If you spend all that you earn, some other fellow is banking YOUR money, and 20 or 30 years from now, this other fellow will be spending HIS old age in comfort on the income of YOUR money. This other fellow is wise—he is looking ahead. NOW—while his earning power is the greatest—he is laying by a tidy sum to live on when he is old. And he is doing it with the money you are spending foolishly. Why not beat him at his own game? Save a part of what you earn each week and make certain of peace and comfort when you are old.
