You may see a few young fellows from Port Orford-way who are heading for Cedar Bend to play golf and practice. There may also be a few heading this way from Gold Beach. This is an extremely encouraging sign that a fellow wants to play, wouldn't you say?

As you may know, Vivian Hassett and hubby Larry, are headed for South Dakota (b-r-r) for his new job with the U. S. Forest Service. The new lady you'll see from now on is Renee Chize, whose spouse is employed at U.S. Plywood. They have a three-year-old daughter and reside in Nesika Beach.

Two new Port Orford members, who just jumped on the Cedar Bend membership special, are Dave Pratt and Bill Woodward.

Because of the weather, ladies beginning golf lessons will begin April 3 and run through May 1, instead of beginning March 20 as originally announced.

Pirates Rate Two "Stars"

Battle Rock Girls Take Double Win

Coach Sharon Graham's Battle Rock girls basketball team gained a doubleheader victory at Bandon's Harbor Lights Junior High March 14 to push their combined season record to 10 wins and 2 losses. The 8th grade lasses, still undefeated after seven games, staged a strong third period to win going away 28-17. Their 7th and 6th grade sisters feasted in the second quarter to fashion a 21-14 victory.

The 8th grade feminine Pirates used their height to advantage. But at the start, points only trickled like the slow, steady rain that day. This gave them a narrow 8-6 advantage at halftime.

In the first half, Loree Schreiber and Darbie Helmken chucked in rebounds, Annette House sank one of her patented long shots, and Sue Marsh connected from 10 feet out on the right center. A deluge of nine unanswered points after intermission drowned the host Panthers' victory hopes. This flood was begun by Julie Myer's one-hander in the key and included 6 points, almost in succession, by Marsh. During late going, Jo Hammerberg hit pairs of both field goals and free throws. Cindy Benz' four markers included short hook shot, and House pushed in

Refrigerator Check List

A seven-point check on your refrigerator might surprise you. It may be one of the energy-wasters in your home contributing to the five percent waste of the Nation's total energy. You may be able to help eliminate this, reports Dora Rumsey, Curry county extension agent.

1. Try the seven point plan and see how your kitchen shapes up.
2. Refrigerator defrost manually? Defrost it before food builds up or becomes greater than one-fourth inch.
3. Avoid unnecessary opening of the refrigerator or freezer by removing several items for the meal at once.
4. Don't go "just looking" in your refrigerator.
5. Close the door immediately after placing items in or removing them from the refrigerator.
6. Allow foods to cool before placing them in the refrigerator. Cooling hot foods quickly? Just place the container first in cold (or even in ice water) to reduce the temperature before storing it.
7. Leaving town for a while? Defrost and unplug your refrigerator, and leave the door open.
8. Check the gasket around the door. Is it damaged or otherwise ineffective? It should be replaced. Try the dollar bill test -- close the refrigerator door on a dollar bill and if it can be removed easily, you have a problem to eliminate!
