Notice For Publication

DEPARTMENT OF THE INTERIOR,
U. S. Land Office at Portland, Oregon,
June 7th, 1916.

Notice is hereby given that Maximilian T. Galarnear, of Cherryville, Oregon, who, on December 27th, 1909, made Homestead Entry, No. 02103, for Lot 3, N $\frac{1}{2}$ of SE $\frac{1}{4}$ of NW $\frac{1}{4}$, W $\frac{1}{2}$ of E $\frac{1}{2}$ of lot 2, W $\frac{1}{2}$ of lot 2, N $\frac{1}{2}$ of SW $\frac{1}{4}$ of NE $\frac{1}{4}$, N $\frac{1}{2}$ of SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of NE $\frac{1}{4}$, lot 4, and N $\frac{1}{2}$ of SW $\frac{1}{4}$ of NW $\frac{1}{4}$, Section 5, Township 3, South, Range 6 East, Willamette Meridian, has filed notice of intention to make Final five-year Proof, to establish claim to the land above described, before the Register and Receiver of the United States Land Office, at Portland, Oregon, on the 27th day of July, 1916.

Claimant names as witnesses:
Clarke Corey, of Sandy, Oregon, Loyd Corey, of Sandy, Oregon, William O. Rugh, of Cherryville, Parnell Averil, of Cherryville, Oregon.

Proof made according to law under which entry was made.

N. Campbell, Register.

Notice To Creditors

In the matter of the estate of ULRICH TRUBEL deceased:

Notice is hereby given that the undersigned has been appointed administrator of the estate of ULRICH TRUBEL by the County Court of Clackamas County, Oregon. All persons having claims against said estate are hereby notified to present the same to me for payment at the office of HAMMOND AND HAMMOND, Beaver Bldg., Oregon City, Oregon, with proper vouchers, within six months from the date of this notice.

Dated June 29th, 1916.

Charles Krebs, Sr.

executor of the estate of ULRICH TRUBEL, deceased.

HAMMOND AND HAMMOND,
Attorneys for administrator.

BIDS WANTED

Bids will be received at the office of the Clerk of School District No. 46, on or before July 29, 1916, for the conveyance of school children from the McCormick home and from Stracks private road, to the school at Sandy, in the morning and conveying the same pupils to the same points at the close of school each school day, bidder to be in position to furnish a bond of \$1,000.00. The School board reserves the right to reject any or all bids.

F. E. Beckwith, Clerk.

KELSO

Mrs. Eliza Dickinson, formerly the wife of Marvin Dickinson, who has been a resident of Kelso for many years, died after a lingering illness at a sanitarium in El Paso, Texas. She was brought to Pleasant Home for burial which occurred Monday, July 17th. She is survived by a son, William Dickinson, who resides in Kansas. Another son, John Dickinson died about a year ago.

A considerable amount of hay has been damaged by the rain in this vicinity.

NOTICE

Notice is hereby given that on the 10th day of July, 1916, the City Council of the City of Sandy adopted the following resolution, to-wit:

Be it resolved by the Common Council of the City of Sandy.

Whereas, the City Council of the City of Sandy deeming it expedient to improve Center Street from the North line of the Revenue County Road abutting upon said Center Street in the City of Sandy to the South line of Park Avenue in said City of Sandy by grading said Street to conform to the grade established by ordinance number 33 and by laying and establishing a roadway of crushed rock eight (8) feet in width along the center line of said Center Street, said roadway of crushed rock to extend four (4) feet each way from the center line of said Center Street, and said layer of crushed rock to be six (6) inches in depth in the center and taper uniformly toward each edge to a depth of four (4) inches on each edge of said roadway and the top of said roadway to be in conformity with the established grade of said Center Street as established by ordinance number 33, passed on the first day of March, 1915, does hereby require the City Recorder acting in the capacity of the City Engineer, plans specifications, and estimates of said proposed improvement of Center Street in the City of Sandy, Clackamas County, Oregon.

Notice is hereby given that the City Council of the City of Sandy did upon the 11th day of August 1915 pass the following resolution, to-wit:

Be it resolved by the Common Council of the City of Sandy,

Whereas, the Recorder of the City of Sandy acting in the capacity of City Engineer having filed with the City Recorder of the City of Sandy plans, specifications and estimates for the improvement of Center Street in the said City, of Sandy, and.

Whereas, the City Council of the said City of Sandy finding said plans, specifications and estimates satisfactory, do hereby adopt the same and hereby declare its purpose of making said improvement in accordance with said plans and specifications by grading said Center Street to conform with the grade established by ordinance number 33 and by laying and establishing a roadway of crushed rock eight (8) feet in width along the center line of said Center Street said roadway of crushed rock to extend four (4) feet each way from the center line of said Center Street and said layer of crushed rock to be six (6) inches in depth in the center and taper uniformly towards each edge to a depth of four (4) inches on each edge of said roadway and the top of said roadway to be in conformity with the established grade of said Center Street as established by ordinance number 33 which ordinance was passed upon the first day of March, 1915.

Be it further resolved that the Recorder be instructed to publish and post notice of approval and adoption of the plans, specifications and estimates of the proposed improvement of said Center Street.

Be it further resolved that the 25th day of July, 1916, at six o'clock p. m., is hereby set as the last day upon which a remonstrance against the proposed improvement may be filed with the Recorder of the City of Sandy.

Be it further resolved that cost of said improvement over and above the amount donated be assessed against property benefited by such improvement in accordance with the provisions of the Charter of the City of Sandy.

Published and posted by order of the Common Council of the City of Sandy, this 11th day of July 1916.

F. E. Beckwith, Recorder.

HILL CREST

John Maroney has received the sad news of the death of his sister, Mrs. Hamilton, of Shedd, Oregon. He and Mrs. Maroney attended the funeral in Portland on Monday.

The Watkins men from Gresham were through here last week.

Mrs. Rowe was entertaining her brother from North Dakota and sister, from Portland last week.

The rain is proving a very unwelcome visitor to the farmers who have been trying to hay.

H. H. Watkins and family motored to Portland Sunday to visit Mrs. Watkin's brother. They were accompanied by Mrs. John Maroney who is visiting her mother at Lents.

MILLET FOR CATCH CROP.

Often Successfully Seeded as Late as Aug. 1.

If one crop fails in Kansas there is usually time to plant a catch crop. Millet is such a crop and is often successfully seeded as late as Aug. 1, although the best results are obtained when planted three weeks later than regular corn planting time, points out G. E. Thompson, specialist in crops, division of extension, Kansas State Agricultural college.

"Each year from 120,000 to 170,000 acres are planted to millet in Kansas," states Mr. Thompson. "Contrary to general opinion, the heaviest millet producing counties are in the eastern half of the state.

"The rate of seeding varies from fifteen pounds per acre in the western part of the state to thirty pounds in the eastern part. Because of the fact that the crop matures quickly and produces a medium amount of a fair quality of hay millets have an important place in Kansas agriculture.

"Millet has intensive root systems and draws its food and water supply almost entirely from the surface foot of ground. This results in leaving the surface depleted in both plant and food and moisture.

"The average feeder prefers many other feeds to millet. As a rough estimate each hundred pounds of millet hay contains about half as much protein as the same amount of alfalfa hay. Millet contains about the same, sometimes slightly more protein than common prairie hay.

"Hungarian millet is the variety generally preferred in eastern Kansas, because experience has shown it to be better adapted to humid conditions than the other varieties. The quality of hay produced by it is first class.

"In the central and western part of the state either the common or German millets are usually preferred. The Ger-

CHERRYVILLE

And the next day it rained!

Sorry weather for hay making—the first of the week.

Mrs. Louise Boyd and a party of lady friends are staying at the Boyd summer home this week.

Mrs. Constance Euing and friend, of Portland, are spending their vacation at W. O. Rugh's.

The roads are in a bad condition again, but still the autos continue to move up into the mountains, in hopes that the clouds will roll away before long.

The moon men say, don't expect any good settled weather until Friday the 21st., the last quarter of the moon.

Over five-hundred thousand have already registered for the land drawing on July the 27 in the Colville Indian Reservation, and only about twenty-two hundred can draw anything. Fine thing for the railroads and the restaurant and hotel people.

The Wenland Brothers at Firwood sold a big steer lately that weighed over eighteen hundred pounds, for \$147. This topped the market and beat the record of anything in this part of the country. This animal was grass and browse fed, getting almost his entire living out of the woods. He was past five years of age. This beats the dairy business, and then there was no incessant and perpetual grind to raise these stock, as there was no milking to be done. Neither was there any high priced feed given to this steer as he took almost entire care of himself since a calf.

Strausburg

Mrs. Myrtle Patterson is visiting her sister, Mrs. Walter Kizer.

Mr. and Mrs. G. W. Beers and daughter Hazel, Mr. and Mrs. W. Kizer and son Raymond, Myrtle Patterson and Cecil Duke attended lodge Thursday night.

Hazel Beers returned home Thursday after a weeks visit with the Proctor family, of Cottrell.

Mrs. E. Beers and Mrs. G. W. Beers visited with Mrs. Duke of Troutdale.

Mrs. Loundree visited with Mrs. Kizer Friday morning.

Martin Slaucky spent a few days with the Somerfelt family of Gillis.

Those from here who attended the dance at Damascus Saturday night, were Mr. and Mrs. G. W. Beers and daughter Hazel, the Misses Leta and Beatrice Beers, Fred Sladky Lex Smith and Cecil Duke. They all report a good time.

Uncle Morgan was a caller at the Kizer home Friday evening.

Mr. and Mrs. E. Beers visited Mr. and Mrs. C. H. Edwards Sunday afternoon.

C. H. Edwards was in camp Sunday.

G. W. Beers made a business trip to Portland Monday.

Walter Kizer and Cecil Duke attended lodge Monday evening.

If you know a few things and know them well you are a wiser man than the fellow who "knows it all."

man variety produces the most hay. It takes approximately two weeks longer to mature than common millet. The latter makes a finer and better quality of hay than the German.

Killing Colorado Beetles.

Spraying potato vines for the purpose of killing Colorado beetles should be done as soon as the work of the insects is noticed, asserts George A. Dean, professor of entomology in the Kansas State Agricultural college.

"This destructive insect is not hard to control," says Professor Dean. "One part paris green mixed with twenty to thirty parts of air slaked lime or flour and used as a dust spray affords the best results on young plants. It should be used when the dew is on by means of powder guns or dust spray machines.

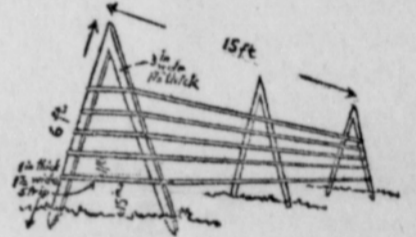

"The paris green spray, prepared by mixing one pound of paris green with 75 to 125 gallons of water and the addition of a pound of quicklime to the mixture, makes an effective spray. This spray will burn vines if the quicklime is omitted.

"For the proper mixing and application of this spray a bucket pump or knapsack sprayer of good quality is sufficient for use in small gardens, but on a large scale a potato sprayer to be drawn by horses through the rows of plants is necessary.

"Arsenate of lead serves the same purpose as the paris green, a pound combined with fifteen or twenty gallons of water being more adhesive. It sticks more firmly to the leafage and is much less likely to produce scorching than the paris green spray. Cleaning up the vines and plowing potato land in the fall, after the crop has been harvested, will aid in reducing the number of hibernating beetles."

A Handy Garden Trellis.

For growing cucumbers, tomatoes, pole beans or the taller varieties of peas a trellis has many advantages over poles or brush. Fewer cucumbers remain hidden under the leaves and go to seed, and it is easier to spray them on both sides of the leaves to

prevent rust when they are growing on a trellis. A trellis such as illustrated is easily made, and if put under cover as soon as the growing season is over it will last for many years. If the two uprights are fastened together with a bolt and the end strips left off the trellis will fold up, which makes it much easier to handle.—Farm and Home.

A New Wheat Pest.

Another pest has been added to the active enemies of the American wheat grower. While Europe has been at war one of its most dangerous grain enemies, the stripe rust, found its way to America and was noted in last year's crop in the northwest. It is markedly like the well known stem rust that has been cutting into wheat growers' profits with a great deal of regularity recently. That it has been pretty widely scattered may be guessed from the fact that thousands of car lots of wheat from Montana and the Pacific northwest were shipped to midwestern points during the fall and early winter, where such wheat has been bought for seed the pest is pretty certain to make its appearance this season. There is no known method of fighting it save to delay its appearance in the great wheat districts as much as possible by planting no wheat that was grown west of a line passing through eastern Montana.—Farm Progress.

A Boon.

"I know an actor who wants to rent the haunted house on your hands."

"What does he want with a haunted house?"

"Says he'll jump at any place where the ghost walks regularly."—Baltimore American.
