

WORLD'S FAIR REPORT

Seattle—This is "Operation Smile" week throughout the state of Washington, host for the Seattle World's Fair, and about 100 out-of-state families can expect to be literally smiled to death.

The organized smile campaign, sponsored by the Washington State Junior Chamber of Commerce, the Fair's State Welcome Committee and the State's Tourist Promotion Division, will mean those 100 selected visitors will receive a day and evening of free entertainment and hospitality.

Washingtonians with the importance of tourism to their communities, to make visitors feel welcome to stay longer and to bring national recognition to Washington's warm reception of tourists.

In Auburn, where Welcome Committee general chairman E. B. "Gene" Kasper resides, the chamber of commerce has gone a step further. Residents in the 23 other Auburns in the U.S., in 23 states, have been invited to stay at the name-sake of their home town when they visit the World's Fair.

Incidentally a random survey of Fairgoers by Fair officials shows Calif., Ore. and midwestern tourists are leading the way to the Fair.

First of a series of 196 interviews with visitors showed that 105 were from out of state, 51 from Seattle and 40 from elsewhere in Wash. And here's an interesting fact to those contemplating, but still undecided, about visiting the Space Age World's Fair:

"Ninety-four per cent of those interviewed said they had no problems with traffic, housing or other matters during their stays.

Fifty-five per cent found Fair prices about the same as expected, 35 per cent spent less than expected and 10 per cent spent more."

Coming Events
Pumping up the most interest among coming events at the Fair during the June 20-30 period is the gigantic Roy Rogers and Dale Evans Western Show. It starts the 23rd and runs through July 7.

Junior Chambers of Commerce throughout the U.S. and the world will be honored June 25. Florida Day will be June 27.

U.S. Ambassador to the UN, Adlai Stevenson, was at the Fairgrounds June 19, for the formal dedication of the UN Pavilion.

Automotive Futurama, an exhibit of the Northwest's outstanding hot rods and customized cars, is slated to be held in the Seattle World's Fair Display Hall in the basement of the Opera House June 22 through July 1.

Presented by Automotive Exhibitions, Inc., the 10 day show will feature presentation of trophies and awards for the best displays, both by clubs and individuals.

Visitors to the Seattle World's Fair should know they have been or will be taking part in the No. 1 new story of the year, if you judge by the 5,700 news men and women from the U.S. and foreign countries who have been accredited to report Fair activities.

The Fair press relations officer said 1,778 news people from 35 states and 22 foreign countries saw the Century 21 Exposition in the first 43 days. More than 2,500 more are expected before the Fair ends October 21.

ZION LUTHERAN NEWS
Mr. and Mrs. Arnold Hougum announced that their daughter Linda will be united in marriage to Henry Hundley at Zion Lutheran Church, Saturday June 30, at 2 p.m. The reception will follow in the social auditorium.

We repeat: we had a very successful Vacation Bible School. Total enrollment was 62. Thanks to all who helped make the school a success: parents, teachers and helpers. The pupils want to thank everyone who donated the nice cookies and cool aid, also the teachers and assistants. On Sunday, the children sang several songs they learned during Vacation Bible School, under the wonderful teaching of Mrs. Daugs. All the parents who were in church on Sunday were treated to this wonderful singing.

The Portals of Prayer for July and August are to be found in the entrance of the church. Please take a copy.

The Lydia Ruth Circle met in the beautifully finished home of Mrs. Milton Leer. The Lesson was conducted by Mrs. Owen Russell.

The Ladies Choir will meet this Thursday, the 21st, at 7:30.

Non-Commuters
Family living may be a reality in the Antarctic region in the next ten years, a polar authority says. Men undertaking scientific duties there will be allowed to take along their wives and families, he says.

"A FUNNY THING happened on the way to the office," is the lead for this unusual picture which will appear in a national advertisement for Portland General Electric company in the July issue of Fortune magazine and the July 28 issue of Business Week. It's one of many efforts made by PGE's area development department to induce people and industry to "come to Oregon where the market is growing and the living is fun."

SIXES GIRL WEDS BEAVERTON MAN

Sharon Lee McGowan, daughter of Mr. and Mrs. J. C. McGowan, Sixes, and Gary Wayne Mohr, son of Mr. and Mrs. Sigmond Mohr, Beaverton, were united in marriage June 7. The Rev. Luther Williams of Bandon performed the double ring ceremony in St. Christopher's Episcopal church, Port Orford.

The bride wore a ballerina length gown of white brocade taffeta, styled on princess lines. Her veil of white tulle fell to her shoulders, and she carried a bouquet of white carnations centered with pink rosebuds.

Among those helping with the reception was Mrs. Eric Reuter-crona of Sixes.

The new Mrs. Mohr graduated June 3 from Oregon State University with a degree in business and technology. Her husband is employed in Portland.

The couple, who will make their home in Portland, left immediately for a honeymoon in the San Francisco bay area.

Comment from the Capital

You cannot buy for rubles. At exchanges, stores, etc., the cashier uses an abacus. I never did see a cash register.

I was now part of a group waiting to board buses to visit the university. It is a huge and impressive edifice, but nothing to compare with Cornell, Wisconsin or the University of California at Berkeley. It was an exact duplicate, I was informed, of a workers' apartment plainly located off in the distance. The building was almost as large as the Intourist guide advised. She said "that if a child was born in one room and spent five minutes in each room it would be 65 years of age before it emerged from the final room." Mister, that's a lot of rooms. More than I could accredit to the big structure. So that later, when I asked another guide, I was advised that there were over forty thousand rooms. Still later, a third guide proudly told me there were well over thirty thousand rooms. Here's one story the Soviets haven't yet put together properly.

You are informed that the university graduates 24,000 students yearly . . . that only 1 in 20 applicants is accepted. They admitted to 40 universities, of
