**LOCALS**

**The Road Hog**

The road hog went his merry way  
And he was going west.  
To crowd 'em over and crowd 'em off  
He did his level best.

Another road hog hove in sight  
And he was coming east.  
To crowd 'em over and crowd 'em off  
He cared not in the least.

They met—two piles of junk lay by;  
Ha, ha! we laughed—and then,  
Out crawled the charmed degenerates  
To hog the road again.—A. S. G.

Sodium fluoride applied by the pinch method will rid the poultry flock of lice. This method as recommended by the Oregon experiment station places a pinch of the dust at the base of the tail, underneath the vent, under each wing, on the head, and on the back. In case of lice on the little chicks, grease their heads with lard or vaseline. Blue ointment is sometimes used, but is injurious to the chicks if they eat it.

Cockerals should be removed from the flock of chicks as soon as the sex can be determined, according to the O. A. C. experiment station. The colony brooder soon becomes too small to efficiently house the entire flock and as a result the vigor of the flock is often sacrificed if the young male birds are not moved to other quarters. They can either be sold at this time or fattened before disposing of them. The most profitable method depends on the time of year of hatching, and the breed. However, they must weigh at least a pound before they will be accepted on the market.

**This Is American Forest Week**

Be an American Sportsman, Make This Pledge Your Pledge

"The rules I will follow to prevent Forest Fires"

- 1 Matches—I will be sure my match is out, I will break it in two before throwing it away
- 2 Tobacco—I will warn smokers to be sure their pipe ashes, cigar or cigarette stumps are dead before throwing them away, I will warn them not to throw them into brush, leaves or needles.
- 3 Making Camp—I will secure a camp fire permit before building a fire, I will scrape away the trash from all around it, I will build it in the open and not against a tree or log or near brush.
- 4 Leaving Camp—I will never leave a camp fire unattended even for a short time, without quenching it with water and then covering it with earth.
- 5 Brush or Clear Fire—I will never build brush or clear fires in windy weather or where there is the slightest danger of them escaping control.
- 6 Fighting Fire—If I find a fire, I will try to put it out, If I can't, I will get word of it to the nearest United States ranger or State Fire Warden at once.

Prevent Forest Fires—It Pays.
