Road Projects map now available
Want to know where and when you may encounter orange cones and work zones as you travel around the state this summer? The Oregon Department of Transportation is distributing the Summer 2009 Road Projects map so motorists can plan ahead and be prepared.
With 140 projects listed on the map, Oregon is experiencing one of the busiest construction seasons in recent years.
The construction map is a helpful guide for general information about construction activity. For current road conditions, including construction activity, log on to www.TripCheck.com or call 511. The Summer 2009 Road Projects map is available at several locations around the state, including Driver and Motor Vehicle Services offices, truck stops, welcome centers, and ODOT offices.
