LIMITING LIQUOR PRESCRIPTIONS VOID

**Court Holds Cannot Dictate the
Number Physicians May
Issue.**

Helena, Mont.—Congress once having said that alcohol can be used for medical purposes cannot now dictate to the physician as to the number of whisky prescriptions he shall write or the quantity he shall prescribe. Federal Judge Bourquin held here. In his decision Judge Bourquin invalidated the prosecution of Dr. J. B. Freund, a Butte physician, who it was charged issued more than 100 prescriptions within a 90-day period and prescribed more than one-half pint of alcohol to one patient in 10 days.

The decision in substance held that congress cannot substitute its judgment for that of the physician, ruling similarly to Federal Judge Knox of New York, who on May 9 last granted an order restraining prohibition authorities from interfering with the practice of Dr. Samuel W. Lambert with respect to the amount of whisky which might be prescribed to one patient.

The ruling of the Montana federal jurist, however, goes further and holds that the portion of the federal prohibition enforcement act which seeks to limit the number of prescriptions is invalid as well as that portion limiting the quantity prescribed.

TWO FARMER-LABOR PARTIES ORGANIZED

Chicago.—The federated farmer-labor party and the farmer-labor party of the United States, with individual platforms and candidates, are announced as entries in the 1924 political field. The majority of the farmer-labor party refused to affiliate with the federated organization, a group born in the farmer-labor convention, and decided on a platform and ticket of its own. A minority went over to the federated party, splitting the farmer-labor organization.

Leaders of the farmer labor party, who fought against affiliation with the federated party in the face of a split in their own ranks, said their party was "freed of a red menace and on its feet stronger than ever in pursuit of independent political satisfaction." The federated farmer-labor party welcomed to its ranks the delegates who bolted the farmer labor convention and elected five of them to its executive committee.

ORDERS TARIFF INQUIRY

Commission Wants Data Bearing on
Duty on Logs.

Washington, D. C.—The tariff commission has ordered an investigation into production costs and other data bearing on import duties on logs of fir, spruce, cedar or western hemlock and announced Friday it had set August 3 as the date for a preliminary hearing on the rates.

The commodities are covered by section 401 of the tariff act and the investigation which has been ordered will go into one phase of the import rates which provoked considerable debate when the law was in the making in congress.

Experts of the commission have been engaged in developing facts surrounding the rates for several weeks. Commission members, however, have declined to disclose the source of complaints resulting in the order to investigate the duties.

Establishes New Butterfat Record.

Chicago, Ill.—A new world's record butterfat production for one year on all breeds has been established by Dekol plus Segis Dixie, a Holstein cow owned by Raymondale farm at Vadreuil, Quebec, the Holstein-Friesian association of America announced. This cow produced 33,464.7 pounds of milk containing 1349.35 pounds of butterfat in 365 consecutive days.

President Harding Lands in Alaska.

Ketchikan, Alaska.—President and Mrs. Harding celebrated one of the most memorable of their 32 wedding anniversaries by arriving in Alaska, the first chief executive and first lady of the land ever to visit the great northern territory.

Goldfield, Nevada, Fire Swept.

Tonopah, Nev.—With but a few buildings left standing, Goldfield, Nevada's most famous boom gold camp, was an area of burned-over ruins as the result of a fire. The property loss is estimated at from \$500,000 to \$750,000.

Thirteen Million Motor Cars in U. S.

New York.—Motor cars and trucks registered in the United States on July 1 totaled 13,048,128, according to a survey just completed by Automotive Industries.

CHANDLER ANDERSON

Chandler Anderson, International lawyer of Washington and New York, appointed by President Harding a member of the United States-German claims commission.

RUSS CONSTITUTION RESEMBLES AMERICAN

Moscow.—The constitution of the new union of soviet socialist republics, or the United States of Russia, approved by the Russian parliament, parallels to a considerable degree the original American constitution, although it provides some principles of government resembling the British.

In no case does it provide for a direct election. Its two-chamber congress and supreme court jurisdiction resemble the American, while the cabinet is responsible to parliament, like Great Britain's, and congress is entrusted with legislative and executive powers.

A joint committee of both houses, consisting of 21 members, is to be the supreme authority in the interim between the sessions of congress, and the council of commissars, or cabinet, will be mere managing directors of the various departments, whose acts can be overthrown at any time by congress or its presidium.

BRIEF GENERAL NEWS

John D. Rockefeller celebrated his 84th birthday Sunday at his home.

Thirty-eight persons dead and more than 200 injured was the toll of Fourth of July celebrations this year.

Expenditure of \$716,724 of forest road funds for the construction of roads in Colorado and Idaho has been approved by Secretary Wallace.

It is officially announced that Leonid Krassin has been removed from his position as head of the Russian soviet delegation in London, says a Reuter dispatch from Moscow.

In view of the approaching wheat harvest, the federal reserve board has issued instructions to federal reserve agents through the United States to take special precautions to insure adequate financing for the marketing of agricultural produce.

"The United States will maintain at full efficiency during the next fiscal year, "a minimum naval force at sea," of eighteen first line battleships, fourteen cruisers and eighty-four submarines, under a decision of the general board formally approved by Secretary Denby.

Britain Pays U. S. \$4,600,000,000.

Washington, D. C.—The biggest financial deal in history was completed when Great Britain handed to the United States her government bonds to the amount of \$4,600,000,000 and received in return the cancelled I. O. U. for \$4,074,818,358.44, which she gave when the huge war borrowings were made. This exchange of definite British government bonds for the demand note was made in accordance with terms of the debt funding agreement reached here some time ago.

Harding's Stay in Seattle Cut.

Seattle, Wash. — Five hours have been cut out of the president's stay in Seattle, July 27, because promoters of the Seattle pageant, "Americana," refused to give up their rights to the University of Washington stadium to allow the president to make his initial speech on Alaska in the evening.

Educators Elect Woman President.

Oakland, Cal.—The 1923 convention of the National Education association elected Miss Olive M. Jones, New York school principal, as president of the National Education association to succeed William B. Owen of Chicago.

Mr. Reames Made Ship Board Counsel.

Seattle, Wash.—Clarence L. Reames, Seattle lawyer and ex-United States district attorney for Oregon, has been appointed special counsel for the United States shipping board for the state of Washington.
