FOG AND SMOKE CAUSE COLLISION

Four Men Are Lost When Schooner Is Rammed and Sunk By Freighter.

Seattle.—In a heavy pall of forest fire smoke and fog the big freighter Harry Luckenbach rammed the steam schooner Henry T. Scott amidships at 6 o'clock Sunday morning in the Strait of Juan de Fuca, causing four deaths and complete loss of the smaller vessel.

All of the victims, members of the crew, were trapped below decks when the vessel plunged to the bottom a few minutes after the collision. The crash occurred about eight miles west of Neah bay.

The Henry T. Scott was bound for San Francisco from Seattle. The Harry Luckenbach was outbound from Puget Sound ports for New York via San Francisco.

Twenty-six survivors from the Scott were taken aboard the Luckenbach from the two lifeboats from the waters of the strait. The Luckenbach then turned about and steamed for Seattle with the survivors.

AMERICAN LEAGUE PLANNED

Uruguay Proposes Combination of Nations on Hemisphere.

Washington, D. C.—The government of Uruguay has proposed as a principle to be adopted by the nations attending the fifth Pan-American conference to be held in Santiago, Chile, next March "that all countries of the American continent will consider as an encroachment upon their rights an encroachment upon the rights of any one of them inflicted by a non-American power," and that "such encroachment would give rise to a common and uniform attitude of all nations of America."

Uruguay also has proposed that an American league of nations be formed to bring about the observance of the principle.

STATISTICAL NOTES

The earth is 400,000,000 years old, according to the estimates of the geologists.

The population of the globe is increasing at the rate of 14,000,000 annually.

Of the total number of 1,277 characters in Shakespeare's plays, 157 are females.

The population of the British empire exceeds one-quarter of the world's population.

New Zealand has 85,000 telephones in use, an average of one to every sixteen inhabitants.

Out of a population of 4,700,000,000 the world contains only 550,000,000 white inhabitants.

A geological survey has shown the probable area of Canadian oil fields as 300,000 square miles.

The earth's total land area is 33,123,171,200 acres, of which forests cover 8,097,319,827 acres.

Only one-third of the world's population use bread as a daily food. One-half subsists chiefly on rice.

HAVE YOU THE COURAGE—

To meet failure and obstacles on every hand?

To meet your enemies with love for hate, good for evil?

To speak the truth when a lie would help you out of a difficulty?

To bear the blame which belongs to another because you do not want to bring pain to others?

To forego extravagance so that you may provide for the future welfare of those dependent upon you?

To move steadily toward your goal with a serene mind when you know that others ridicule and consider you a failure?

To remain in obscurity to support a parent, or a helpless sister or brother, when you have the consciousness of the ability to do big things?—London Tit-Bits.

Dye Makers Lose Fight in Senate.

Washington, D. C. — Dye manufacturers of the country failed in the fourth phase of their fight to have the existing dye embargo and licensing system continued after the coming into force of the administration tariff bill. The senate by a vote of 38 to 32 struck out provisions of that measure under which the embargo would have been continued for one year and might have been extended for any part of an additional year, at the discretion of the president.

THE HOME OF REFRESHING REFRESHMENTS

FROM THE PENCIL'S POINT

A man is not as old as he feels, but as old as the songs he feels like singing.

Stern parents are usually that way, not from conviction; it's because they can't help it.

All men are a little lower than the angels and the distance keeps varying from time to time.

If a cat likes a man it will caress a chair leg ten feet away. A dog shows no such indirection.

Farmers find more opportunities for fun than ever watching a town man trying to hitch up a horse.

It is a proud reminiscence for any son or daughter that a golden wedding was celebrated in the family.

Everybody knows how to do something well. It is a pity that so often he is not given the opportunity to do it.

Half the time when one feels himself growing indignant he will find that he is not minding his own business.

Poem by Uncle John

ATTENTION TO DETAIL

When a feller pays attention to the commonest of things, there's a powerful sight of comfort in the happiness it brings. If we overlook the details in the rush of gettin' there, we may face the grim necessity of bringin' up the rear.

In the thousan' little ventures that a feller undertakes, it may be plantin' flowers, or it may be killin' snakes. Our hand may grasp the saber, or the handle of the plow—but we don't accomplish anything, without a-knowin' how!

The man that borrys money at a triffin' rate per cent, may dissipate his wages till he don't know how they went. . . . But the keerful money lender, as he figgers the amount, might illuminate the spender, on the little things that count.

I reckon there is women that's disposed to keepin' house. . . . They'd entertain the elephant an' squall about the mouse! They fight the little red ant, while they love a dog, by jings, but that's the way with women—they aspire to greater things!

For your Uncle John.
