ACME QUALITY

BARN RED

Goes a long way—lasts a long time prevents rot and decay

E. Demaray Hdq

Scentless Flowers

Only about one-fifth of the total number of flowers have any fragrance. Red and yellow flowers are the most liable to smell, while violet-blue flowers rarely have any scent. There are 308 varieties of violet-blue flowers, and only 13 bear fragrance.

Pleasantdale

Vernon Hadley returned to his work in Willamina, Monday, after several days lay off, on account of cutting his foot.

Geo. Christenson and wife transacted business in the county seat Monday afternoon.

R. G. Hadley went to Portland Tuesday morning to attend a big initiation of the M. W. A. lodge Tuesday night. Several members from the Dayton lodge attended.

Mrs. F. H. Reichstein and Mrs. Roy Edwards and daughter Margaret were county seat visitors Monday afternoon.

Scott Edwards and family visited relatives in Hopewell, Sunday.

Mrs. Geo. Robinson visited relatives in Hopewell, Thursday.

Haying, cultivating corn, hop yard work and the picking of berries and cherries are keeping everyone busy these days.

Vernon and Kenneth Hadley and James Wakefield were in Willamina last Thursday.

W. L. Reichstein and son Lawrence of Willamina attended the funeral of their father-in-law and grandfather the late Geo. Savage, Saturday.

Mr. Johnson, father of Mrs. Jim Hibbert, underwent an operation in McMinnville, Tuesday.

Mesdames David Robinson and Geo. Robinson attended the berry festival in Newberg, Saturday.

The large barn on the J. A. McFarlane farm will soon be completed and ready for the hay crop.

Mrs. Mable Gibson and children and Mrs. Roy Edwards and daughter were county seat visitors Saturday.

Mrs. R. G. Hadley entertained the Stringtown Needle Club at her home last Thursday afternoon.

J. A. McFarlane and wife transacted business in McMinnville Saturday.

Vernon Hadley visited friends in Portland last week.

R. M. Rosensteel and family and W. L. Reichstein and family made a trip over the Columbia River Highway and Mount Hood Loop, last Saturday and Sunday. They report a wonderful time and a variety of weather.

R. G. Hadley and wife were McMinnville visitors Monday.

Little David Dorsey, son of Geo. Dorsey is quite sick this week.

Roy Robinson and wife of Middleton, J. J. Tice of Sheridan Herbert Haven of Woodburn and Mrs. Alice Naive and daughter Betty were Sunday visitors at the home of Mrs. David Robinson.

Finer School Buildings Is Universal Demand

The little old red schoolhouse is dropping off into obscurity. Like the hickory stick of the Three R's days, it is becoming but a ghost of the dim past.

"Modern progress," says the Indiana Limestone Quarrymen's association, "is sweeping before it the flimsy shells that once housed armies of tiny Americans. These claptrap structures, cold, unsanitary and at best poor fire risks, are rapidly being replaced by sturdy modern buildings.

"A survey just completed shows that during the year 1924 more than \$225,000,000 was expended in replacing antiquated school buildings.

"Plans have been adopted and contracts already awarded indicate that the present year will show a still greater volume of school building construction. Beauty in architecture is being combined with utilization.

"Community interest and civic pride are in a measure responsible for the stride toward better school buildings. More and more schools are becoming community centers as well as temples of wisdom. Space for assemblies and recreation purposes are now almost a first consideration.

"Waste of space was a characteristic of many old school buildings. By judicious architecture, it has been estimated, \$50,000,000 could be saved, the chief economies being in the reduction of waste space on stairs and corridors and the increase in usable area.

"The future will see finer school buildings with better facilities and at a lower cost to the taxpayer."

Order Now!

Send in your order now! The offer is made on a short time basis. Both new and renewal subscriptions to this paper will receive these magazines. But don't wait until the offer has been withdrawn. All Five for One Year—ORDER NOW! Send your order to our office

When Diphtheria Kills

Regarding four deaths from diphtheria in New York, "none of the patients received antitoxin earlier than the third day of the disease". Of three more children who died, one was not seen by a physician for six days after the disease started, another for four days and the third for "several days". Reports such as these are very common, and are of great importance in view of the many small outbreaks of diphtheria in Oregon lately.

Diphtheria antitoxin has been in use for almost thirty years, yet in Oregon, in 1924, 107 deaths from diphtheria were reported, and there were probably more. How many of these deaths were necessary, and how many could have been avoided? It has been shown that when antitoxin is given on the first day of the disease, only 2.2 per cent of the cases die, while by the second day the percentage has risen to 7.6. If the antitoxin is delayed till the third day, seventeen out of each hundred die, and the percentage rises to twenty-four for the fourth and thirty-four each for the fifth and sixth days. This gives some idea of the importance of immediate attention.

The germ of diphtheria lives only on a small area of the body, usually in the throat, mouth or nose. The damage is done by a poison, or toxin, which it manufactures and which is carried all over the body by the blood. This poison attacks the tissues of the body, notably the nervous system and the heart muscle, accounting for the paralysis often following diphtheria, and the frequent deaths from heart failure following exertion after the disease seems to be over.

Antitoxin is an antidote to the poison, destroying it as it is passing through the body, before it can attack the body tissues. After the toxin has once attacked the body, antitoxin can no longer neutralize it, for the damage is done. Therefore the antitoxin must be given early enough to forestall damage to the body by the toxin. Antitoxin is a perfectly normal substance, which is

formed by all bodies infected with diphtheria. What we do is to supply an extra amount, to supplement that which is naturally being formed, but which is formed too slowly to prevent damage to the system and possible death.

The parent must remember that:

1. Diphtheria is dangerous but most curable at the start. Call a doctor AT ONCE if the child has sore throat or suspicious symptoms.
 2. Antitoxin is a natural product and can do no harm. DELAY IN ADMINISTRATION CAN AND DOES.
- The doctor must think of this:
1. Out of 75 deaths from diphtheria analyzed in Chicago recently, 30 were probably due to failure to call a doctor early enough, 27 to failure of doctor to make early diagnosis, 12 to insufficient amount of antitoxin used and only six probably unavoidable.
 2. It does not hurt to give antitoxin occasionally in a case which is not diphtheria. It is often deadly to delay until an absolute diagnosis can be made.

Buried Watch

A woman's watch plowed under 17 years ago on the farm of John Briggs at Avoca, N. Y., has just been recovered when potato diggers came upon it in a hill of potatoes. The crystal was not broken and the watch was in good condition.

Edible Muskrats

The flesh of the muskrat for human food is variously esteemed, but these animals are sold extensively in some markets of the East and Middle West. In the retail markets they are sold as "marsh rabbits" and have a flavor somewhat like the wild duck.

Many New Year's Days

The Athenians began the year in June, the Romans first in March and afterward in January, the Persians on August 11, the Macedonians in September, the Mohammedans in July.

Gaiety Girl
by Mary Philbin

The "Gaiety Girl" is commonly known the world over as the girl with the peerless style.

Arcade Theatre Sat, July 4

Admission 10c and 25c.

FASHIONS

When in doubt about what to buy, and how to make your summer dresses, always come and look over our Designer Magazines and style books, they are up-to-the-minute. These Magazines and style books are monthly publications, designed and printed by people, that make a study of Fashions.

You will find the dress material here that suits your fancy. We have bought our line of dress goods in small yardage so as to get a larger selection. This gives you an opportunity to secure a dress different from your neighbor.

We also take orders for Delineator patterns and can get them for you on one day's notice. The same time as our Designer service.

Store will be open Friday night to 9:00 P. M.

Closed all day July 4th.
