Watchmaker and Jeweler

Agates ground and mounted
A fine line of Jewelry and Silverware at prices that are right.

If the gentleman head of the house had to do the washing just one Monday morning there would be an electric washing machine in the home before the next Saturday night.

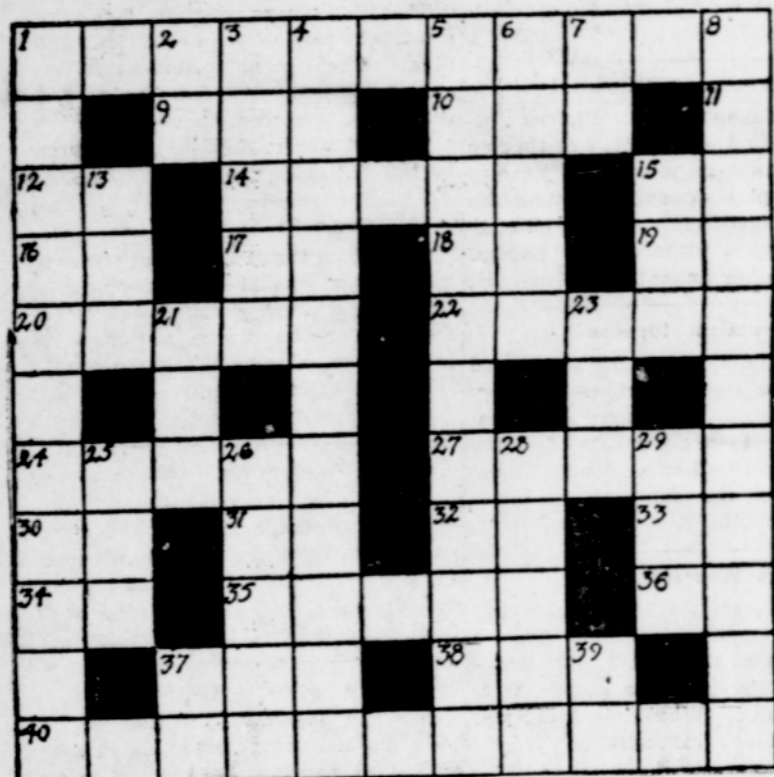

If you have not had the delightful experience of using an electric washer you can have no understanding of the work and drudgery saved by its use. The cost of operating a washing machine is about twenty-five cents per month for the average family. We sell the EASY washer, one of the best, on terms convenient to the buyer.

For the country home the pumping unit is indispensable. Cold running water at a proper pressure, fresh from the well, gives a comfort and satisfaction that is priceless. We sell deep and shallow well equipment, install and see that the unit works perfectly, are in business to stay, stand behind every unit sold, and give service unexcelled. For all things electrical, we are head quarters, for carefully selected goods of the best make, courteous, and appreciative service. Call, write, or phone—Blue 34.

CROSS-WORD PUZZLE No. 29

(© by Western Newspaper Union.)

- Horizontal.**
- 1—Makes terms of surrender
 - 3—Single
 - 10—Self
 - 12—Negative
 - 24—Projecting ridge or shelf
 - 25—Belonging to
 - 26—Southern state (abbr.)
 - 27—English for having dined
 - 28—Preposition
 - 29—Exist
 - 30—Muse of lyric and amatory poetry
 - 32—Member of school of philosophy founded by Zeno
 - 34—South American ruminant
 - 37—Heavier-than-air flying machine
 - 38—Three-toed sloth
 - 39—Boy's nickname
 - 40—Tallurium (abbr.)
- Vertical.**
- 1—That which can be frozen
 - 2—European river
 - 3—Opening admitting liquids
 - 4—One who abstains from intoxicating drinks
 - 5—Preparation and enactment of laws
 - 6—One who acts for another
 - 7—Preposition
 - 8—That which assures a safe passage (two words)
 - 13—Implement for rowing
 - 15—Japanese sash
 - 21—In or after the style of
 - 23—Combining form meaning egg
 - 25—Recluse
 - 26—New Zealand aborigine
 - 28—Poison
 - 29—Single
 - 37—Wide street (abbr.)
 - 39—Symbol for iron (chem.)
- The solution will appear in next issue.

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill all the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

Fourth of July Shutdown to be Brief this Year

Portland, June 29.—(Special)—Contrary to rumors circulating for several weeks past the Fourth of July shutdown of fir sawmills on the west coast will be brief this year and for the industry as a whole will not average more than five days, according to reports from 4L employment service offices in various northwestern cities received at 4L headquarters here today. Some companies report that they will remain closed for two or three weeks while necessary repairs are made, but the majority of large plants will be down less than one week.

On and after July 1, 1925, the U. S. Army Recruiting Office in Portland, Oregon, will be located in Room No. 209, COMMERCIAL BUILDING, 2nd & Washington Streets, and in addition to the regular routine of Recruiting for most all branches, camps and stations of the Army, will continue to assist Veterans with their adjusted compensation applications, etc.

The earthquake and tidal wave at Santa Barbara, Calif. and the big slides in the rocky mountains in Wyoming are great disasters and caused the loss of many lives and a great deal of property was destroyed, but we wonder if they are as serious as the auto accidents on our highways, caused by reckless driving and mixing gasoline and moonshine.

Health and Home

PROPER FOOD FOR SCHOOL CHILDREN

The age during which children are attending school may aptly be called "The Dangerous Age." It is the period of rapid growth and every care should be taken to insure the child of a normal and healthy body. The idea of eating only fit and wholesome foods should be early impressed on the younger members of every family in order to protect them against later ill health and its accompanying unhappiness. If the utmost care is not taken in the diet that is used by children, cases of food poisoning, indigestion and kindred ailments may result.

And milk being the chief item in the diets of most children, should be carefully guarded. It is, because of its nature, prone to infection if exposed to germs and may soon become unfit for use. Wherever there is the slightest reason for doubt as to its purity and food value, steps should be taken to insure the sterility and the fitness of milk intended for consumption by children. Many mothers have adopted the excellent practice of using milk that is absolutely pure and sterile and free from any germs or bacteria. The most satisfactory, as well as the safest milk used in preparing food for the growing child is evaporated milk. It is sterile, and therefore safe. It is more digestible than market milk. Its uniformity, convenience and cost are qualities that recommend it.

The following dishes are well suited to the needs of the growing child; they are easily digested and very nourishing:

- Caramel Custard.**
- 1 cup evaporated milk diluted with 1 cup water
 - 1 cup sugar (caramelized)
 - 2 (1/2) tsp. sugar
 - 1/4 tsp. salt
 - 1/4 tsp. vanilla
 - 3 eggs
- Scald the diluted milk. Caramelize the sugar and add to milk to dissolve. Beat eggs slightly, add sugar, salt, and flavoring and combine with scalded milk. Pour into custard cups and set in a pan of hot water and cook in a moderate oven. When done, a knife blade run in the center will come out clean.
- Fish Chowder.**
- 1 pint raw fish cut in 1-inch dice
 - 3 cups boiling water
 - 5 small potatoes, sliced
 - 1 cup evaporated milk diluted with 1 cup water
 - 2 onions chopped fine
 - 1/2 pound fat salt pork, sliced
 - 1/2 cup cracker
- Fry out the salt pork. When brown, remove pieces of pork and put fish, potatoes, and onions in kettle. Cover with boiling water. Simmer until potatoes are tender. Add the milk and cook 5 minutes longer. Season with salt and pepper. Just before serving add the crackers.

Watch Your Diet, Says Prima Donna

Cyrena Van Gordon, prima donna of the Chicago Opera company, believes in the sapper and her privileges. She believes in the practice of this much-discussed person in wearing no corsets, in wearing short skirts, going in for athletics and outdoor life and in thoroughly upsetting the theories and practices of her mother and grandmother.

Miss Van Gordon, who is, in private life, Mrs. S. Bogart Munns, the wife of Doctor S. B. Munns, says that all of these things are woman's right and are necessary if a woman is anxious to keep her youth and beauty. But exercise is not the only thing that is necessary for the woman who is desirous of being attractive. She must watch her diet and be careful not to eat anything that will, in any way, be fattening.

There are certain dishes to which Miss Van Gordon is partial and to which she gives the credit for the retention of her beauty. These dishes she prefers to prepare herself and, when on tour with the Chicago Opera company, she carries a small electric stove in order that she will not be deprived of the food she deems necessary. These dishes are easily prepared.

- Miss Van Gordon uses for:
- Celery and Cheese Casserole.**
- 1 cup cheese
 - 1 cup chopped celery
 - 1/2 cup evaporated milk
 - 1/2 cup water
 - 1 tsp. flour
 - 1/2 cup butter
 - 1/2 lb. mushrooms
 - 1 cup chicken broth
 - 1 egg yolk
 - 1/2 tsp. salt
 - 1/2 tsp. pepper
 - 1/2 tsp. pimento
 - 1/2 tsp. salt
 - 1/2 tsp. pepper
- Cook the peppers (also mushrooms, if they are used) in the butter for 15 minutes, keeping them covered while cooking slowly. Add the flour and seasonings, also the milk and broth. Stir to a smooth sauce. Put chicken in sauce to heat, and just before serving, stir in beaten egg yolk. Cook in double boiler to prevent curdling.

ELKS

Portland will pour out its hospitality upon Elksdom during the sixty first grand lodge session of the order, July 13-18, when the herds flock to the city for what looks like it would be the largest and most important in the history of the order. Plans of the special commission in charge at Portland for handling all details of the big affair stand virtually complete, according to James D. Olson, executive secretary at headquarters in the Elks' Temple.

There has been the heartiest of co-operation from elks of Washington, Idaho and Oregon, as well as elsewhere, in the working out of plans for the grand lodge sessions, and the Portland members feel happy over this, for it has been of great assistance in the handling of vast amounts of detail.

No end of good things are awaiting the Elks and their ladies in Portland, for it has been the aim of the lodge commission members to plan for Happy Week, as well as to make sure everything is in readiness for the formal sessions and the heavy work of the order while here. The big public auditorium, built by the city, will be used for the formal sessions, and it will take care of this very nicely.

Every day of the sessions, from July 13 to July 18, will be crammed full of business and pleasure, for the Portland commission has made plans for everything from greetings at the railroad station upon arrival of the visitors to guides for the uniformed outfits, bands and patrols, during their sojourn, and for the automobile trips, dances, band concerts and other features. Fun is the word, and for this the commission has far to prepare.

The auto trips will include the Columbia River Highway, Fort Vancouver, Wash., Longview, Wash., lumber mills, Oregon City paper mills and scenic trips about the city.

Divine services will feature Sunday, July 13, the opening day, when a sacred concert will be held in the auditorium and when many noted ministers from all over the country will preach from local pulpits.

There will be daily band concerts in the parks, on the streets and in various halls, special dances throughout the city each night, and another feature will be competitive drills uniformed patrols, bands and drum corps on Multnomah field, for which there are prizes aggregating \$3000 cash.

Of course, there will be the colorful Elks parade, one of the most beautiful spectacles that could be presented.

Farm Reminders

Grapes may be grown in Oregon but need as frost free location as possible. Best locations are on slopes at least 50 or 100 feet above the valley floor. The slopes below the planting should be open and clear to permit the cold air to drain away to the lower levels where frost and freezing are more apt to occur. O. A. C. experiment station.

Comparatively few Oregon growers produce certified potato seed. Three trips must be made by the O. A. C. extension service specialists to the farm of those who attempt it. The growers usually receive a premium for their seed, a small fee is asked to help pay the expenses.

Hungarian vetch has a number of qualifications that make it an outstanding crop in many Oregon situations. Being a legume it increases the amount of nitrogen in the soil. It is excellent as a forage crop giving hay, silage, soilage, and pasture equal in palatability and nutritive value to that of any other annual legume.

The ball game, Sunday, Dayton vs. St. Paul on the local diamond was won by home boys. One of features of the game was a home run by Allen with the bases full. If the boys keep their pep up they will have it easy with Newberg, the 4th.

Another Pioneer Passes

Hein Kulper passed quietly away at his home in Dayton, Oregon, June 30, at the age of 88 years, 8 months and 13 days, after a lingering illness caused by paralysis.

Mr. Kulper was born near Hamburg, Germany, October 17, 1836. He left home at the age of 17 years, traveling around the world as a seaman, finally coming around Cape Horn and landing in California where he spent some time in mining, coming on to Oregon in 1857 where he took part in the Indian War on Rogue River. Later he mined all through Southern Oregon, New Mexico, Nevada, Idaho and Montana, settling in Washington on a homestead in 1863. He married Miss Nancy Eaton, December 18, 1864, who shared with him the hardships and trials of early pioneer days. Four sons and three daughters were born to them. Two sons died several years ago. He owned 500 acres of land at one time in Clarke County Washington raising cattle and farming, doing much in building roads, organizing schools, and helping to improve the country. In 1897 the gold and copper mines of Alaska lured him there for five years, when he returned and located in Dayton, where he has since resided. He has manifested such wonderful cheerfulness and patience during these last years of blindness and paralysis that has endeared him more than ever to his family and friends. He leaves besides his widow, the following children: J. H. Kulper of Portland, Mrs. Rebecca M. Lugar of Pendleton, Dr. Emma C. Koch of Vacaville, Calif., Mrs. Tillie N. Morck of Aberdeen, Wn. and Otto Kulper of Alaska. Also nine grand children and seven great grandchildren, besides a host of friends. Among the grandchildren is Dr. R. W. Cahill of Portland and Carl Morck of the Morck Hotel, Aberdeen, Wn. Funeral services will be held in the Portland Crematorium Thursday July 2 at 2 p. m.

Eugene Summer Session, July 1—A searching revelation of inequalities and inefficiencies in the system of school finance in Oregon, an exposition of the platoon system in primary education, and a discussion of high school socialization problems, were some of the highlights at the annual Educational Conference held at the Eugene session, Friday and Saturday. Besides the number of superintendents, principals, and teachers enrolled in the summer session, a number of Oregon school men from Portland, Astoria, Salem, Hood River, Woodburn, and other cities attended as delegates. After a thorough going discussion of the financial problem that confronts education in Oregon and in the country at large, Dr. Homer D. Rainey of the University school of education recommended three practices to all administrators; to know the present cost of the educational unit, to know what the future of terminal costs will be, and to know the source of revenue from year to year.

The conference adopted a resolution bearing on this subject as follows: We urge the preparation of careful local studies of the whole problem of school finance, leading to the development of a sound policy of obtaining revenues, incurring indebtedness and meeting obligations on the part of school districts. We believe in the larger unit of taxation and in the establishment of a connected financial program to that end.

In discussing "Social Problems in High Schools," Dean Marion Brown of the University High School, Oakland, Calif., said that a social program has always existed, although not recognized until recently.

The delegates endorsed the movement for organization and direction of students activities in high schools in accordance with a definite and constructive program of socialization.

We trust the time is not far distant, they said in formal resolutions, "When the development of the position of dean or adviser of girls in every large high school will become a reality."

They likewise commended the University in "bringing to the assembled school men of the state, representatives of progressive movements in education. They expressed sympathy for President P. L. Campbell, who is ill at his home and hope for his improvement and ultimate recovery.

Among the speakers were Supt. William F. Kennedy, Pittsburg, Pa., Prof. Peter L. Spencer of the University school of education; Principal Norman C. Thorne, Portland; Principal James
