visit will create much friendship between this place and the metropolis of Oregon.

Paul Bliss and wife, of Gresham, Mr. and Mrs. Albert Dekum of New York, brother and sister of Mrs. Mary B. Robertson, a former resident of this place, and accompanied by Mrs. J. H. House of Glenfield, New York, were calling on the J. M. Crawford family while enroute to Newport to see Mrs. Robertson, one day the latter part of last week.

The Oregonian of a short time ago contained the death notice of Rev. Elkanah Walker, who at one time was a public school teacher in Dayton. Few people are here now that knew and remember this man but he is well remembered by a Dayton woman who went to school to him many years ago. She also remembers a number of the songs he used to sing with a guitar accompaniment.

SAD, SAD, SAD!—His horse went dead and his mule went lame; he lost his cows in a poker game; a cyclone came on a summer's day and blew his house and barn away; an earthquake came when they were gone and swallowed the ground the house was on; the tax collector then came round and charged him for the hole in the ground. —Ex.

Mrs. J. L. Stuart is enjoying a visit from a couple of nephews, Frank and Ivan Crocker accompanied by two young men friends, Robert Bowron and Amer Vassar, all of Oklahoma. These young men are out for a sightseeing trip and a good time. They have a regular prairie schooner rigged up on a Sampson truck and are home at any place they can find room to park their car. Judging from the good time these young men had among our people on the trip to the mouth of the river Sunday they are liable to become lonesome.

THIRTEEN KILLED IN MINE FIGHT

Wheeling, W. Va.—Sheriff H. H. Duvall and twelve other persons were killed and no less than twenty-five others wounded in a fight at the Standard mine of the Richland Coal company, two miles from Wellsburg, according to a telephone message from Wellsburg. The mine, which has been working on an open shop basis, was reported to have been attacked by a large party of men from over the Pennsylvania line. After the fight they burned the tipple.

Governor Morgan has ordered Sheriff Harry Clouse of Ohio county to take charge of the situation. State police and all Ohio county deputies are en route to the scene.

Sheriff Clouse, before leaving for the mines, said he had been informed that miners were involved in the fight and that they had fired houses at Cliftondale, a mining village nearby.

COINAGE TO BE SPEEDED

Philadelphia Mint is Ordered to Hurry Up Output.

Philadelphia.—Orders to speed up the coinage of silver dollars to replace part of the \$300,000,000 sold during the war as bullion to England have been received at the Philadelphia mint. Fifty thousand are to be coined daily and shipped to Washington for deposit in the treasury vaults. Silver certificates will be issued against them. The mint has approximately 45,000,000 ounces of silver bullion on hand.

Out of a total coinage of 81,093,075 ounces of silver in the fiscal year closed June 30, there was a wastage of only 1689 ounces, officials announced. This was but 2 per cent of the wastage permissible under the law.
