NAVAL PACT RATIFIED BY FRENCH DEPUTIES

Paris.—France Saturday gave formal approval to the 5-5-3 naval power pact, drawn up at Washington 20 months ago.

By this action, France aligns herself with other signatories, the United States, Great Britain, Italy and Japan, all of which have signified their approval of the naval pact.

The four-power treaty signed at the Washington armament conference was ratified by the French chamber of deputies Monday. The ratification is expected to be followed shortly by the senate's approval of both this and the naval limitation treaty, adopted by the chamber Saturday.

The treaty relating to the use of submarines and poison gases and the protection of neutrals and non-combatants, and the two pacts relating to China are unlikely to come before parliament until after the summer recess.

OREGON TIMBER SOLD

Forest Service Announces Purchase of 685,000,000 Feet.

Washington, D. C.—The sale of 685,000,000 board feet of timber on the Cascade national forest in Oregon was announced by the forest service, department of agriculture.

With the sale of the Cascade forest timber the department reports that its total sales for the fiscal year ending June 30 probably will total between 2,500,000,000 board feet and 3,000,000,000 board feet with an estimated cut of between 900,000,000 and 1,000,000,000 board feet.

George H. Kelly of Portland, Or., was the successful bidder for the Cascade forest timber at an average price of \$2.25 per thousand feet for the Douglas fir. The total value of the timber is placed at \$1,500,000. It will be cut at the rate of 50,000,000 board feet per year, thus increasing the receipts of the government by about \$100,000 per annum.

RECENT REGULATION LIMITS MAILING FRUIT AND BERRIES

New Official Postal Bulletin Requires Tight Containers for All Soft Fruits

Berries and soft fruits must not be accepted for mailing unless enclosed in a leak-proof container so that nothing can escape from the package.

All parcels containing such articles should be carefully inspected to determine whether or not they are sufficiently wrapped for safe transmission.

Friction top cans used for this purpose cannot be accepted unless crated in such a manner as to prevent the top from becoming loose.

WHAT IS MONEY?

Money is a rag backed up by gold. The mint makes money, and man, he either earns it or inherits it, serves for it or steals it, saves or spends it.

Money makes more people sad and more people glad than any other root that we dig for.

Money comes and money goes like luck. It will bring many things you want and many things you don't want. Thrifty men take it to the banks—thieves take it from the banks.

It's pretty soft for the man who has it and pretty hard for the man who has it then loses it.

You can't eat money, neither can you eat without it. Men preach, teach, steal and murder for it. Without it, a man feels like hell—with it, he often acts like hell.

The more money a man has, the more he thinks he needs. Money does not fill the vacuum—it makes a vacuum. Get a lot of money, and they call you a crook. Have none, and they will call you a "passerine," and this bird is the cuckoo.

Money lends a certain dignity to an aged aunt who has a goodly bank balance, and it brings us over to liking the most obstinate old uncle when he has plenty of undivided property.

The advantage of having money is all summed up in this short clause: The right use of it.—The Silent Partner.

Offers Billion for U. S. Merchant Fleet

John W. Slack, President of a manufacturing plant at Silver Creek, N. Y., offers the government \$1,000,000,000 for the entire U. S. merchant fleet. "Too much," says retiring Chairman Lasker. It is hinted Henry Ford had a hand in the bid, although Mr. Slack will neither confirm nor deny the report.

Flight of Refugees from Mt. Etna

A sad sight in a little town at the base of Mt. Etna in Sicily, showing a village which was later completely destroyed by a torrent of lava from the volcano. As this exclusive photo was taken, the ashes were falling, women and children were fleeing and military police were making avert to remove inflammable materials.
