Some Difference

Ever hear of the difference between a "farmer" and an "agriculturalist"? They say a farmer is a man who makes his money on a farm and spends it in town, while an agriculturalist makes his money in town and spends it on a farm.

This may be true—and it may not, but OUR business is banking, and we try to have an up-to-date banking service for farmers, agriculturists, merchants, stockmen and everybody in the community. The more our business grows, the better the service we have to offer.
