Dayton has one industry that is hardly meeting with the support that the citizens of our fair city should give it. It is the Dayton Evaporating & Packing plant. This business concern is doing a fair volume of business and are shipping their products into far distant fields. According to Mr. Snyder, manager of the plant, they have just completed several large orders for the Canadian Mounted Police, which are being shipped to distant points in northern Alberta and the Yukon.

The Dayton Evaporating & Packing company have had some hard strenuous times during the past few years, but they have been able to keep going and kept their plant running through these very hard years. It must be remembered that both canneries and dryers within a radius of from 15 to 25 miles, maybe more, have gone into the hands of receivers, some or them two or three times, still the Dayton E. & P. Co., have been able to stem the tide and carry on in business. We, as loyal citizens of the town and surrounding country, should not lose sight of this fact and should boost for this enterprising concern whenever the opportunity offers. We should put our shoulders to the wheels of progress and push with all our might when we have such a good industry here as the D. E. & P. have proven themselves to be. Proof of this is certain when orders are received and shipped to many points in Canada as well as in the United States. Many of these orders cannot be filled on account of the lack of supplies.

Mr. Snyder, who has been in charge of the plant for many years, has certainly proven his ability as a business man in bringing the D. E. & P. safely through these very trying times.

The Auto Camp was a topic of much discussion at the Business Men's meeting Monday evening and a committee was appointed to interview the City Council at their next meeting. Now that we have this very important addition to our city on the move let us all—every one—get behind the movement and rush it to a successful conclusion. Dayton needs an auto camp and needs it bad. Get behind the movement and do "Your Bit."

The Amity Standard says. "Amity high school baseball team took the Dayton twirlers to a cleaning by the score of 9 to 5 on the local diamond on Tuesday afternoon." That's all right, but the Dayton twirlers are twirling the twirler in pretty fine shape these days and Amity better bring a large list of subs when next the two teams meet. They'll need 'em.

Nature ordained only one head for one pair of shoulders, but in this day of flappers and shieks and petting parties—two seems to be the order. At least so we have noted along the highways these spring evenings.

Portland police are having their fun with the hold-up men these days, and the hold-up men are having their fun with the Portland police. A sort of "tag me and you're it," so to speak.

It's a dirty shame girls, that it had to rain Easter Sunday morning. We sure would have liked to see that new hat. But, cheer up, maybe it won't rain next Easter.

Spring sunshine is irresistible. Individuals feel the urge to be in step with nature's brightness—then whole communities act. So has come into practice spring CLEAN-UP days—for the town whose citizens pride themselves in their municipalities. There is more than selfish aims of any few in this cleanup idea. Every property owner in Dayton will profit if they will throw their support to the movement. The annual vacation months are at hand. Many visitors will call on us in the next four, five or six months. Send them away with a good impression of our town—and some will return to become a citizen and help make our town grow. Join in on the CLEAN-UP, rake-up, burn-up, paint-up, fix-up, primp-up, clean-up, build and make repairs. Elbow "grease" is your biggest investment.
