# Willamette A Linen Valley

Following the lead of Salem, Eugene has under way a proposition to establish a linen mill that will employ 300 people. A big mill at Salem is practically assured and it will be completed in time to take care of the next year's flax crop in that vicinity. The flax plant at the penitentiary at Salem has started what many think will result in making the Willamette Valley a great linen center; that flax growing will become a leading agricultural industry and that many factories will follow in different parts of the valley.

### Gard of Thanks

We, the children of the late Mrs C Lorenzen wish to express our very deepest appreciation for the thoughtfulness of our mother's neighbors and friends during the period of her last illness, especially as expressed thru their kind words, assistance at the funeral services and the beautiful floral offerings

# What Is a Good Cow worth?

Mercedes, a registered cow born in 1910, delivered her owner during her lifetime four daughters and eight sons. These offsprings netted \$165 by direct sale. Butterfat produced by this cow, during the 13-years she was in the herd totaled 6500 pounds, producing an income of \$3250 from butterfat alone. Thus, this fine old dairy mastron brought to her owners the sum of \$4715.

Not all cows are Mercedes, nor will they be. But there is no doubt, Mr. Dairyman, that keeping books, as was done in this case, proves which of your cows are unprofitable and can be sold. Then, as you fill your place with others, buy only the best stock. It will pay you—and the BANK OF DAYTON is willing to assist you in so doing within legitimate limits.

The Pacific Livestock Exposition at Portland, October 31st to November 7th, will show you why better breeding is most profitable. Featured in the great Exposition are Dairy and Beef Cattle, Hogs, Sheep, Goats, Horses; a Poultry Show, Industrial and Land Products Shows and the celebrated Horse Show.

### Life and Death

A man with an uncanny mania for juggling with figures produced pencil and paper and said to a friend: "Put down the number of your living brothers. Multiply it by two. Add three. Multiply the result by five. Add the number of living sisters. Multiply the result by ten. Add the number of dead brothers and sisters. Subtract 150 from the result." The friend did it. "Now," said the other with a cunning smile, "the right-hand figure will be the number of deaths, the middle figure the number of living sisters, and the left-hand figure the number of living brothers." And so it was.—Tit Bits.

### Bare-Headed

Robert had accompanied his mother and father to church. On the seat in front of them sat a woman holding a tiny "bald-headed" baby.

Robert watched the little head bobbing around with great fascination, then pulling mother down to the level of his mouth, he whispered in awe-struck tones:

"Mother, was I bare-headed like that all the time when I was a baby?"
