"Nothing in the world can take the place of persistence. Talent will not; nothing is more common than unsuccessful men with talent. Genius will not; unrewarded genius is almost a proverb. Education will not; the world is full of educated derelicts. Persistence and determination alone are omnipotent. The slogan 'Press on' has solved and always will solve the problem of the human race."—Calvin Coolidge.

Editorial

TONNAGE

Tonnage is the cry of the transportation man, as tonnage is the very life blood of railroads. Rail lines are expensive facilities and warranted only where tonnage is available in a degree sufficient to their support. Southwestern and Southern Oregon offer the greatest undeveloped natural tonnage remaining in the United States—a tonnage that, with proper reforestation, will be perpetual, and tonnage of such a varied nature that it will flow during all seasons of the year and under all business conditions.

With the MID-PACIFIC COAST EMPIRE in Oregon—approximately the south-half of the State—containing one-fourteenth of all the standing timber in the United States; with the area of Southwestern Oregon west of the Cascades heavily mineralized and containing vast deposits of gold, copper, iron, chrome, marble, granite, limestone, and coking coal, as well as a great many minerals and non-metals of lesser importance commercially, all found in commercial quantities; with great areas producing agricultural, horticultural, dairy and stock products; and with extensive deepsea fishing banks; an enormous tonnage awaits rail facilities—facilities which will provide a cheap short haul to tidewater so that the "average" products may be marketed, also, instead of only the "cream" as now.

And wise Mother Nature so laid out the topography and drainage of this great region that such rail facilities are feasible and practicable. She did not stop there, however, but, in her far seeing wisdom provided a natural deep water harbor strategically located to serve as the ocean gateway for this great empire—a harbor where vessels may enter and depart during any storm, and a harbor practically free from the prevailing fogs of the Pacific Coast.

It would seem that Nature was at Her best when she provided for man's development of the enormous natural wealth of the southern half of Oregon. All that is required to assure the carrying out of Her plan is harbor improvements at Port Orford to protect vessels while anchored in the harbor from the southwest storms of winter. When this provision is made rail lines will naturally seek this tidewater gateway, and the vast natural wealth of the MID-PACIFIC COAST EMPIRE will produce generously.

Table with 4 columns: Day, High A.M., High P.M., Low A.M., Low P.M. Rows include Wednesday, Thursday, Friday, Saturday, Sunday, Monday, Tuesday.

STREET TALK

People will talk. It is the cheapest thing a man can do. That is why there is so much of it. There is more advice given and less consumed than any other commodity known. It is as free as air and as useless as a cat with nine tails. Casual conversations and all street talk require filtration before being accepted as facts.

Your opinion is not worth much less you can back it up with facts. Criticism is the cheapest thing in all the world. The critic is spontaneous in his judgment. He usually jumps at conclusions and quite often misses the first jump. There is, however, one form of criticism that has value, but it must be based on facts to be effective. Constructive criticism is always welcomed by fair minded men and women, but destructive criticism should never be resorted to.

THE LURE OF SOUTHERN ORE.

river and the Winchuck river. There are many other smaller streams. All these streams rise in well timbered watersheds on the Umpqua, Siskiyou and Crater National forests so their flow is constant with plenty of water during the summer season.

(Concluded next week.)

Fair Planned for Sept. 23 to 26

Coquille, April 15.—The dates of September 23 to 26 were selected as the definite time of the Coos and Curry county fair at Myrtle Point next fall by the members of the board of directors at the meeting in Bandon last night. The fair starting on Wednesday and ending Saturday.

Albert Powers, Jr., Powers, was elected as a member of the fair board to fill the vacancy left by Earl Cooley, Myrtle Point when he moved from the county.

Members of the board present were Ellis Dement, pres., Broadbent; L. H. Pearce, secretary, Myrtle Point; R. L. Wagner, Port Orford; O. C. Shindler, Bandon; W. T. Dement, Myrtle Point; Albert Powers, Jr., Powers; E. L. Clausen, Broadbent; and P. O. Lund, Myrtle Point.

Others attending the meeting were Jens Svith, Bandon; William Cuning, R. M. Knox and George Jenkins, Coquille.

Lamb Marketing Plan Develops

Organization to make and properly carry out plans for the grading and shipping of milk-fat lambs will be arranged at a meeting of all sheep men of Curry county to be held in the court house in Gold Beach, at 10 A. M., Thursday, April 23.

H. A. Lindgren, extension animal husbandman from the state college, and R. M. Knox, assistant county agent, in charge of this work in the county, will return from Eureka with all the information obtainable.

A representative from one of the commission houses in San Francisco will probably be at this meeting to outline their system of handling lambs and give the growers information on the kind of sheep they can top the market with.

It is also expected that the Eureka woolen mills will send a man to this meeting with the latest information on the wool market and their specialized requirements.

More than three thousand lambs have been signed with the intention of marketing through this organization providing the plan can be properly arranged so that it will mean added income for the sheepmen.

"The organization of the producers is highly important as shipment of milk-fat lambs by truck must usually be done with short notice. The directors should represent every community so that a shipment of lambs can be located even if it takes the "tops" from every section of Curry county to make the required number," said Knox in discussing the problem.

The meeting at the court house will include the presentation of plans for the organization of an association. A luncheon will be arranged so that the eating hour can be used to further discuss the marketing plan.

At 2 p. m. the group will assemble at the Wedderburn ranch where lamb grading can be demonstrated.

24 Hour Mail Route to N. Y.

Newark, N. J., April 11.—Airmail deposited in New York will be delivered in Los Angeles 24 hours later when the new transcontinental schedule is put into effect April 20.

T. B. Clements, vice president in charge of traffic of the Transcontinental and Western Air Express, Inc., said today that under the new schedule, planes will leave here at 10:45 a. m. and arrive in Kansas City at 9:10 p. m., where the mail will be transferred to another plane which will deposit the mail in Los Angeles at 7:42 (Pacific coast time) the following morning.

The eastbound service will be as fast. Passengers will fly on the same schedule as far as Kansas City, but they will be required to stay there overnight and continue the journey the following day. Clements said, however, that an express passenger service on a 24-hour basis also would be put into effect as soon as lighting of the route is completed.

Present at Hearing

Washington, D. C., April 16.—Representative Hawley has postponed his return to Oregon and will assist in presenting the claims of the Port Orford harbor improvement before the rivers and harbors board next Monday. George Sorenson of Port Orford has arrived to attend the hearing, at which Senator McNary will also appear.

Poison Bait for Cutworms

It is easy to rid the garden or field of cutworms with a poisoned bran bait. Mix 1 peck of dry bran with 1/4 pound of white arsenic or Paris green, then mix 1 pint of sirup or molasses with 3 or 4 quarts of water. Gradually add the water and sirup solution to the mixture of bran poison, stirring slowly all the time. It is important to get the bran thoroughly coated with the poison. Broadcast the poisoned bait along the rows or near the base of the plants late in the evening. Cutworms usually work at night but often feed on dark, cloudy days. Many kinds of cutworms go through the winter in the soil and begin to work early in the spring. It is therefore a good plan to make an application of the poisoned bait to the land before the crop comes up or is set out in the field.

These treatments will kill many of the overwintering cutworms before the crop is susceptible to attack.

Christian Endeavorers Convene in Medford

The forty-first state Christian Endeavor convention will be held in the First Presbyterian church, Medford, April 23 to 26. The gathering will be attended by a host of young people from all sections of the state. Curry county plans representation.

There will be a choir chorus, led by Claud Neely, choir director in the First Christian church in Portland, and addresses by both prominent clergymen and laymen of the state. In addition there will be conferences on topics in connection with young people's work, banquets, a parade, sight-seeing trips and other entertainment features.

Mr. and Mrs. W. O. Campbell and daughter of Marshfield and Mrs. Campbell's mother, were guests Sunday of Mr. and Mrs. R. Babel. A picnic dinner was enjoyed at beautiful Floras lake.

FOR SALE—Large Bronze Turkey Eggs, 30c a piece. Pearl Guinea Eggs, 10c a piece. Mrs. A. G. Miller, Garrison Lake. lte

Thursday afternoon we went up to the gymnasium and met with the high school scouts to start rehearsing for an operetta which will be given in the near future.

SUMMONS SUIT IN EQUITY IN CIRCUIT COURT OF STATE OF OREGON FOR CURRY COUNTY. K. Franck, plaintiff, vs. James H. Cotter, Mrs. James H. Cotter; Thomas Cotter, Mrs. Thomas Cotter; and any and all persons unknown, or parties unknown, claiming any right, title, estate, lien, or interest in the real estate described in the complaint herein, defendants.

To James H. Cotter, Mrs. James H. Cotter, his wife; Thomas Cotter, Mrs. Thomas Cotter, his wife, and all persons unknown, or parties unknown, made defendants herein: IN NAME OF STATE OF OREGON: You are hereby required to appear and answer the Amended Complaint filed against you in above entitled court and cause within four weeks from April 14, 1931, date of first publication hereof; if you fail to appear and answer on or before the last date prescribed in the order for publication hereof, viz: May 12, 1931, for want thereof, plaintiff will take judgment and decree against you and apply to the court for relief demanded therein succinctly: That plaintiff recover from James H. Cotter \$1400 and interest from August 1, 1929, at 4 per cent per annum; \$150 as attorney's fees, and/or \$350 fees, if contested, and costs; that the mortgage from James H. Cotter to Zweifel, recorded commencing Page 150, Book 8 of Mortgages of said county, be foreclosed and property therein described viz: Lots 10, 11, 14, and 15 of Sec. 30 in Twp. 40 S., of Range 13 W. W. M. Curry County, Oregon, be sold, and proceeds applied to the sums aforesaid; that each defendant be barred and foreclosed of all right or estate in said premises and have such other relief as is equitable. Service hereof is made upon you by publication in Port Orford News published at Port Orford, Oregon, for four successive weeks, by order of County Judge of said county, made April 11, 1931. L. A. LILJEQVIST, BENNETT SWANTON, Attorneys for Plaintiff, Residence, Marshfield, Ore. A1415c.

NOTICE TO CREDITORS PLEASE TAKE NOTICE that Letters of Administration of estate of George H. Wilson, deceased, issued to me by order of County Court of State of Oregon for Curry County, made March 6, 1931; all claims against said estate must be presented to me with proper vouchers at the County Clerk's office, Gold Beach, Curry County, Oregon, or at Law Offices of Liljeqvist & Swanton, Hall Building, Marshfield, Oregon, within six months from date hereof, March 25, 1931.
