The best part of our knowledge is that which teaches us where knowledge leaves off and ignorance begins.—Oliver Wendell Holmes.

Editorial

PUBLICITY

Curry county only needs adequate publicity to bring about a rapid development of her rich natural resources. Nature has given her everything else. The county should assist in providing for this publicity as the only fair way to evenly distribute the cost.

BACK TO THE BUSH LEAGUE

Unable to make good in the big-time stuff, Al Smith was sent back to the bush league last Tuesday.

PROSPERITY

The American people have committed the reins of government to the hands of Herbert Hoover for the next four years, and they have chosen wisely. His broad experience, great ability, and unquestioned integrity make him the ideal man for a safe and sane business administration—the kind of an administration which creates confidence—and the people may look forward to four years of great prosperity.

LANGLOIS NEWS

Election day in Langlois was so quiet as to be noticeable—several of the older residents remarking about the contrast between the days of open saloons and the present time: "In the days of open saloons," one man was heard to say, "there was always from one to a half-dozen fights, and the town was full of drunk men, while now it is so quiet you would hardly know there was an election being held." And still many contend that conditions are worse under the dry law.

Mrs. H. Axtell was in Langlois the first of the week in the interest of the Welcome West theatre of Port-Orford, of which she is manager.

Mrs. Thos. Chatburn spent Saturday and Sunday of last week with her parents, Mr. and Mrs. Otto Neuman in North Bend.

Clarence Brown, Milton Brown and wife and Lex Cope of Langlois section were Bandon visitors Friday.

Vern and Earl Chesley are down from their ranch on upper Floras creek visiting their mother and calling on friends.

Reports came from several dairy ranches of fences being blown down by the heavy wind of Thursday and Friday. The fine new poultry house of the Allen Boice home south of town was moved from its foundation. Last week's wind storm took the roof off the Howe & Edwards mill on upper Floras creek and razed the old Pete Anderson hall at Denmark.

Mrs. J. W. Stewart of Mill valley was in Langlois Friday in the interest of the California Perfume company. Mrs. Clyde Corrick is the local agent for the company's products.

M. E. Branscomb of Coquille was registered at Laurel Inn Friday night.

Mr. and Mrs. Earl Vandewerker and Alexander Turner of New Lake hills was in Langlois Saturday morning, extending their visit on to Bandon.

Petitions are being signed to close all streams and their tributaries to commercial fishing from

the Coquille on the north to Rogue river on the south, to prevent the extermination of the food fish.

Charles Henry is one of the latest victims of the severe colds or la grippe that is making its annual pilgrimage through the country.

A delightful Spanish party was given the high school Friday evening by the Misses Gladys and Eloise Britton at their home near the Langlois Cheese factory. The invitations were written in Spanish, the guests attended in Spanish costumes, Spanish music, dances and conversation were the order of the evening. At the close of the entertainment a delicious Spanish lunch was served, consisting of chili con carne, hot tomatoes, and tortillas, with buns and chocolate. The first Spanish party ever given in Langlois was voted a decided success.

Mr. and Mrs. O. P. Haagenen and Mr. and Mrs. Helmar Nielsen were dinner guests of Mr. and Mrs. W. P. Laws Saturday evening, the occasion being the 17th wedding anniversary of Mr. and Mrs. Nielsen. The happy couple were married at the home of Mr. and Mrs. Haagenen by Rev. Haberly of Bandon.

Robertson Mine

Remarkable

One of the most interesting properties in Oregon at this time is the Robertson near Galice, Josephine county, owned by Robertson Gold Mine, Inc., K. Dean Butler, president and general manager, 534 E. 31st street, Portland. Frank W. Bewley of Seattle has recently been made superintendent of the Robertson mine.

The Robertson mine, as has been told in previous issues, was developed by the Robertson family, the father and several sons taking charge of the operations at various times. They have probably taken out more valuable ore for the amount of development than any other mine operators in the north-west. Without previous mining experience, they tunneled into some exceedingly rich pockets. According to D. M. Drumbeller Jr., who recently examined the property, something less than 400 tons of ore has been mined, and production records show this small ton-

Tuesday, November 20	6:42 5:53	11:35 12:11

nage to have produced more than \$225,000 in gold, an average of \$550 per ton of ore mined.

Mr. Drumbeller's report proceeds as follows:

"In extracting this small tonnage only a small part of the available stopping ground above the No. 2 level has been mined, and in my opinion it is entirely feasible to expect several times this tonnage of high grade ore from the veins already shown on the No. 2 level. The presence of at least 10 veins on the property has now been definitely established and further development will in all probability disclose still others. It is doubtful if all the veins will show ore that can be profitably extracted, but it does not seem reasonable that no new ore shoots will be discovered."

Mr. Drumbeller has recommended that the five-stamp mill be overhauled with minor alterations and additions, without trying to increase its capacity until more underground work has developed substantial tonnage of profitable ore. He also recommends a small sawmill with a capacity of 4000 feet to 6000 feet per day.

The Robertson mine is equipped with a blacksmith shop, one small ore car, and a two-bucket aerial tramway connecting the ore bin at the No. 2 level with the stamp mill, which is 1500 feet distant and 550 feet lower. The property consists of eight claims seven miles southwest of Galice on the divide between Howard creek and the north fork of Silver creek. Galice is 14 miles by auto road from Merlin, the nearest railroad point, on the San Francisco-Portland line of the Southern Pacific.—Mining Truth.

PIRATES' WEEKLY

Edna Miller, Editor

The seniors have not yet finished their thousand-word themes, but will have them all completed by Tuesday. The following are the subjects:

The Art of Fencing, by Veva Anderson.

The Life and Works of Shakespeare, Marion Tichenor.

The Origin of Football, Anna Tichenor.

The Development of the Locomotive, Dale Thurman.

The Changes in the Morals of People Today, Edna Miller.

Boats, Norman Quigley.

Aviation, Floyd Wright.

The Life of Christ, Buster Anderson.

F. B. Tichenor visited school on Wednesday. He presented the girls' basketball team with a high-bouncing, new basketball that he had promised them, and in addition he donated to the school pictures of former presidents, an inkwell for the teacher's desk, and a flag for the new gym, all of which are highly appreciated.

Several students have been busy for several days putting up screens on the windows in the gymnasium. The backboards are painted and put up, the baskets are up, and the lines are all painted. Whenever the screening is finished the gym will be ready for daytime practice.

Donates Books

Lieut. C. H. Tichenor and family of Portland have donated a box of books to the library. A list will be published next week. The books are very much appreciated.

OBITUARY

SARAH LUCINDA KIMBELL PAULMAN.

Sarah Lucinda Kimbell Paulman was born at Newaygo, Mich., May 11, 1869, and died in Portland, Oregon, November 5, 1928, aged 59 years, five months and 24 days. She was married March 19, 1888, to William J. Paulman at Dundee, Quebec, and to this union five children were born, all of whom were with her during her last illness, being Mrs. H. E. Washburn, Portland, Ore.; Mrs. E. A. Malloy, Port Orford, Ore.; Mrs. William Varley, San Diego, Calif.; Mrs. W. L. Gillis, Minneapolis, Minn., and William K. Paulman of Port Orford. Beside the husband and children, deceased is survived by eight grand children and two sisters, Mrs. J. A. Hewitt, Lady-smith, Wis., and Mrs. Thomas Herron, International Falls, Minn., and one brother, Edward Kimbell, Bell, Calif.

Funeral services were held in Portland from the Jacobson undertaking parlors Thursday, November 8, 1928, and interment made in Lincoln Memorial park, Portland.

Mrs. Paulman came to Port Orford with her husband about four years ago. About four weeks ago she went to Portland to visit her daughter, Mrs. Washburn. While there she submitted to an operation for gottle from which she was rallying when a blood vessel broke and though she was rushed back to the operating room, it was of no avail. The news of her sudden death was a great shock to her many friends in Port Orford.

While a retiring nature, Mrs. Paulman was greatly loved by everyone who knew her and her passing is mourned by countless of friends.

On Second Million--Trees, Not Dollars!

A. J. Hummel, "tree farmer" of Millville, Pa., likes to see 'em grow. He has set out more than a million forest trees throughout central Pennsylvania and has obtained a good start on his second million. He is a lumberman, but unlike lumbermen of a quarter century ago, he is also a conservationist and has given considerable study to the forestry problem.

About 20 years ago he started getting out trees on a small scale. Hundreds of thousands have been trees of the rapid-growing type, for use as timber. Other hundreds of thousands have been walnut, slow in growth, but making up in value for the delay, so that Hummel has laid the groundwork of a fortune for himself or perhaps his children. A score or more of abandoned farms have been set out in trees by this lumberman. His holdings are spread through half a dozen counties. This year alone he set out more than 200,000 trees. Of these he obtained 102,000 from the Pennsylvania department of forest and waters.

Will Rogers Says-

The future of the Anti-Bunk Party is uncertain, according to Will Rogers, its candidate for President.

"Both the other parties are paying off with nothing but thanks," says Rogers, "so I am not going to send any more thanks to my supporters. There is enough people now trying to live on thanks. In fact, that's about all the farmers will have to live on for the next four years."

"It was the silent vote that elected me and the loud vote that kept our other opponents out. But I promised faithfully when this campaign got going that if elected I would resign and that's the only campaign promise I am going to stick to."

"They talk about a man not being a good citizen if he don't vote. If everybody didn't vote then none of the candidates could be elected and that would be the end of politics and we could just go out and hire some good man to run the country."

"I am not saying yet what I will do in 1932, but I may jump to the Congressional Record. They have made me some very attractive offers to handle my next campaign. They claim they can give me plenty of space. As the election is over the members won't have to start electioneering in the Senate and House for a couple of years."

"We went into this campaign to drive the bunk out of politics but our experiment, while noble in motive, was a failure. Anyway, here is good luck from the only cheerful loser in the race."

Urge Cooperation In Celebrations

(From Western World)

Cooperation between the various cities of Coos county toward the observance of certain occasions throughout the year was the subject of discussion at the weekly luncheon of the chamber of commerce held at Jerry's last week. It was suggested that each city in the county adopt one occasion upon which the entire county might join in celebrating. Myrtle Point has the annual fair, Coquille the Corn Show, Marshfield might have an industrial exhibit. Bandon a Fourth of July beach carnival and North Bend one of the other annual affairs. Three visitors from Coquille—Lyman Carrier, M. O. Hawkins and Dave Thompson—spoke in favor of the plan and offered suggestions toward a better understanding and cooperation between the various communities of the county.

Geo. L. Coburn was tendered a vote of thanks for the splendid work done in selling tickets for the annual banquet and Walter Stanchfield received a vote of thanks for his work on the Bandon booth at the Corn show at Coquille.

If curtain stretchers are not available, good results are obtained by pinning the curtains on sheets to dry.

Fowls to be dressed are kept without feed and water at least 12 hours before killing.

LOST—Between Bandon and Port Orford, a wool sweater and a lumberjack sweater. Finder please leave at News office, Port Orford.
