COLOMBO VILLA

The coyotes in this vicinity are prearranging for the 4th.

Mr. and Mrs. M. Pezzolo attended the rose carnival last week.

Mr. and Mrs. M. Wunsche and family visited with Jerger's Sunday.

Joe Hazelwander is cutting hay.

Mr. and Mrs. Alfred Winkler and little daughter, Rosemary, are visiting with R. Kaiser and J. Muir.

Theresa Hazelwander is staying with Mrs. Mark Senske.

Mrs. E. Boitano and children visited Pezzolo & Co., last week.

CHERRYVILLE

The Weather Master General is alright.

Some say we might have a little rain now. Forget it!

Railroad land will soon all be taken up in this vicinity as every quarter will have an occupant in a short time.

Daisy Odell will give a dance at the Botkin's ranch one half mile east of the post-office, Saturday evening of this week. Everybody invited.

Mrs. Clark and family are visiting at Prof. Couper's this week.

Dr. and Mrs. Botkins are expected out this week and will occupy one of the houses on their ranch during the summer.

A camp of Boy Scouts will come out next Monday and remain a couple of weeks on the Dr. Boyd place and perform their stunts and make the woods ring with their war-like shouts and battle-songs. Everybody is for preparedness now, especially the makers of gunpowder, guns and death-dealing instruments. The Japs and Mexicans are able to invade us any minute.

The paw-paw tree at Phillip Evans in Dover bloomed this season and this is doing pretty well for the second year out. More of these trees, which thrive in other states will soon be planted extensively here.

DEEP CREEK

A large crowd attended the graduating exercises, Friday evening. Harry Henriksen, chairman of the board, gave out the diplomas. Miss Berke has taken the deepest interest in her pupils and accomplished a work that will not be forgotten.

Deep Creek School closed Saturday with a picnic.

O. S. Rydman and family have returned to their home in Portland.

Arnold Ackerson, David Fosberg and Joe Blomich took in the rose carnival at Portland.

Not in His Line.

A society for disseminating religious literature once sent a bundle of tracts to a railway manager for placing in the waiting room with the title, "A Route to New Jerusalem." He returned them with the message, "We cannot place the tracts, as New Jerusalem is not on our system."—London Tit-Bits.

They All Do Then.

"Tell me, is there ever a time when you feel that you really hate your husband?"
"Yes. The times when he telephones me at the last minute that he won't be home for supper."—Detroit Free Press.

SYSTEM & BANK ACCOUNT SUCCESS

A BUSINESS MAN

must conduct his business in a systematic way if he would attain success. It must not be run in a haphazard manner. In the center of the commercial structure is the commercial bank account. It is the corner stone of all big business. Becomes systematic by opening an account with our bank, and success will attend you.

The "Bill Pick."

The implements used in putting a corn crop into the ground vary with the locality and the amount of labor and its cheapness. Where the crop or the farm is very small hand planting methods much like the old row by row

dropping and hoe covering are adopted. "Bill picks" or hand corn planters are one of the implement types used where labor is very cheap and the crop is not extensive. These implements are rarely seen in the corn belt, though they are very handy for replanting.—Farm Progress.

BITS OF FARM WISDOM.

To prevent your apples and grapes from rotting spray them with bordeaux mixture.

Do not fail to set a few rows of late tomatoes. If gathered just before frost and wrapped in paper the green fruit will keep until Christmas or later and ripen well.

If cauliflower is to thrive it must be planted on moist, well drained, fertile soil.

In the case of young fruit trees planted about the home grounds, where they cannot be cultivated, keep the soil stirred about them with a hoe or place around them a heavy mulch of straw or stable manure.

Hoe the weeds out of the corner of the garden before they develop seed, and you will lessen the number of weeds that will come up next year.

Learn to know our ladybug friends and give them a chance to multiply as much as possible. There are a number of varieties of ladybugs, and all of them make war on other harmful bugs, particularly plant lice of various kinds.

Spring Apple Spraying.

As a result of the field experiments in spraying apple orchards the University of Illinois agriculture experiment station recommends that the first summer application be made after the cluster buds open, as soon as the individual flower buds spread apart, but before the flower buds themselves open. Spraying may be continued until the petals have commenced to separate, but should be discontinued as soon as the stamens and pistils of the flowers are exposed. This spray is for the apple scab and to kill the various leaf eating insects which appear early in the season, including bud moth, tent caterpillar and canker-worm.
