

BULL RUN

The School children gave a farewell surprise party for Laura Haneberg last Saturday evening. Everyone reports a good time. Laura leaves Wednesday for Seattle, Washington.

Ralph Gibbons, of the Dalles, Oregon, is visiting his brother, George G. Gibbons of this place.

Miss Ivy Ten Eyke, who has been quite ill, is able to be around again.

Ernest Hernberg who is a Portland hospital, is expected home this week.

There is a report going the rounds that our editor was seen carrying a pail of water to the top of Mt. Hood last week. We are trying to guess for what purpose and finally have decided that it must have been used to put out the hidden flames in the crater.

Thanks to our editor a dangerous eruption may have been averted.

If there is any doubt about the truth of this report it may be well to ask Mr. Bennett about it.

ILLINOIS ROAD IMPROVEMENT.

Plan of New Highway Statute Outlined by Governor Dunne.

The comprehensive system of roads in Illinois which the state highway department has planned was interestingly outlined recently by Governor Dunne in an address before the Association of Commerce. When the state roads plan is worked out, Governor Dunne

GOVERNOR EDWARD F. DUNNE.

said, there will not be a mile of road in Illinois which is more than four and one-half miles from a state aid road.

"The question of good roads touches vitally the agricultural, commercial, educational, social, religious and economic welfare of Illinois and involves

the conservation of Governor Dunne said.

"In the improvement of its roads Illinois has until recently been indeed backward. Reports of the federal department of agriculture up to 1913 show that about 10 per cent of the 95,000 miles of Illinois road are improved in a permanent manner as against 35 per cent in the neighboring state of Indiana, 20 per cent in Kentucky, 28 per cent in Ohio and 50 per cent in Massachusetts.

"The loss to farmers because of the inaccessible primary markets and the abnormal expense of transportation due to bad roads must be considered as a contributing cause of the high cost of living. Bad roads keep pupils from the schools and voters from political gatherings and from participation in elections. They impair the efficiency of churches and social, fraternal and other organizations.

"The last general assembly placed upon the statute books a law which affords a scheme of state aid and provides for co-operation between the state and counties in such a way as to encourage and develop road building. This law created the present state highway department.

"This department has been thoroughly reorganized. It has laid out the roads that will constitute the proposed state aid road system of the entire state, and maps have been made for about 16,000 miles of improved roads.

"The entire system of concrete and brick roads will cost the state, as the department estimates, \$180,000,000, but the farmer's part of this will be only 8 cents an acre each year for twenty years to construct the entire system, he paying under the new road law 40 per cent of the cost of the system, the railroads, the villages and the cities paying the balance of the cost of construction."

HILL CREST

Mr. Eddy was hauling up posts from Sandy last week for the old Maronay place where Mr. Honey is going to have improvements done.

F. D. Honey of Gresham, was up on Saturday looking after his property, the old Maronay place.

On Tuesday Mr. Honey and a party of surveyors came up from Gresham to survey lines through the Honey property, preparatory to building a new road. They expect to put new fences around the place, move the house and do quite a bit of improving. Mr. Sirrois will move onto the place this fall.

Mr. Prier, of the Oregon Brass Works was up here Sunday looking after his property he recently purchased from Mr. Cannon.

Mesdames Gourdeau, Maronay, Clark and Watkins still have hay to cut, but we don't seem to be favored with hay weather.

SATURDAY, AUGUST 14th

The following: Seven cows, two 2 year old heifers with calves, one 2 year old steer, one 3 year Durham bull, 14 hogs, 1 good brood sow, 14 pigs, 8 weeks old, 1 Chesterwhite boar, 1 year old, other stock will be offered for sale.

TERMS: All sums of ten dollars and under, cash. Larger sums bankable notes accepted bearing interest at 6 per cent for 6 months. Five per cent discount for cash.

DR. BOTKIN, Owner
George Wolf, Auctioneer.
John Brown, Clerk.

LIVE STOCK NOTES.

Silage is a good thing for dairy cows, for fattening steers, for feeding ewes and fattening lambs.

Put new floors in the pens when it is necessary. It is dangerous to have holes in the flooring of the pigpens.

Give each colt its regular grain ration and enough clean, bright hay to keep it growing and thrifty.

Flockmasters should carefully guard against exposing flocks to drafts. When they lie in drafts catarrh is liable to be the result. If the pigs are cold and pinched they can make no gain. Look out for them, protect them, or you will be the loser in dollars.

Keep the colts fat, and you will have an easy keeping, hardy horse.

ALL POINTS OF THE COMPANY

in the business world converge in the commercial bank account. The convenience of paying bills by check, the accuracy with which a payment may be traced and the safety in general of this method of payment make it imperative that every business man have a bank account. Begin one today.
