

The Best Is None Too Good

Galvanized wire cloth is the best, looks better, wears better, lasts longer and only costs a trifle more than the black wire screen.

I AM NOT AN OFFICE SEEKER

But urged to enter the race for the

REPUBLICAN COUNTY COMMISSIONERSHIP

by the hundreds of taxpayers who know
me—the reason being my years of ex-
perience as a contractor, road and
bridge builder, coupled with a reputa-
tion for being a hard, conscientious
worker and one of the heaviest taxpay-
ers in my home part of the county.

Having constructed roads and bridges
I am perfectly capable of overseeing
the building, estimating the values and
doing the work myself, if necessary,
without having to put the taxpayers to
the added expense of hiring technical
experts.

Owing to my reputation as one of the
original automobile advocates and sell-
ing agents in the county, I am conver-
sant with the county's roads—I know
the condition of these roads, the needs
of these roads and the majority of the
people who travel these roads.

World's Future Fish Supply.

The sea beats upon 20,000 miles of
Alaska shore line, a distance greater
than the circumference of the earth.
All of that vast stretch of waters is
teeming with the most edible fish on
earth. Every bay is a harbor where
these fish can be prepared for the mar-
kets of the world, and the greatest
ships afloat can anchor in safety while
taking on their cargo of food for the
hungry of all climes. In a few years
Alaskan fish will be famous wherever
ships sail and men exchange the prod-
ucts of their toil. This is but one of
Alaska's sources of wealth. — Pitts-
burgh Dispatch.
