To Attend Session

Don't plan to get your driver's license Oct. 27, 28, or 29 because there won't be an examiner in sight. Some 75 Oregon license examiners will be in Salem for the Department of Motor Vehicles' annual Driver License Examiners' In-Service Training Conference. All examination services will be curtailed on the above dates throughout the state. Only those stations close to Salem will be open all day Monday, Oct. 26. The normal examination schedule will resume Friday, Oct. 20. Local offices can provide information as to the exact examining schedule for the area. COUPLE VACATION

Mr. and Mrs. W. F. (Doc) Livermore visited the Rushmore Memorial in South Dakota in 1956 when the third face was being carved, and this year they returned to see all the changes that have been made in that area in the last 11 years.

Traveling in a camper, they first went to West Yellowstone and stayed there for several days, then into Minnesota and Wisconsin where they fulfilled a wish of many years and really toured the countryside in which they were raised. She was born and raised in Holcombe, Wis., and he in Augusta, Wis., and one point of special interest was the dam at Chippewa which was built more than a hundred years ago entirely of wood and is now being replaced with steel and cement. At Rochester, Minn., they visited Mr. and Mrs. Harold Fisher of Port Orford who had been forced to spend most of their vacation there because of illness and surgery.

Next the Livermores went to White Bear Lake, Minn., where they attended the reunion of the five brothers and sisters of their family who had never been together, having been separated when very young. In Minneapolis they spent quite a bit of time at the Conservatory of Flowers where many, many acres are under cover... the only one that seemed to be missing was the Oregon Grape.

The return trip was made by the northern route through Glacier Park and they visited their son, Myron, and his family, at Libby, Mont., for four days. At Sun Dance, Ida., and near the Kootenai Dam there was a timber fire of such immense proportions that 3,500 fighters had been flown in that day and the Livermores had to travel "too close to it for comfort."

BIGELOW'S TRAVEL

Mr. and Mrs. Edwin Bigelow of Silver Springs recently drove to Eugene to visit his uncle, Donald Wade and family, then to Shady Cove to visit his nephew, A. W. Bigelow, and family. One of their twins was in the hospital in Medford with pneumonia and they also visited there.

Also present for the dinner were Mr. and Mrs. Sam Hewitt and Shelly, and Ed and Betty took a side trip on their way home to see their new home in Canby.

One wheel on the car was wrecked and the body was damaged, but the people escaped without injury. They had come to Port Orford to visit his parents, Mr. and Mrs. George McDonald, and had gone to Gold Beach to see her brother, Joe Fleetwood, who will go to Ft. Lewis in a few days to be shipped out for Vietnam as a member of the Medical Corps.

Teachers Show Slides To BPW

Two teachers from Brookings, Betty Jean Waite and Louella Jurle, showed pictures of Ecuador, South American, and told about the country during the meeting of the Business and Professional Women's Club of Port Orford last Tuesday evening at Sunset Inn in Gold Beach.

The pair were part of a group from all parts of the world who were invited to attend a Seminar of Educators in Quito, the capital and largest city of Ecuador, where they took their own pictures, thus being able to show true scenes and faces of the land which is right on the equator. The sun rises at 6 a.m. and sets at 6 p.m., almost every day of the year and the altitude of the areas between the ranges of the Andes Mountains is so high that it is always cool enough to be comfortable. The hillsides are terraced to grow the crops for good and the grain is harvested by being trampled by animals as has been done for centuries, but the people are hoping to improve their economic status and become economically independent.

Because of inadequate facilities to care for them, only about one half of the children of elementary age can attend school but with these conditions the people are trying to be progressive and up-to-date. Transistor radios were everywhere, even in one bedroom, they showed which had no sides, only mats for beds, and a picture of Jesus.

The seminar was held in the legislative palace and the Brookings teachers were entertained in the home of the American ambassador. They traveled by bus to most of the inhabited areas of the country and took a rough ride over the portion of the Trans-American highway which was built by Inca Indians is now called "John F. Kennedy Avenue." Since one out of every seven persons in Ecuador is of mixed blood, the language, customs and living conditions vary with each area. Outstanding in the population are the Octavalo Indians who have maintained their native dress and customs, using the color blue as a symbol of their tribe. There are many cathedrals with gold covered altars and statuary, and just outside the doors are people living in abject poverty. An American Radar tracking station, "The Voice of the Andes," is 20 miles south of Quito, and the ones who operate that welcomed the North American teachers with open arms. They beam their programs all over the world, but there is "nothing like a face from home."

It was announced that the BPW would hold a rummage sale at the Coos-Curry Co-op building in Port Orford Oct. 19 and 20 from 9 a.m. to 4 p.m. and that the next meeting would be Nov. 7.

The great dining specialty in the Windward Islands of the British West Indies is flying fish, baked, broiled, boiled, fried or as a flying-fish pie.

News About Social Security

Veterans who were in military service between Sept. 7, 1939, and Dec. 31, 1956, may have social security credits they don't know about. If a veteran was in the military service for at least 90 days and isn't using his military credits for other federal benefits, they can be used by the social security administration. Military service after Dec. 31, 1956, is covered by social security just like regular wages from employment. Men and women nearing retirement age who had this military experience should bring their records with them when they file for benefits. The military service could mean increased monthly benefits. Further information on social security for service men and veterans can be obtained by asking the Coos Bay Social Security Office for pamphlet OASI-31a.

Boys Participate

Sam Oberg, vo ag instructor at Pacific High, took three FFA boys, Glenn Libby, Tim Hanna, and John Lushbaugh, to the Pacific Livestock Exposition in Portland as a livestock judging team. Calvin Higgins of Langlois returned the Scramble Calf that he won at the Exposition last year and it placed third out of 10. The steer was sold at the Blue Ribbon auction Tuesday for 27 1/2 a pound and it weighed 905 pounds. Calvin spent four days at the Exposition as he had to have the animal up there Friday before being weighed on Sunday and shown, Monday.

Senior Citizens Notes

The Senior Citizens will hold their next meeting Monday, Oct. 16, at 6 p.m. with a potluck dinner. It will be a hard times party, with a Halloween motif, wear your old clothes and join the fun. Bingo will also be played.
